

## FUNERALS SET FOR 3 YOUNG CREEK VICTIMS

Buchanan Brothers to Be Buried Today; Prange Rites Tomorrow.

Funeral services for three boys who broke through thin ice and drowned in Fall Creek Saturday are to be held this afternoon and tomorrow afternoon in the Flanner & Buchanan mortuary.

The Rev. Ellis W. Hay, First Congregational Church pastor, is to conduct rites for David Buchanan, 10, and John Buchanan, 11, sons of Mr. and Mrs. Albert Buchanan, 3138 Washington-blvd., at 3:30 today. Services for Charles Prange, 10, son of Mr. and Mrs. Elmer C. Prange, 3030 N. New Jersey-st., are to be conducted by the Rev. William H. Eifert, Church of Our Redeemer Evangelical Lutheran Church pastor, at 2 tomorrow. All are to be buried in Crown Hill.

### Brother Recovers From Shock

Stephen Buchanan, 8-year-old brother, has recovered from the shock and exposure he suffered when he fell through the ice.

The four boys were sliding on the thin ice near the east bank of Fall Creek at 3:30-st. when the ice crumbled, plunging them into the cold waters. Stephen made two attempts to rescue his brothers and his friend before he was driven back by the cracking ice.

Police and fire department workers recovered the bodies Saturday afternoon as hundreds of persons lined the banks watched them drag the creek.

### Memorial Services Arranged

Memorial services for the boys have been planned by their classmates at School 60 and by a Cub Pack troop of the Tabernacle Presbyterian Church, of which they were members.

Funeral services for the boys were chosen from among their friends. For the Buchanan brothers' services, they are W. J. Campbell, Roy Rodabaugh, Bernard Lehman, Fae Patrick, Charles Field, A. D. Hitz, J. Duane Dungan and Harold Sutherland.

For Prange, they are Carl Brandt, Leonard Brandt, Norman Brandt, William Brandt, Pay Masters and Robert Bottman, all cousins of the drowned boy. The bodies are to remain at the mortuary until time for services.

The brothers' grandfather, Charles J. Buchanan, is president of Flanner & Buchanan, and their father is president of the Indianapolis Screw Products Co.

Mr. Prange is a musician. Other immediate relatives of the Prange boy are the mother, a sister, Mrs. Leonard M. Huff, two brothers, Paul and Robert Prange, and the grandparents, Mrs. Charles Brandt and Mrs. Emma Prange.

## BLEACHERS AT AIRPORT WILL BE TAKEN DOWN

Blind Landing Equipment to Be Put Up at Municipal.

Bleachers and boxes at Municipal Airport are to be removed within the next week or two as part of final preparations for inauguration of a blind landing system, I. N. Deinhart, superintendent, said today.

While the equipment is not directly in the path of the runway it would be a hazard if pilots should miss the runway by a few hundred feet, Mr. Deinhart said.

The equipment will be the first complete outfit to be installed under direction of the Federal Bureau of Air Commerce. Dedication ceremonies are planned for mid-February.

## SPEECH CONTEST WON BY DORISANN JOHNSON

The State Highway Commission is scheduled today to advertise for bids on \$900,000 worth of grade separation, bridge and road improvement projects in 14 counties. Most of the work is to be done with Federal funds.

Counties in which the projects are situated are Allen, Bartholomew, Clay, Floyd, Hendricks, Henry, Jackson, Knox, Lake, Marshall, Noble, Rush, Tippecanoe and White. Included in the projects are the following:

Rush and Henry Counties—Surfacing 1,904 miles of Road 140 from Knightstown south toward the Indiana Soldiers' and Sailors' Children's Home.

Bartholomew County—Bridges on Road 9, one 3.2 miles north of Reddingtown and a third 9.5 miles north of Reddingtown.

## LUTZ SAYS DILLINGER AIDED IN LAW REFORM

Attorney-General Credits Gangster With Bringing About Changes.

John Dillinger and his gangster left a heritage of good as well as evil to the state of Indiana because his career resulted in important criminal law reform in both state and nation, Atty. Gen. Philip Lutz Jr., said yesterday, pinch-hitting for Gov. McNutt in the state's weekly broadcast.

Fifteen new laws were enacted as the outcome of the Dillinger crime wave, Mr. Lutz said. Discussing the duties of his office, the attorney general said he could point with pride to the fact that following reorganization of the state government by Gov. McNutt, "not a single general law of the 1933 legislative program has been held unconstitutional by either state or Federal courts."

## STATE'S MOTOR DEATHS DECLINE TWO PER CENT

Indiana Mortality Rate Is Lower Than Increase in U. S. for 1935.

Indiana, with 2 per cent fewer motor car fatalities in 1935 than in 1934, ranked today as one of the states in the nation with a mortality rate lower than the 1 per cent increase for the entire country.

Massachusetts, with 18 per cent fewer fatalities, held the honor position. Indiana had 1154 auto fatalities in 1935 against 1117 during 1934.

Figures of the National Safety Council show that a 7.6 per cent increase in gasoline consumption in Indiana for nine months of 1935, made it possible for automobile drivers to increase the mileage traveled with fewer fatal accidents.

36,400 Billed in 1935

The bulletin of the safety council, revealing 36,400 motor car fatalities in 1935 as against 36,001 in 1934, shows that the population increased 1 per cent or at the same ratio as did automobile deaths, but car registrations increased 4 per cent and gasoline consumption 6 per cent in the nation.

Maine, with a 7.3 per cent increase in motor car deaths, was the nation's most unsafe state for drivers and pedestrians.

Illinois with 12 per cent fewer fatal accidents and Kentucky with 7 per cent led Indiana in safety, while Ohio had an almost 9 per cent increase in fatalities during 1935.

## Hope to Cut Rate 7 Per Cent

Plans for a five-year campaign to reduce deaths in the nation 7 per cent, with an actual saving of 2,548 lives during 1936, is the goal of the National Safety Council.

It is hoped that automobile deaths will not exceed 33,852 during 1936. Donald F. Stiver, state safety director, and accident prevention bureau of police departments of Indiana are co-operating with the safety council in their efforts to reduce the traffic toll.

The council points out in its bulletin that if fatalities had increased in 1935 at the same ratio as motor car registrations, that 37,500 traffic fatalities would be added to the cemeteries of the nation instead of 36,400.

## SPEAKER URGES LAWS TO CURB TRAFFIC DEATHS

Leader at Y. M. C. A. Meeting Blames Liquor for Fatalities.

A proposal to curb traffic fatalities by legislating against the drunken driver and pedestrian was under consideration today by those who attended the Y. M. C. A. Big Meeting yesterday afternoon in Keith's.

"Leaping into a high-gear sales program at the beginning of its third year since its return as a legalized 'industry,' the liquor traffic in 1936, we predict, will prove a

major obstacle in the progress of the nation-wide death-prevention program just launched in forty-one states in co-operation with the National Safety Council," declared Alonzo E. Wilson, field director, American Business Men's Research Foundation of Chicago, at the meeting.

"Aside from, and in spite of all safety drives, elevated highway projects and educational campaigns, the twin factors of drinking driver and drinking pedestrian are becoming more and more a major problem in the traffic field.

"Whatever else may be done, there should be a nation-wide movement started without delay, to ban alcohol at or near all filling stations, to bar liquor ads from the highways and provide scientific tests for the presence of alcohol for every driver and pedestrian involved in traffic accidents."
