

NYE PLEADS FOR LAWS TO MAKE PEACE CERTAIN

Potent Neutrality Measures Are Needed by U. S., Senator Declares.

With the danger of the United States being forced into another war growing hourly, development of strong public opinion is necessary to force Congress into enacting potent neutrality laws, Senator Gerald P. Nye, chairman of the Senate munitions investigating committee, said at Kirshbaum Center last night.

The Republican Senator from North Dakota supplemented a vigorous, documented attack on munitions makers and high military officers with a plea that the people write Congressmen of their demands for peace.

"This very hour constitutes the most dangerous hour for American peace in 21 years," Senator Nye said. "America is not concerned with the African war, yet if Europe goes to war the chances of dragging in America are much greater than the chances of remaining neutral."

Condemns Rearmament Plans

He condemned the world's rearmament plans as "the maddest, bloodiest race that civilization has ever known" and demanded that the United States reduce its war appropriations.

The national defense blueprints of the United States Navy call for "transporting 3,000,000 men across the seas and for naval battles more than 500 miles from America," Senator Nye revealed.

Terming the Japanese war scare a navy device to gain large appropriations, he quoted from an article written by President Roosevelt 12 years ago saying that such a war was impossible.

Urges New Neutrality Laws

"If war comes to the United States, American soldiers will be killed and wounded by American-made munitions, guns, gases and shells," he charged.

"New neutrality laws should be

passed when Congress convenes in January, or President Roosevelt will gain the permissive power that forced Woodrow Wilson to declare war.

"While President Roosevelt bitterly opposed neutrality legislation taking the power away from the chief executive, Herbert Hoover in 1926 made the disarmament conference a farce by arranging meetings of the United States delegates and the munitions makers."

"Roosevelt wants a neutrality policy like the one which slid us into the World War—a permissive, discretionary policy leaving matters in the hands of the executive," Nye said.

"The madness of our armament race may be explained by the people's willingness to let incompetent officials solve the problem, and the greed of munitions makers and certain industrialists," Senator Nye said.

Illustrating his lecture with private letters from the files of the Senate investigation, Senator Nye alleged that certain shipbuilders knew who would be awarded Navy contracts 10 days before the bids were opened.

BIRTH CONTROL STAND HIT BY STATE SCHOOL

St. Mary's Quits University Women's Association in Protest.

By Times Special
NOTRE DAME, Ind., Oct. 14.—Protesting action by the American Association of University Women in advocating the "legalizing and dispensing of information by physicians on contraception," Sister M. Madeleva, C. S. C., Mary's College president, Notre Dame, today disclosed the college's withdrawal from associate membership in the A. A. U. W.

Sister Madeleva made public correspondence with Dr. Kathryn McHale, Washington, the association's general director, in which the St. Mary's president scored the action approved at the organization's summer convention.

Her letter said, in part: "Although St. Mary's College has only an associate membership in the association, I feel that it is one of many schools whose fundamental

Cheap Oil Burner Invented Sweeping the Country

Cooks a Meal for Less—Does Away With Coal or Wood in Stoves, Ranges, Furnaces; Half the Cost.

A simple oil burner, which slips in any old stove, range or furnace, burns cheap oil a new way and does not clog up or carbon; no pre-heating; gives quick intense heat by turn of valve. It is sent on 30 days' free trial at manufacturer's risk to any one wishing to end the drudgery of coal or wood and cut fuel bills. United Factories, M-2115, Factory Bldg., Kansas City, Mo., want energetic men to demonstrate and take orders and are making a no-cost sample offer to one person in each locality. Drop them a 1c postcard today and learn how to make big money, spare or full time.—Advertisement.

principles have been definitely misrepresented by this action.

"The Catholic college in America seems to me to be doing a fine and sincere service. I wonder that the A. A. U. W. should have entertained a question so expressly opposed to that group of its members, unless, of course, it wished to eliminate them. In that case we might have been asked to withdraw or to be excluded from membership."

In her reply Dr. McHale took the stand that the association adopted no policy on birth control. She pointed out that it had voted on the legalization of dissemination of birth control information to relieve physicians from restrictions of the criminal code.

She added that "we would regret the loss of any one institution and you can see that such a loss might precipitate a cleavage which would be unfortunate when one considers the results of it abroad."

Faces Prison Term
COLUMBUS, Ind., Oct. 14.—Found guilty of grand larceny, Orville Drake, 26, a grocery clerk, faces a sentence of one to ten years in the State Reformatory. He is the last of five Indianapolis men tried here on charges of looting freight cars of merchandise valued at more than \$5000.

ROBINSON ASKED TO JOIN DEBATE

Toledo Lawyer Challenges Ex-Senator to Speak on Soviet Views.

Former United States Senator Arthur R. Robinson has been challenged to a debate on his views of the Soviet Union which he frequently has expressed since returning from a week's visit in Russia.

His challenger is Edward Lamb, Toledo attorney, who has written Mr. Robinson that a number of Indianapolis persons have suggested a debate be arranged here if Mr. Robinson is willing.

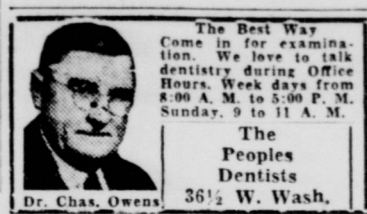

"I have written a magazine article showing that your opinions at the scene differed from those you expressed on your return to the United States," Mr. Lamb says in a letter to former Senator Robinson.

"Of course, my own opinions of the accomplishments of the Soviet

Union, as the result of many trips to that country, differ greatly from those you have expressed since your return.

"For years you opposed recognition of the Soviet Union. My own writings were very much in favor of closer contact between the two countries."

Mr. Lamb said his friends in Indianapolis have suggested as a possible subject for a debate: "Is the Soviet Union succeeding in raising the cultural, economic and social standards of its people?"

COLDS

Go Thru 3 Stages —and They're Far Easier Relieved in the First than in the Second or Third!

A cold ordinarily goes through 3 stages: the Dry Stage, the first 24 hours; the Watery Secretion Stage, from 1 to 3 days; and the Mucous Secretion Stage. The first stage is the time to "nail" a cold. Grove's Laxative Bromo Quinine is the treatment for colds. It is expressly a cold tablet, and not a preparation good for half a dozen other things as well. It is definite and internal, which is what a cold, an internal infection, requires. It does four important things. It opens the bowels, combats the infection in the system, relieves the headache and fever and tones and fortifies the system. Don't be satisfied with anything less than that. Get Grove's Laxative Bromo Quinine at any drugist's. Ask for it by the full name and refuse a substitute.

TRY A WANT AD IN THE TIMES THEY WILL BRING RESULTS

It's Amazing...
how these inexpensive pieces brighten up a dull kitchen!

If you're like many other housewives, you certainly won't want to work through another winter in a tired-out kitchen. You want a kitchen cabinet and breakfast set that are colorful, efficient—and easy to keep clean. So... we urge you to come in and see the new Sellers matched groups that make kitchens more inviting places in which to work... at low prices and easy terms that should cause no strain on the family tie.
