Adventurer to Be Presented by Men's Club

Capt. Irving Johnson Slated to Talk Wednesday at Caleb Mills.

Capt. Irving Johnson, the man who sailed the little two-masted schooner "Yankee" around the world, is to speak in Caleb Mills Hall Wednesday night, under the auspices of the Men's Club of the Episcopal Church of the Advent.

With Capt. Johnson on his memorable cruise was Dr. Rufus Southworth of Cincinnati, brother of the Rev. George S. Southworth, rector of the Church of the Advent. Dr. Southworth sailed as ship's physician.

The young skipper is to illustrate his talk with motion pictures, taken with the camera that accompanies him whenever he sails. In the lecture to be given here, "Circling the Globe in the 'Yankee,'" the audience will be shown scenes on the voyage which began in Gloucester, Mass., in November, 1933, and ended in the same port a year from the following May.

Ship 92 Feet Long Among the ports visited were Panama, Pictarin and the Galapagos Islands, Siam, Singapore, Java, Bali, the Indian Ocean Islands, South Africa, St. Helena, Devil's Island, British Guiana, the West Indies and Bermuda.

The "Yankee" which was built by the Netherlands government in 1897, is only 92 feet in length. There are bunks for 23 people, locker room for five tons of food, and space for over 2000 gallons of fresh water.

Since Capt. Johnson returned last May he has spent most of his time cruising along the Maine coast. But he is scheduled to sail on another "round-the-world cruise in November and expects to be back in May, 1938.

Went Through Hurricane Besides his experiences with storms and savage natives aboard the "Yankee," Capt. Johnson went through a wild October hurricane aboard Sir Thomas Lipton's Shamrock V, when, as mate, he helped sail her home from the American coast.

Much of the rigging was swept away and the food was spoiled by salt water, and so, to keep from starving, the crew took the Shamrock V back to England faster than she ever sailed in a race.

The local appearance of Capt. Johnson has been arranged by Lyman E. White, chairman of the program committee, and Mr. Southworth.

BY THE REV. T. J. SIMPSON Pastor of the Washington Street Presbyterian Church and Chairman of the Industrial Commission of the Indiana State

This report was formulated by a number of ministers making up the Industrial Commission of the Pastors' Conference. It was read before the Conference but was not adopted officially by that body as none of the Commission reports were.

The portion of the report regarding martial law was presented to the conference for adoption but was referred back to the executive committee where some opposition to its adoption was voiced. It did not get back to the floor. The report however, represents the opinions of a good many ministers throughout the city and state.

The report follows: In view of the economic uncertainty and chaos in which our nation, and the world are floundering today, we believe that the ministers of the Gospel should maintain a prophetic passion in seeking after Christian solutions to our economic problems.

In the words of Henry A. Wallace, we believe it is our duty to discover whether there is some satisfactory method T. J. Simpson of stopping the continually disintegrating effects of the pressure groups, and instead build up a stronger sense of the common welfare without sacrificing essential liberty of democratic process and the essential sacredness of the individual.

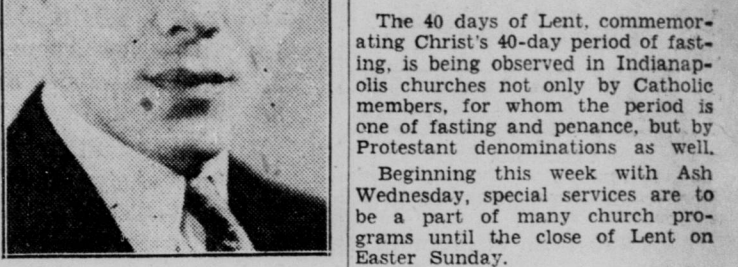

We recommend to ministers the reading of E. Stanley Jones' book, "The Alternative to Communism," with a view of finding in all systems whatever elements of economic principle might prove more Christian in practice than the unrestrained profit motive of our present capitalist system.

Come to Industrial Centers We believe the time has come in our economic and social life when there must be some kind of control of industrial autocracy. We deplore greatly the incident of an employer in our state defying the highest ideals of our industrial system by declaring that the word "arbitration" is not in his vocabulary. We believe that when arbitration is denied the worker that martial law in such instances is a service rendered to Fascism and is to be summarily condemned.

We believe a continuing effort must be made to maintain the worker and his family on a scale adequate to meet his needs in the field of health and honor and decent living, and that to this end there must be continued study and effort on the part of the church to lead the way in solving the problem of a more equitable distribution of the wealth of the land.
