CITY COUNCIL STUDIES BARBER SHOP RULES

Beauticians Ask if New Ordinance
Covers Their Shops.

James E. Deery, Corporation Counsel, today studied provisions of the new ordinance governing barber shops to determine if beauty shops are included under the regulations.

In their written request for information, beauticians said 80 per cent of the shops would be forced to close if the act applied to them. The measure was sponsored by Journeyman and Master Barber Associations.

Although it is not customary for the city legal department to act for individuals, Mr. Deery announced an opinion would be prepared. Three inspectors, provided by the ordinance, are to be appointed by Mayor Kern.

HOLC'S REPORT SHOWS DECLINE IN DELINQUENCY

Record Stands Favorably
With That of Private
Firms, Says Fahey.

WASHINGTON, Feb. 5.—Percentage of delinquency on HOLC loans is decreasing each month, Chairman John H. Fahey of the Federal Home Loan Bank Board today.

Mr. Fahey, as a member of the House appropriations committee, wrote Mr. Fahey seeking information as to probable losses faced by the government on HOLC loans.

He learned that up to Jan. 16, 1935, 979,177 loans amounting to \$2,962,810,947 had been made throughout the country. There are 48,827 loans in Indiana, amounting to \$106,836,524.

In reference to the probable recovery on these loans, Chairman Fahey said:

"On the volume of approximately one million loans which have been made by the corporation, it is estimated that the differential between the interest received from our mortgagors and that paid on HOLC

bonds probably fully will cover the entire overhead and cost of operation of the corporation, after setting up a reserve which should be sufficient to take care of possible losses.

Expect Self-Support

"Thus, with normal recovery of the general conditions throughout the country, the operation of the corporation should be wholly or nearly self-sustaining.

"While the corporation has been forced to institute a number of foreclosures, and we anticipate that there will be many more in the future, due principally to the fact that individuals whose loans have been refinanced will not be able to carry out their contracts with the corporation, or willfully default in their mortgages, collections are now being made satisfactorily and the percentage of delinquency is decreasing from month to month.
