## MCKINNEY DRIVE FOR NOMINATION EXPECTED SOON

Overflow Crowd Honors Him at Banquet at Claypool.

Start of an active campaign for the Democratic nomination for Congress by E. Kirk McKinney, retiring head of the Home Owners Loan Corporation in Indiana, loomed today as the next development in his career.

An overflow crowd jammed the Claypool Riley Room Saturday night to pay tribute to Mr. McKinney's record with the HOLC, but no word of politics was spoken publicly. The crowd was larger than was anticipated and many persons could not be accommodated. There was a total of 1158 diners served, and many ate elsewhere and returned for the speaking.

Addresses praising Mr. McKinney's HOLC record were made by Evans Woolen Sr., representing the Indiana Bankers Association; R. Earl Peters, state director of the Federal Housing Administration; Clarence E. Manion, state director of the National Emergency Council; George A. Schaaf, representing the Indiana Building and Loan League; S. J. Christie, Detroit, regional HOLC manager, and his assistant, A. W. Palmer. Joseph G. Wood, former state HOLC counsel, acted as emcee.

Under Mr. McKinney's tenure, the HOLC handled 48,000 loans for a total of \$108,000,000. Mr. McKinney responded to praise for his administration with a short talk in which he complimented his organization as being "positive proof that a governmental unit can operate as efficiently and as economically as private industry."

## LOCAL OPTION FIGHT ADVOCATED BY YORK

Legislature Dominated by Liquor Interests, He Charges.

**Times Special**

LAFAYETTE, Ind., Dec. 30.—Dry forces must concentrate on immediate enactment of local option laws, L. E. York, Indiana Anti-Saloon League superintendent, told an audience at Trinity M. E. Church yesterday.

Charging that the liquor interest and wet politicians dominate the Indiana Legislature, Mr. York predicted that liquor control will be the chief issue of the 1936 election and declared that a return to prohibition will be the ultimate solution. He termed repeal "a complete failure."

## Toyohiko Kagawa Comes From Land of Rising Sun to Preach Brotherly Love

Japanese Is to Address Student Convention, Consumers' Body.

Frail, mild-mannered Toyohiko Kagawa, called the "Japanese St. Francis," has come to America from the land of the rising sun to preach the gospel of peace, non-resistance and brotherly love.

Arriving in Indianapolis yesterday from Memphis, Tenn., he is to address the Student Volunteer Convention and the Seminar on Consumers' Co-operation before continuing his six-months tour of 100 American cities.

Dr. Kagawa is accompanied by a physician appointed by the Federal government following his detention at the port of San Francisco because of an eye disease. The disease, trachoma, has been declared non-infectious in a certified statement from one of Tokyo's best eye specialists, who says that Dr. Kagawa's present trouble arises from scars left by operations to cure the disease.

His present world tour is based on his "Kingdom of God" movement, which he has analyzed as: Evangelism—1,000,000 souls for Christ; education—lay workers to aid the clergy, and social organization—especially organization of economic co-operatives.

## Asked Forgiveness for Invasion

Active participation in slum removal, earthquake rehabilitation and many welfare movements have made Dr. Kagawa an idol in his own country. He has hundreds of thousands of followers, and his world influence has been compared to that of Tolstol and Gandhi.

He is a bitter foe of Japanese imperialism, and last year stood in the ruins of a Chinese church in Shanghai, destroyed by the Japanese invasion, and begged forgiveness of the deed of his countrymen.

In spite of his pacifism, his Christianity, and his work as labor leader and reformer, Dr. Kagawa has suffered comparatively little persecution from the Japanese government. This is because he is felt to be a potent protection against Communism. Although he upholds many Communist objectives, he insists that they may be reached only through Christian love and understanding, and a d condems forceful tactics as strongly as he does imperialism.

## Father Was High Official

Dr. Kagawa was born in 1883, the son of a high Japanese official and a geisha girl. An orphan at 4, he was reared by his father's legal wife.

He studied the Confucian classics, but when he was converted to Christianity by a missionary, his family disowned him. He entered the Presbyterian College in Tokyo at 17, and in his senior year went to live in Shinjuku, the vile slum section of Kobe, where he had preached and visited previously.

Here he lived and worked for 15 years. He contracted trachoma from a homeless wanderer whom he took in. Near death from tubercu-

Toyohiko Kagawa

losis, he was nursed back to health by his Christian friends, and returned once more to his home.

## Book Took Nation by Storm

In 1920, his book, "Crossing the Deathline," an account of his life in Shinjuku, took Japan by storm. Sent to prison with other leaders of a Kobe shipyard strike he wrote "Shooting at the Sun," a protest against Japanese materialism. People stood in line to buy the book.

Dr. Kagawa is one of the founders of the Japanese Federation of Labor and the compelling force in the co-operative movement in Japan. Today, 40 per cent of the Japanese belong to some sort of co-operative, and the movement's magazine, "The Light of the Home," has a million readers.

Co-operatives, Dr. Kagawa urges, should take the place of Communist dictatorship. He believes that in the international adoption of this movement lies the way to social security and world peace.

## SURVEY OPENED ON FALL CREEK ROAD EXTENSION

Engineers of WPA Prepare to Construct Link in 25-Mile Route.

Special staff of Works Progress Administration engineers today began a survey for a three and one-half mile stretch of boulevard, along Fall Creek.

Between 1100 and 1500 men are expected to be employed in the construction work.

The project is a combined roadway and levee to afford flood protection to land adjoining Fall Creek. It is a link in a system which, when completed, is to provide a 25-mile drive from the heart of the city to a lake to be constructed by the Indianapolis Water Co.

Almost 15 miles of the boulevard project have been completed, including a stretch from Keystone-av

to E. 56th-st. The survey started today is for an extension from E. 56th-st to Mud Creek-rd.
