

CHILD LABOR DRIVE FACING OPENING TEST

Campaign to Make Indiana
22nd to Ratify Is
Launched.

(Continued From Page One)

bids child labor but it is an enabling act that gives Congress the power to pass laws regulating child employment.

Abolished Under NRA

Under NRA child labor was ended temporarily through codes which forbade the employment of boys and girls in sweatshops, mines, cotton mills, and thread factories.

Opposition to the amendment has developed in the textile and other industries as well as in agricultural regions.

It is pointed out by proponents of Indiana's ratification that the amendment can not be construed as applying to farm labor or household tasks as the courts have held that "labor" carries its common meaning.

Wallace Raps Propaganda

Henry A. Wallace, Secretary of Agriculture, has declared that the effort to arouse the farmers against the amendment on the ground that farm boys would no longer be permitted to do their chores is "non-sense."

President Franklin D. Roosevelt said of the amendment: "It is my desire that the advance, attained through NRA be made permanent. In the child labor field the obvious method of maintaining the present gains is through ratification of the Child Labor Amendment. I hope this may be achieved."

A national organization, known as the National Child Labor Committee, headquarters New York City, is aiding the national campaign for ratification.

TREAT A COLD IN THE FIRST STAGE!

A cold ordinarily goes through 3 stages. The Dry Stage, the first 24 hours; the Watery Secretion Stage, from 1 to 3 days; and the Mucous Secretion Stage. The first stage is the time to "treat" a cold—and Grove's Laxative Bromo Quinine usually does it. Doesn't "monkey" with a cold but treats it decisively and thoroughly. At all drug stores.

there because it was his birthday and Hauptmann laughed at his account, he said.

Later he was forced to admit he had been employed at the Majestic Apartments where Hauptmann had been employed, but denied their employment was concurrent.

Edward J. Reilly, Hauptmann's chief counsel, was annoyed at the prosecution attack upon Carlstrom. He threatened to produce enough defense witnesses to keep the trial going "into April."

The state planned to press its inquiry into two extremely significant statements made yesterday by Carlstrom, the first that he never had seen Hauptmann in Frederickson's bakery before March 1, the second that he denied friendship with Mrs. Hauptmann, who, according to information in the prosecution's hands, was one of Miss Ellerson's closest friends.

Carlstrom testified that he saw a picture, immediately after Hauptmann's arrest, of Counselor Reilly with the prisoner. Mr. Reilly did not enter the case until weeks after Hauptmann was arrested.

Carlstrom also said he saw Mrs. Hauptmann in the restaurant "four or five times a week." Mrs. Hauptmann testified that the only nights she was in the Frederickson's bakery were Tuesday and Friday—the nights Mrs. Frederickson did not work.

Girl Denies 'Date'

By United Press

NEW YORK, Jan. 31.—The New York Daily News in a copyrighted story today quoted Esther Ellison as heatedly denying that she had a "date" with Elbert Carlstrom the night the Lindbergh baby was kidnapped.

Carlstrom, testifying as an alibi witness for Bruno Richard Hauptmann in Flemington yesterday, said he had gone to the Bronx that night to see Miss Ellison and saw documentary evidence in the bakery where Mrs. Hauptmann was employed. He did not actually state he had had a date with Miss Ellison.

Miss Ellison, the Daily News said, admitted knowing Carlstrom but stopped seeing him after Christmas of 1931. She described him as a "moody" person. She said she was a good friend of Mrs. Hauptmann. Carlstrom stated from the stand that he knew Mrs. Hauptmann only as a waitress in the bakery where he occasionally dined, and did not know Hauptmann.

Charges that local officers were, in some instances, failing to cooperate in law enforcement led to mobilization of the state soldiers.

Mr. Rabb testified that all efforts the city had made to discover the identity of Users backers had been unavailing and added that he had refused to allow Attorney Givan to give him in confidence the identification on the condition he would not make it known to the city.

Givan Implication Denied

Attorney Rabb said that the city would enter into a contract with a supplying company only after competitive bidding. He denied implications made yesterday by Mr. Givan that former Mayor Reginald Sullivan, once an attorney for the Citizens Gas Co. and now a director, had not, during his term of office, worked diligently to bring about the purchase by the city of the Citizens.

The Senate passed, and the House was expected to pass, a resolution offered by Senator Wiley giving the gas committee full power of subpoena, power to require answers to examination, power to require attendance and power to command presence for inspection of any books or documents.
