### Daily Recipe

#### FISH CHOWDER

1-3 pound fish

1 small slice salt pork

2 slices onion

2 potatoes

1 1/2 cups milk

1/2 teaspoon pepper

1/2 teaspoon salt

Cook fish and potatoes in boiling water until tender. Keep water at boiling point but do not let boil hard. Try out salt pork in a sauce pan. Remove pork and add slices of onion.

Cook over a low fire until a golden brown. Remove onion. Add fish separated in flakes and potatoes cut in dice, as well as the water in which they were cooked. Bring to the boiling point and add milk.

Season with salt and pepper and bring to the boiling point. Serve with common round crackers.

After the milk is added to the chowder, the mixture can be boiled two minutes and then set aside to reheat for serving.

Chowder has a better flavor if allowed to stand several hours, so if you want to make it early in the morning and reheat it at the last minute for the evening meal, the dish will be all the better.
