

## G. O. P. PARLEY DRAWS NEAR; LABOR EXPECTING GENEROUS TREATMENT BY DEMOCRATS

Shorter Week, Minimum  
Pay Planks Are Sought  
by Union Chief.

BY HERBERT LITTLE  
Times Special Writer

WASHINGTON, April 21.—A Democratic platform plank embodying pledges for a shorter work-week, minimum wages, abolition of child labor, and the "fair trade practice" provisions recently upheld by the Supreme Court in the Sugar Institute case, was predicted by Democratic labor men today.

The party's convention at Philadelphia in June will go perhaps even further than the 1932 labor plank, it was predicted, partly because of the recent strong labor sentiment for Roosevelt, led by John L. Lewis, and partly because of the President's revived program to reduce unemployment, as outlined at Baltimore last week.

The 1932 promise of efforts toward a shorter work-week was carried out to a considerable extent by NRA, but since the Supreme Court spoke last May, average hours a week in industry have increased by three to nearly 42.

The Supreme Court's imminent ruling on the Guffey Coal Act, now expected Monday, and its impending decision on the New York minimum wage law, probably will have a vital effect on this convention and campaign issue.

### Fear for Guffey Act

New Dealers are fearful that the Guffey Act decision will chop down the Federal government's asserted power to act nationally on hours and wages.

A decision against the minimum-wage law would similarly prune the power of the states. A similar law was voided, 5-3, by the court in 1923, and the four conservative justices now on the high bench all voted in the majority then.

A possible combination of state and Federal action to shorten hours and provide work for some of the nation's million more unemployed may be resorted to by the Democrats, since the Supreme Court has upheld (in an Oregon case in 1918) the limitation of hours of labor by the state.

### Child Labor Verdict Recalled

In carrying out the President's renewed demand to save the available jobs for those over 18 the liberal minority of the Supreme Court is his only support.

The Court in a 5-4 decision in 1918 kicked out a Federal law forbidding child labor, and only a change in the complexion of the court is likely to improve the chances of any such law.

The President's top-limit of 65 years for jobs is carried out in effect now by the practices of many employers, and the old-age insurance feature of the Social Security Act when operative will make the process easier.

### POLICE BOARD TO TRY SUSPENDED PATROLMEN

Hearing of Theft Charges to Be  
Conducted Tomorrow.

A board of high-ranking officers is to meet tomorrow with Chief Morrissey to try two suspended patrolmen on charges that they stole \$10 from a Negro prisoner they had arrested.

The patrolmen, Frederick J. Craig and Peter Maus, were suspended Sunday night by Inspector John Mullin after Chester Winters, Negro, 23, of 812 Michael-st., alleged that they had taken the money from him while placing him under arrest for shooting within the city limits.

### 1935 WORLD SERIES HERO, Goose Goslin,

says: "A big-league ball  
player has to watch his  
digestion. Smoking  
Camels helps stimu-  
late digestion."

"I HAVE TO EAT IN 30 MINUTES  
—and then go to work catching red-hot  
rivets, standing on narrow beams hun-  
dreds of feet in the air," says Harry Fisher,  
steel worker. "Smoking Camels helps  
my digestion, gives me a swell 'lift'."

**SHE FEEDS THOUSANDS DAILY.** Miss  
Lenora Elin, dietitian, says: "With me, it's  
always Camels! Smoking Camels during  
meals and after stimulates digestion, causing  
increased flow of digestive fluids. Camels  
never jangle my nerves."

**Smoking Camels Assists  
Digestion to Proceed Normally  
and Stimulates a Sense of Ease  
and Good Feeling**

When people are tired, worried, or  
nervous, digestion is apt to be affected.  
The flow of digestive fluids slows up.

Smoking Camels has a favorable in-  
fluence in increasing the flow of these  
digestive fluids. The increase brought  
about by smoking Camels has actually  
been measured by scientists. Thus, there  
are sound, definite reasons why Camels  
add to the enjoyment of your meals.

Camels are supremely mild—never get  
on the nerves or tire your taste. Enjoy  
Camels as much as you like...for their  
good cheer and "lift"...for their rare fla-  
vor! Smoke Camel's costlier tobaccos for  
digestion's sake. They set you right!

## COSTLIER TOBACCOS

Camels are made from  
finer, MORE EXPENSIVE  
TOBACCOS—Turkish  
and Domestic—than any  
other popular brand.

**THE TERRACED MARINE DINING ROOM** of the Edgewater Beach Hotel,  
Chicago. Those who dine on tempting food...at leisure...with music...  
and gay companionship...also appreciate Camels for their aid to digestion.  
Camels make food taste better—help you to enjoy it more. "Good times  
and good tobacco go together," says Fred, maître d'hôtel of the Marine Dining  
Room. "Here, where fine foods are prepared and served for those who like  
the best—so many of our guests smoke Camels. They are immensely popular."
