

# REPORT DEPICTS BRIGHT FUTURE FOR MANCHUKUO

294-Page Circular Lauding Prospects Is Issued by Railway.

Foreign capital and skill, especially that of Japanese, has a bright economic future in Manchukuo, according to the compiler of the South Manchuria Railway's "Fourth Report of Progress in Manchuria to 1934." Copies of the report, printed in Japan, now are available in this country.

The 294-page study, devoted in part to reports and figures on the activities of the railway and the Chinese Eastern railway, gives most of its attention to the geography, history, government, agriculture, industry, trade and education of that new Asiatic empire, Manchukuo, whose birth, amidst the rumbling of Sino-Japanese guns, so startled the world in the fall of 1931. Interesting photographs and maps add to its attraction.

Manchukuo, as painted by the necessarily biased report, is a veritable Utopia compared to what it was when, as a part of the Chinese republic, it was known as the "Three Eastern Provinces." Foreign undertakings and investments no longer are handicapped by the activities of bandits, by political disturbances often of anti-foreign character and by a "chaotic currency" which not only discouraged enterprise among the people but hindered their trade activities the report says.

The empire of Hsuan Tung (Henry Pu Yi), 548,000 square miles bounded on the north by Siberia; on the east by the maritime province of Siberia and Korea; on the south by the Yellow sea, the gulf of Pechihai and the Great Wall of China, and on the west by outer Mongolia, inner Mongolia and China proper, has made steady progress despite the Lytton commission's pessimistic observation in the fall of 1932 that "there is no observation that this 'government' will in fact be able to carry out many of its reforms," the report states.

## Trade Has Improved

The report offers tables to show the extensive growth of Manchukuo's import and export trade and, although no special attention is called to the fact, it is interesting to note that it is Japanese trade that has made the most remarkable strides. The Soviet Union's trade with Manchukuo has decreased. All other countries, according to the report, have some advances in trade.

Stress also is laid upon the course of Japan's foreign policy, the influence of which on Manchukuo it is hardly necessary to proclaim. Japanese foreign minister Koki Hirota's words of Jan. 23, 1934, are quoted in which he said:

"I am determined to use every ounce of my energy to 'carry out our national policy by diplomatic means in the interest of world peace. Japan, far from having any thought of picking a quarrel with America, fervently desires American friendship—the United States will not fail to appreciate correctly Japan's position as a stabilizing force in east Asia."

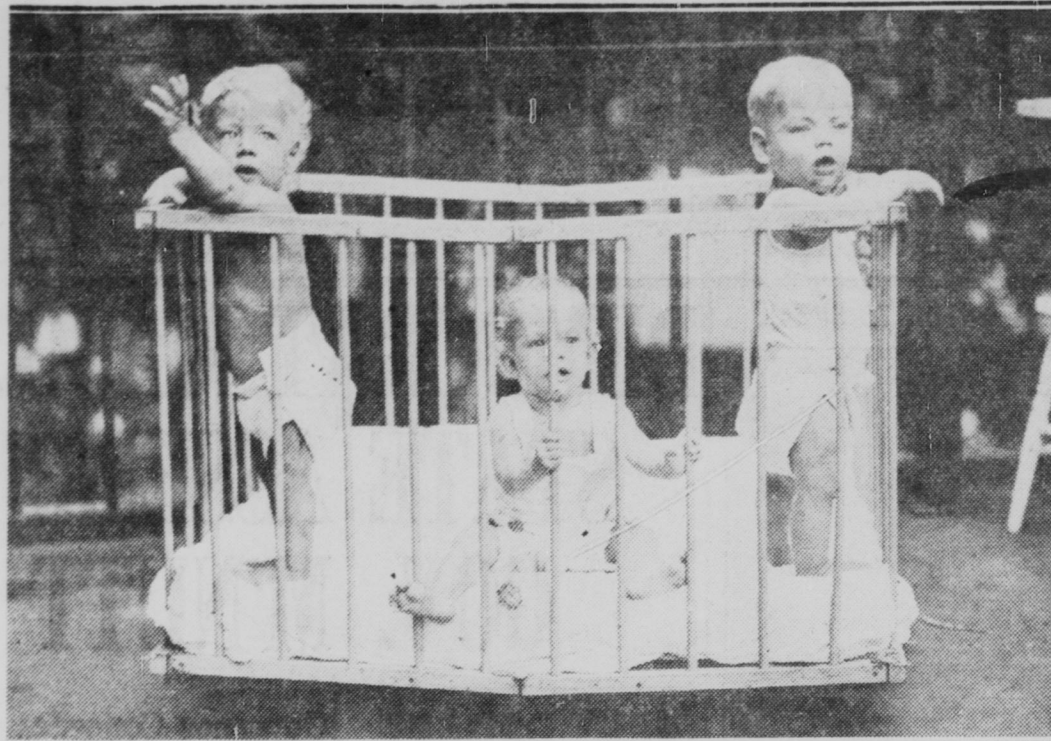

## Peace Rests With Japan

The report makes quite clear the fact that much of the responsibility for peace and security in Manchukuo rests with Japan.

The Manchukuo government's plans for railroad construction, harbor improvements, road building, settlement of immigrants, land surveys, census taking, education and sanitation all are explained in detail in the report which also gives account to the work done to date on these various projects.

One section of the report deals entirely with Japanese jurisdiction in Manchukuo. At the outset of this section it is declared that Japan

## THREE SMALL, BUT INTERESTING, REASONS FOR FUND CONTRIBUTIONS

Here are three small, but exceedingly interesting, reasons why Community Chest Fund campaigners believe you should contribute towards the \$27,217 they are attempting to raise for "human needs" before the campaign ends Nov. 7. The infants are wards of St. Elizabeth's home, one of thirty-six agencies supported by the fund. Care of children and infants is one of the major services rendered by these agencies.

"today exercises jurisdiction within the frontiers of Manchukuo only in the leased territory called Kwantung province, and in the railway zone of the Dairen-Hsinking (former Changgun) and the Antung-Mukden lines conducted by the South Manchuria railway."

According to the report, Japanese jurisdiction extends to no more territory than it did before the formation of the new state.

Under the section dealing with Japanese jurisdiction, the workings of the South Manchuria railway proper are explained. Attention is given the railroad's finances, organization, investments and accounting, harbor works, coal mines and iron works, affiliated undertakings and public services in the railway zone.

Taken as a whole, the report is interesting and frankly influenced by the fact that it is issued by the South Manchuria railway, a Japanese enterprise whose interests in the Manchukuo of the future can not be overestimated.

# MOTHER, CHILD ARE BURNED TO DEATH

Two Others Are Injured in Kerosene Blast.

HUNTINGTON, Ind., Oct. 28.—

Two persons were burned to death and two others suffered burns on the hands and legs here yesterday in a kerosene explosion.

The dead were Mrs. Mary Ellen Snow, 21, and her 3-year-old daughter, Ellen Mae.

Brayton Snow, 24, the husband and father, and Mrs. Henry Parker, 23, of Andrews, sister-in-law of Mrs. Snow, were reported recovering in Huntington county hospital.

The explosion resulted when Mrs. Snow attempted to rekindle a fire in a cook stove with kerosene. She and Mrs. Parker were sprayed with the burning fuel.

## "I Feel Tired, Listless And All Worn Out"

The Complaint of Thousands; and Thousands Are Getting Relief.

Here's a new yeast vitamin compound, known as Thor's Vitamin B Compound, that takes away that listless, tired feeling and replaces it with new, vital energy, builds up shattered nerves and underweight through its remarkable ability to normalize impoverished blood.

Read this letter from Mr. W. H. of Tampa, Fla. "Before I used Thor's Vitamin B Compound, I could not sleep at night, nor could I walk ten feet from my chair without resting. Thor's Vitamin B Compound has proven to be a great benefit to me, because now I am not troubled at all in my sleep, and can walk a mile or so without tiring. My digestion has been toned up and my headaches are gone. I have recommended Thor's Vitamin B Compound to several friends who need it as badly as I did."

Let Thor's Vitamin B Compound rectify and enrich your blood and get rid of all the poisonous waste matter that has clogged your system, tone up your digestive tract and add pounds of firm, healthy flesh to your skinny body. Only 60c at any drug store, and if you are not satisfied after taking one bottle, ask for your money back.—Advertisement.

# WASH OUT 15 MILES OF KIDNEY TUBES

Win Back Pep...Vigor...Vitality

Medical authorities agree that your kidneys contain 15 MILES of tiny tubes or filters which help to purify the blood and keep you healthy.

If you have trouble with bladder irregularity causing irritation and discomfort, the 15 MILES of kidney tubes need washing out. This danger signal may be the beginning of aching backache, leg pains, loss of pep and vitality, getting up at night, lumbago, swollen feet and ankles, rheumatic pains and dizziness.

If kidneys don't empty 3 pints every day and get rid of 4 pounds of waste matter, your body will take up these poisons, causing serious trouble. It may knock you out and lay you up for many months. Don't wait. Ask your druggist for DOAN'S PILLS—a doctor's prescription which has been used successfully by millions of kidney sufferers for over 40 years. They give quick relief and will help to wash out the 15 MILES of kidney tubes.

But don't take chances with strong drugs or so-called kidney cures that claim to do you up in 15 minutes, for they may seriously injure and irritate delicate tissues. Insist on DOAN'S PILLS—the old reliable relief that contains no "dope" or habit-forming drugs. Be sure you get DOAN'S PILLS at your druggist. O. 1934, Foster-McBurm Co.—Advertisement.
