

## AIR CIRCUS AT MARION HEADS TOUR PROGRAM

State Fliers to Stay at Muncie Tonight as Finish Nears.

By United Press  
LAKE WAWASEE, Ind., Sept. 14.—Nearing the end of their 1,000-mile flight, planes in the sixth annual all-Indiana air tour took off here today for Marion and Ft. Wayne.

Luncheon and a spectacular air circus are scheduled for Marion. The planes will stop overnight at Ft. Wayne.

One of the stops on yesterday's schedule was skipped because rain had converted the Winamac airport into a field of mud. All the planes flew over the airport, however, before continuing on to Rochester for luncheon.

### In the Air

Weather conditions at 9 a. m.: South southeast wind, 7 miles an hour; barometric pressure, 30.02 at sea level; temperature, 69; general conditions, high, overcast, lower, broken clouds; ceiling, estimated at 6,000 feet; visibility, 2½ miles, increasing, light fog.

## Indiana in Brief

By Times Special  
LEBANON, Sept. 14.—Construction of Lebanon's water softening plant, the first municipally-owned plant of its kind in Indiana, is expected to be started early next week. Cost will be approximately \$25,000.

Part of the work will be a city project, consisting of a brick building 50x100 feet. Two lime sludge beds will be constructed as a Federal Emergency Relief Administration project.

The city's share of the work will be paid for with money from funds of the municipally-owned water plant.

By Times Special  
NOBLESVILLE, Sept. 14.—The Hamilton county Red Cross chapter has received a donation of \$1.12 as the result of an unusual chain of circumstances, the Rev. G. E. Jones, chapter chairman, explains.

A Noblesville dealer recently bought a carload of stock feed from an out-of-town manufacturer. After the feed had been sold to various customers of the dealer, the shipper wrote that a certain ingredient had been omitted through error, and mailed a check for \$1.12 to cover the deficiency.

The dealer, lacking records of patrons who had bought the feed, gave the \$1.12 to the Red Cross.

By Times Special  
TOWN SUE, Sept. 14.—The town of Kirkin is defendant in a \$25,000 damage suit on file in Clinton circuit court here.

Plaintiff in the case is Harold Everman, who alleges he incurred permanent injuries on March 5 at the pumping station of the town-owned water plant.

It is alleged that on order of the town marshal, who has charge of the plant, Mr. Everman descended

into a pit to recover a screwdriver. He struck a match and oil in the pit was ignited. Plaintiff suffered burns.

### SHOT-ROUTES THIEVES FROM CHICKEN YARD

Wounded One He Believes, Farmer Says.

Two chicken thieves, one of them believed to be wounded by a charge fired from a shotgun last night, are being sought by deputy sheriffs today.

The shooting occurred when Charles Thompson, a farmer living near the county line south of the city, and John Fielder, an employee, surprised the thieves in the chicken yard. Fielder fired and heard one of the prowlers cry out. The thieves fled through a corn field.

Forty-six chickens valued at \$15 were reported stolen from George Cottogin, 3305 West Tenth street, last night.

## STATE NRA LAW VOTE IS DUE AT LABOR MEETING

Election of Officers to End Parley: Muncie Gets 1935 Session.

By United Press  
SOUTH BEND, Ind., Sept. 14.—A vote on a resolution proposing an Indiana law embodying provisions of the NRA and election of officers for 1935 today concluded the annual convention of the Indiana Federation of Labor.

Muncie will entertain the convention next year.

Several resolutions dealing with recovery plans and world peace were adopted during yesterday's business session. One of them denounced private manufacture and sale of munitions.

Other resolutions adopted included: Advocating establishment of kindergartens wherever school finances will permit; supporting legislation restricting postal workers to a five-day week and six-hour day without pay reduction; increasing legal requirements for chauffeur licenses, stipulating none to be issued to persons under 21; threatening a state-wide boycott of lamb and mutton unless Wool Growers' Association in the west recognize the Sheepgrowers' Union.

### VICTIM'S FATHER

Shirley C. Dillon

Father of the brutally murdered 13-year-old Donald Dillon, Shirley C. Dillon, today was in Indianapolis, determined to remain here until the mystery surrounding the murder is cleared up and the guilty punished. This picture of him was taken at police headquarters yesterday just after he had given valuable information in the case to members of the homicide squad.

### Twentieth Son Is Born

By United Press  
PAVIA, Sept. 14.—The twentieth son was born today to a peasant, Mrs. Antonio Dossena, in the town of San Genesio. She was married in 1909.

## POLAND PLAYED BY LEAGUE FOR JEWISH ACTION

Britain and France Condemn Nation for Versailles Treaty Repudiation.

By United Press  
GENEVA, Sept. 14.—Poland's repudiation of the minority clauses of the Versailles treaty, denying the protection of the League of Nations to 2,500,000 Jews in Poland, met with severe condemnation in the assembly of the league today.

Sir John Simon, British foreign secretary, speaking slowly and with biting irony, reminded Poland of her obligations—particularly to the Versailles treaty—and to the league.

He said Britain and other signatories to the Polish minority treaty, under which Poland accepted a guarantee by the league for protection of the national minorities within her borders, declare it impossible for any state to release herself from such obligations by one-sided action.

It was an implied threat that

Poland's ultimatum rejecting the minority clauses would not be accepted by the powers.

Foreign Minister Louis Barthou of France joined Sir John in censuring Poland's action. He indicated yesterday's speech by Joseph Beck, Polish foreign minister, announcing his country's attitude, might be interpreted as a threat or an attempt to impose an already accomplished fact on the league.

After the speeches, it was widely rumored that Poland would quit the league.

### ACADEMIC ENROLLMENT SETS RECORD IN CITY

High School Registration Exceeds Last Year's by 805.

Indianapolis public high schools have a new all-time enrollment record of 14,313 for 1934, an increase of 805 over 1933.

The freshman enrollment increase, according to Paul C. Stetson, schools superintendent, was 497 for a total freshman enrollment of 3,177. No additional teachers will be necessary, he said.

Total enrollments are: Shortridge, 3,117; Manual Training, 1,686; Technical, 5,934; Washington, 418; Broad Ripple, 332; and Crispus Attucks, 1,543. The latter school was the only one not showing an increase.

### GIRL, 11, IS MOTHER

7½-Pound Child Is Born to Young Tennessee Miss.

By United Press  
JEFFERSON CITY, Tenn., Sept. 14.—An 11-year-old unmarried girl has given birth to a 7½-pound baby in Jefferson hospital here. Doctors never heard of such a young mother in this section before.

## "WHY CHILDREN'S WASHING IS *Easy* WITH CHIPSO"

TOLD BY MRS. HERBERT F. DEYHLE, CINCINNATI, OHIO

BETTY JANE, ROSEMARY, MRS. DEYHLE WITH HERBERT, JR., RUTH ANN

"ONE SOAP SAFE FOR *Everything*"

"INDOOR DIRT gets grimed into the children's clothes when they creep and tumble and play games on the floor. But it lets go easily in Chipso suds. I'm convinced that Chipso suds are thicker, and soak dirt out quicker, than any other soap. And yet they're SAFE—so safe that I can wash everything with the one kind of soap! All the clothes, including baby's, which you see in this picture have been washed regularly with Chipso for several months."

"WASHDAYS FREE FROM HARD RUBBING"

"OUTDOORS, of course, there are a million ways for children to get dirty. But I have no use for a washboard, or a boiler, or for soaking clothes overnight. A 15-minute soapy Chipso soaking for the white clothes . . . about 10 minutes for the colored clothes . . . is all they need. No hard rubbing. Our white clothes are pure white—soaped clean. Not bleached. They smell sweet."

"CLOTHES LOOK NEW A LONG TIME"

"IT'S GOOD-BYE to losses from fading when you start to use Chipso. Materials stay new and strong, too. They aren't rubbed thin on washday, or weakened by strong soap. Some of my girls' prettiest dresses are two or three years old! I do the sewing myself, so I feel repaid when they wear well. With Chipso washing, a dress is usually outgrown long before it begins to look old."

DISHPAN TEST PROVES LAUNDRY SOAP SAFETY

"SAFE FOR HANDS—SAFE FOR CLOTHES" is a good guide, I think," says Mrs. Deyhle. "After washing dishes with Chipso, I can sew on silk, or run my hand through a silk stocking, without ruffling a thread! That's why I know that Chipso is safe even for the baby's clothes and for our nicest underwear. CHIPSO MAKES ALL OUR CLOTHES WEAR LONGER."

"LET'S GET AN EARLY START"

"WE CAN—MY LIST'S ALL READY"

... and if you don't mind, Mrs. Brown, Florence will go with us. You know she and her young man, Bob, are going to be married the 5th of next month. Poor kids, they've been saving their pennies for a good many months, aimin' to go to housekeeping right away." . . . "Well I'd think she WOULD want to go with us! I hope you've told her what kind of bargains to expect in Ayres Downstairs Store's Anniversary Sale." . . . "Have I! Why I told Florence that she must get the habit right away, of buying every last stitch of her clothes and Bob's in Ayres Downstairs Store. And I told her that this Anniversary Sale was her golden opportunity to fill her linen closet with sheets and pillow cases and towels—and she can even buy her rugs down there." . . . "Well, she'll save lots of money—just as I expect to on MY list—goodness, it fills a whole sheet of paper. Remember now, we must be there promptly at 9!"

Store Hours  
9 A. M. to 6 P. M.
