Don't neglect your CHILD'S COLD

COMMON colds often settle in throat and chest. Don't take chances. Don't let them go untreated—at the first sniffle rub on Children's Musterole.

Children's Musterole is just good old Musterole, only in milder form. It penetrates the skin with a warming tingle and gets such marvelous results because it's NOT just a salve, but a "counter-irritant"—helpful in drawing out local congestion and pain.

Used by millions for 25 years. Recommended by many doctors and nurses. All druggists. In three strengths: Regular Strength, Children's (mild), and Extra Strong. Tested and approved by Good House-keeping Bureau, No. 4867.
