

'LIL ARTHUR' IS SHADOW BOXING, MINTON CLAIMS

Robinson Abandons Senate Race to Fight McNutt, He Charges.

By Times Special
DELPHI, Ind., Oct. 3.—Senator Arthur R. Robinson apparently has abandoned his campaign for re-election and is trying to unseat Governor Paul V. McNutt in an off-year election, Sherman Minton, United States senatorial candidate, said here last night.

The Democratic nominee accused Senator Robinson of "shadow-boxing" in the campaign as he has during the nine years he has spent in congress.

"I believe the Senator has run out on me," Mr. Minton said. "He is not running for the senate any more—he is running against Governor McNutt."

Mr. Minton was referring to the continued attack Senator Robinson has made on the state administration and the enthusiasm with which he ignores national issues for what he believes are the shortcomings of the state administration.

Answering his Republican opponent's statement that the protective tariff is the only safeguard against pauperism, Mr. Minton declared that such a statement insults the intelligence of American farmers.

He pointed out that the farmer in 1932 was living under the highest protective tariff in history and yet was on his way to the poorhouse.

Mr. Minton also spoke at a Fulton county rally yesterday afternoon, assailing Senator Robinson's farm platitudes and making an appeal to progressive voters to support the Roosevelt recovery program and the New Deal.

Kern Speaks Tonight

Circuit Judge Earl R. Cox will speak tomorrow night before the Roosevelt Club in the Ben Davis American Legion hall.

City and county candidates will speak today at teas at the homes of Mrs. Ann Hoffman, 1115 Union street; Mrs. Pearl Smith, 2837 North New Jersey street, and Mrs. Frank P. Baker, 2703 Sutherland avenue.

A similar tea will be held tomorrow at the home of Mrs. Wilfred Bradshaw, 1125 West Thirty-sixth street.

Van Nuys Lauds AAA
By Times Special
SULLIVAN, Ind., Oct. 3.—A comparison of farm prices a year ago with those of today will give an analysis of the New Deal agricultural program success, Senator Frederick Van Nuys declared here last night at a Democratic rally.

"When the national administration program can increase the farmers' income \$1,201,000,000 the first season," the senator said, "I do not believe that many reasonable farmers and stock raisers will favor its discontinuance."

"It has been shown by experience that price-fixing without production control would not cure the situation. It therefore was essential to bring about acreage control in order to secure stability."

Farm mortgages refinanced by the government reduced interest charges 23 per cent, the senator said.

"I have not the least doubt in the world," the senator asserted, "that the farmers of this state and nation will support the New Deal to agriculture in no uncertain terms."

WAR TALK DISCOUNTED BY JAPAN SPOKESMAN

National Defense Pamphlet Draws Official Explanation.

By United Press
TOKIO, Oct. 3.—The foreign office spokesman said today that he did not believe that a national defense pamphlet issued by the war department visualized an early military struggle with Russia, the United States or any one else.

The pamphlet, which directly cited the military and aviation strength of the United States and the Soviet and compared it with Japan's, sought to make the Japanese nation conscious of national defense problems and necessities, according to its sponsors.

'TRAGEDY' JURY TOLD GIRL WAS KILLED BY BLOW

Mining Surveyor Fidgets in Chair as Doctor Tells of Examination.

By United Press
WILKESBARRE, Pa., Oct. 3.—Robert Edwards, youthful mine surveyor, moved uneasily in his chair today when prosecution witnesses vigorously attacked his defense against charges of murdering his childhood sweetheart, Freda McKechnie.

Resuming Edwards' trial, the state called Dr. H. A. Brown, of Lehigh, Pa., who said that Freda died from a blow on the head and was not drowned. The middle-aged country doctor told how he was summoned to the shore of Harvey's lake on July 31 to examine the body taken from the waters.

Tells of Head Wound
"At first I thought the girl had drowned but then I saw blood seeping from her white bathing cap," Dr. Brown said.

"I examined the head wound and the laceration was deep enough to admit four fingers. I took off the bathing cap, which was filled with blood, washed it and put it back on. This was to see if the mark on the cap corresponded with the head wound."

The alleged lethal weapon, a heavy blackjack with which Bobbie is accused of slugging Freda to death during a swimming party on the night of July 30 at Harvey's lake, was then introduced.

"Could a weapon of that character inflict the wound you saw on Freda McKechnie's head?" the witness was asked.

"I could."

Tells of Unborn Child
"Dr. Thomas J. Wenner, pathologist who conducted the post-mortem, was the next witness."

After describing the post-mortem procedure in medical terms, Dr. Wenner was asked to explain one phase in lay language.

He hesitated, looked at the judge, wiped his brow as he said in a low voice:

"Pregnancy."

Dr. Wenner said the examination showed Freda was to become a mother in about five months. He said the unborn child, of which Edwards is accused of being the father, was perfectly normal.

LUMBER CODE WAGE MINIMUM IS DROPPED

Slash of 2 1/2 Cents Obtained by North Central Heads.

The North Central Hardwood Association, administrative agency for the lumber and timber products code in Indiana, Illinois and Ohio, announced here today that W. W. Forbes, its executive secretary, had obtained a reduction in minimum wages payable under the code from 32 1/2 cents an hour to 30 cents an hour.

The change became effective Sept. 24, according to Mr. Forbes, who said that he had successfully overcome labor board opposition in Washington to obtain the lower pay, which was sought to equalize rates here and in the eastern and northern subdivisions. The 32 1/2 cents an hour pay became effective in August, 1933, when the lumber and timber products code was adopted.

Negro Workers 'Framed,' Scottsboro Group Told

Angelo Herndon Tells of Georgia 'Persecution' Due to Membership in Communist Party.

A warning that Indianapolis workers may be threatened with the same sort of "frameup" and "persecution" that has marked the highly publicized cases of Angelo Herndon, young Negro Communist from Georgia, and the Scottsboro boys was made here last night by Herndon and other speakers at a meeting sponsored by the Scottsboro-Herndon defense committee in Phillips Memorial temple, West and Drake streets.

Helen Layton, chairman of the meeting and an International Labor Defense organizer, declared that several Indianapolis Negro workers already had been the "victims" of "frameups" as bad as any perpetrated in the south and that these "persecutions" would continue unless Negro and white workers were ready to fight to defend their rights against "lynchmaster justice."

The meeting was attended by more than 400 Negroes and a sprinkling of white Communists and sympathizers who audibly expressed their approval of the speakers by frequent exclamations of "That's right!" "Uh huh!" and "Amen!"

Mrs. Ida Norris, mother of Clarence Norris, one of the Scottsboro boys now in the deathhouse of the Alabama state prison, gave her version of the story of the boys' arrest and trial. The elderly woman aroused intense sympathy from her hearers whom she frequently exhorted, "Listen at me good!"

Young Herndon, free under a \$15,000 cash bail pending an appeal to the United States supreme court of an eighteen to twenty-year sentence to a Georgia chain gang, told how he had been arrested after, he said, he had organized a protest of Negro and white workers against the withdrawal of state relief funds. He said he was in jail twelve days before he was slated for violation of a pre-Civil war statute charging him with "an attempt to incite an insurrection among Negroes."

The state declared, he said, that he was a Communist.

HOLT'S PARDON PLEA AWAITED IN WASHINGTON

Department of Justice Has Not Received Petition of Kokomo Man.

By Times Special
WASHINGTON, Oct. 3.—Petition of Olin Holt, Kokomo, for a full presidential pardon has not yet been received by the department of justice, which investigates all such appeals, it was reported here today.

Attaches of the attorney-general's office stated that "several letters had been received" regarding the Holt case, but that the pardon petition has not been filed.

It is said to bear the signatures of both United States senators from Indiana and Governor Paul V. McNutt.

Mr. Holt, one-time candidate for the Democratic nomination for Governor with alleged Ku-Klux Klan support, now is the Democratic nominee for mayor of Kokomo. Unless he receives a pardon from President Roosevelt, he will be barred from holding office, it is feared.

He served a federal penitentiary sentence for operating a legal aid syndicate for bootleggers. Mr. Holt is an attorney. Having been disbarred by Indiana supreme court, he was reinstated after getting out of prison, on the condition that he was going to Texas to practice law.
