

## Pork Roast Glorified by Bananas

Combination Gains Favor  
as Method to Aid  
Meat's Flavor.

BY RUTH CHAMBERS  
Authority On Meat Cookery.

BANANAS are a versatile food, but for them to be used as fruit when ripe, as vegetables when green, and are most delicious served in combination with meat. I do hope you will try serving cooked bananas as an accompaniment for the meat course soon. I'll guarantee that you will become one of the ever-increasing group of epicures who consider the combination a real delicacy. The slight tart flavor of the cooked banana helps to bring out the natural flavor of the meat dish.

You may be interested to know some of the various ways in which you may use the two together.

In using this combination of bananas and meat you include in the diet the proteins, minerals and energy-giving qualities of the meat with the vitamins, carbohydrates and quick energy qualities of the bananas.

For cooking, select bananas which are green-tipped, rather than the more fully ripened stage.

Cushion style pork roast with banana dressing is prepared as follows:

Have the bones removed from a shoulder of pork. Fill the cavity with banana stuffing. Set up the opening place on a trivet and roast uncovered at 350 degrees, allowing twenty-five to thirty minutes to the pound. In carving, cut down through the roast, serving both meat and dressing.
