

TOWNSEND CLUB CASH NOW SENT DIRECT TO CHIEF

National Organization Fears Suit to Tie Up Funds, Manager Says.

Townsend Clubs in Indiana are either holding sums due the national organization in their treasuries or sending them to Dr. F. E. Townsend direct, it was learned today.

Funds released are sent to the new national headquarters of the Townsend movement at 720 N. Michigan av., Chicago, in the personal care of Dr. Townsend, it was said.

C. F. McCampbell, state area manager, said such money are credited to a "preparedness fund" or "defense" account.

Fear that national funds might be tied up in litigation because of the recent congressional investigation resulted in orders from the Chicago office that funds due the national organization be diverted to Dr. Townsend personally, or kept in the club treasuries on call, he said.

Funds received by the Indiana office are sent to national headquarters and not to the "preparedness" fund, however, Mr. McCampbell declared.

Reorganization Is Delayed

Mr. McCampbell said the strategy probably would be continued until the House inquiry is ended.

Reorganization of the state Townsend forces in preparation for the fall election is to be postponed until after the state conventions of the two major parties, it was reported.

The state Townsend organization is scheduled to meet Monday in Castle Hall. A liaison officer is to be named for Indiana who will be the representative of the national organization.

Most optimistic is Dean of Commerce James E. McCarthy, who said he expects that 95 per cent of his seniors will be on pay rolls before summer is over. Among aspirant groups confronting an "up-hill fight," according to the reports, are teachers and journalists.

GRAND JURY CHARGES YOUTHS WITH MURDER

Imus, serving a 10-to-20-year term in the State Reformatory on burglary charges, is said to have confessed the shooting last week. He implicated Kretschmer, who was arrested in an Army camp at Vancouver, Wash., and is held there for Indiana authorities.

Only 1500 more private placements were made during the entire month of April than were made in the first half of May, Mr. Carpenter pointed out.

Public works have furnished jobs for 3538 persons during the first 16 days of the month and 124 applicants have been placed with the WPA.

Strict enforcement together with educational and engineering advancements can check death and injury tolls which make Indiana one of the seven bloodiest states of the nation, Gov. McNutt said.
