Orchard School Children to Learn of Crafts Tomorrow.

BY BEATRICE BURGAN

SCHOOL children have learned about Mexican crafts from the Children's Museum's loan exhibit. Tomorrow afternoon they are to see movies of the colorful land where the objects were made.

Boys on the Prairie Trek, led by Hillis Howie, Orchard School headmaster, brought back the miniature pottery, carved wood objects and serapes in the exhibit from their Mexican adventure.

Mr. Howie took the colored films to be shown to museum members at the playhouse.

Miss Beatrix Burgan

Robert Scott, Jack Brant, Jack Behringer and Frederick Holliday Jr., who made the trip, are to tell of their findings. Ann Atkins, daughter of Mr. and Mrs. Elias C. Atkins, is the Orchard representative on the Museum's junior board.

She is to be hostess, with Lillian Fletcher and Mary Johnson as her assistants.

Before the program the junior board is to meet with its adviser, Mrs. Margaret McCarthy. Board representatives create interest among their classmates by visiting rooms of the schools and talking on the museum.

Prairie Trek boys have provided numerous relics of interest. Many specimens in the natural history exhibit were gathered by them on their trips to the West.

In the Indian exhibit are implements used by the Pueblos and weaving products and sand pictures of the Navajos, and pottery from other tribes—all contributed by Trek adventurers.

# MY DAY

By Mrs. Franklin D. Roosevelt

DAYTON, O.—We got off the train in Dayton this morning at 7:45. I know nothing bleaker than meeting people at that hour of the morning, and I was terribly sorry for the Mayor, the head of the Chamber of Commerce and the ladies of the committee, who had to get up that early to be on hand. However, they seemed quite cheerful and were very kind.

The usual photographs were taken and then we were kindly and very considerably left alone in the Hotel Van Cleve, where we bathed and breakfasted in peace and quiet.

Mrs. Scheider and I lunched alone and had a very friendly, chatty boy waiting on us who, I think, was really grieved that we did not eat a long and elaborate meal.

Two directors of the WPA work in the city came in for a few minutes and at 2 I drove out to the Wright Air Field, an Army field where all planes are tested before they are used in the service. The planes are beautiful things in themselves, and the field is a grand field with no obstructions around it.

They showed me the latest Douglas Bomber and, like all other things military, the remarkable ingenuity of the machinery made for destruction, filled me with awe. I hope the day will come when all that inventing and mechanical genius will be used for other purposes.

From there we drove to the Veterans' Hospital, where 2600 veterans are cared for. A few of them were Civil War veterans, a larger number of them Spanish-American War veterans, but the great majority World War veterans. I did not have time to see the whole hospital but visited a few nurses and yeomenettes and saw one patient, who is a World War nurse I have known for some time, Miss Mary Garnett Moore.

I stopped for a moment at the district office of the WPA which directs the work of four counties, and then came back to the hotel to meet S. B. Weston, Youth Administrator for the state, and Bruce Musick, director for the district.

We visited a boys' club, where a number of National Youth Administration people are at work, and then a colored community center, where more NYA people are at work, chiefly in supervising young people in athletics and in arts and crafts occupations.

Now I am back in the hotel and in a few minutes I will dress and go to a dinner given for Judge Florence Allen before my speech tonight.

# Helen Leach Is to Wed New Yorker This Spring

March 12, 1936.

Dear Beatrice Burgan—Helen Catherine Leach, daughter of Leon T. Leach, Indianapolis, says no date has been set for her wedding, but she expects to be married some time this spring to Glenn Morgan Fulkerston, New York.

Miss Leach is staying with her sister, Mrs. Howard Finney Jr., in Monclair until the wedding.

"I expect to make my home in New York after my marriage," she said.

Mr. and Mrs. Elliott Smith (Betina Poltz) have been skiing on week-ends. They take a snow train to the North Creek foothills in the Adirondacks. The skiing season soon will be over.

Spring Clothes Ready

The shop windows are filled with pretty spring clothes.

I find New York women much more sentimental in their attitude toward fashions than the girls of the Southern resorts. Tables have turned. The sophisticated Manhattanites are approaching spring styles in a "moonlight and roses" mood.

"Yes, I'm having a purple taffeta petticoat made to wear with my new blue taffeta suit," an unusually practical-minded girl confided to me at the Women's National Republican Club fashion show recently.

"You know So-and-So (mentioning a Newport boy) always sends me

## SHOPPING AROUND with Dorothy

Lace toed hose are important for wear with open sandals... especially if your nails are bright with polish.

Ask me another. I really enjoy answering questions about the shopping world. The answers I don't have at hand are always available somewhere... and if I can find them for you, it's a pleasure. Don't hesitate to ask me for further information on any of my pet subjects... or new topics that I'm sure we would both like to know more about. Just phone RI 5551 or pen a little letter to The Times, in care of

A wee bit thrifty, are you? I don't want to say too much, but I do want to say it often. For then, you will know that true words never were spoken. Wintergreen is probably the oldest remedy for aches and pains. And now your druggist will supply you with KEENE'S Wintergreen Tablets for relief from rheumatic pains, neuritis, neuralgia and muscular lumbago. These tablets are a scientific compound of the active principle of wintergreen, together with other valuable analgesic medicines. If you know your medicines, this blend will give a maximum relief from pain. You see it gets to the cause... stimulates circulation and the blood stream carries off the poisons. Take just one or two tablets, 2 to 4 times daily as required. And ask your druggist about the absolute guarantee that goes with KEENE'S Wintergreen Tablets. Try just a half bottle, follow the simple directions for 15 days. Then, if you should fail to obtain positive results, why, simply return the half used bottle within 30 days and your druggist will refund your money. And we're not a bit Scotch in our praise for this remedy!
