

IRWIN, GATES, MORGAN CONFER ON LEADERSHIP

Committee Session Suspended While Parties to Quarrel Seek Solution.

(Continued from Page One)

error, Lieutenant Governor, Secretary of State, Auditor of State, Superintendent of Public Instruction; Reporter of the Supreme and Appellate courts; one judge in each of the First and Fourth Districts of the Supreme Court; one judge in the Appellate Court (south) and one in the Appellate Court (north).

Halleck Record Praised

"We urge most emphatically a balanced budget, stable currency, and credit."

"We wish to commend the record of Indiana's lone Republican Congressman, Charles Halleck, of Rensselaer."

"We find little to commend in the administration of our state government under the leadership of Gov. McNutt. That statement is not based upon any narrow partisan viewpoint. We urge the voters, regardless of political affiliations, to examine the record from the time Mr. McNutt took office to the present moment."

"In the event of Republican success in Indiana next November, we can assure the citizens of Indiana an immediate termination of dictatorship, and the early restoration of Republican government."

"We further pledge ourselves to the cleaning up of a liquor and beer racket that has flourished beyond all bounds of decency, under a system for which the present Democratic administration in Indiana is entirely responsible."

"We promise an effective and adequate relief program—relief to those in need, without any thought of politics. Both national and state administrations have exercised unreasonable and wholly inexcusable parsimony in the administration of relief funds, to which all taxpayers contribute."

"No Democratic politician in the country can convince any one who has eyes with which to see that relief and Democratic politics are not merged."

Merit System "Debauched"

"We will leave to individual interests the publication of newspapers. We do not approve of the financing of such publications from funds provided by state employees, many of whom are coerced into contributing, nor do we approve, nor will we permit the financing of any political machine from any such fund."

"The debauchery of the merit system in both national and state under the Roosevelt and McNutt Administrations is most deplorable. Neither Federal nor state responsibility can be properly developed and extended when accompanied by a virtually unconditional spoils system."

"Under no circumstances do we favor the shifting to the state of the responsibility of caring and providing for persons whose children or close relatives are well able to assume such responsibility."

"We condemn the present state administration's attitude toward labor. We insist that labor, shall have the right to organize without coercion from government or from any other source."

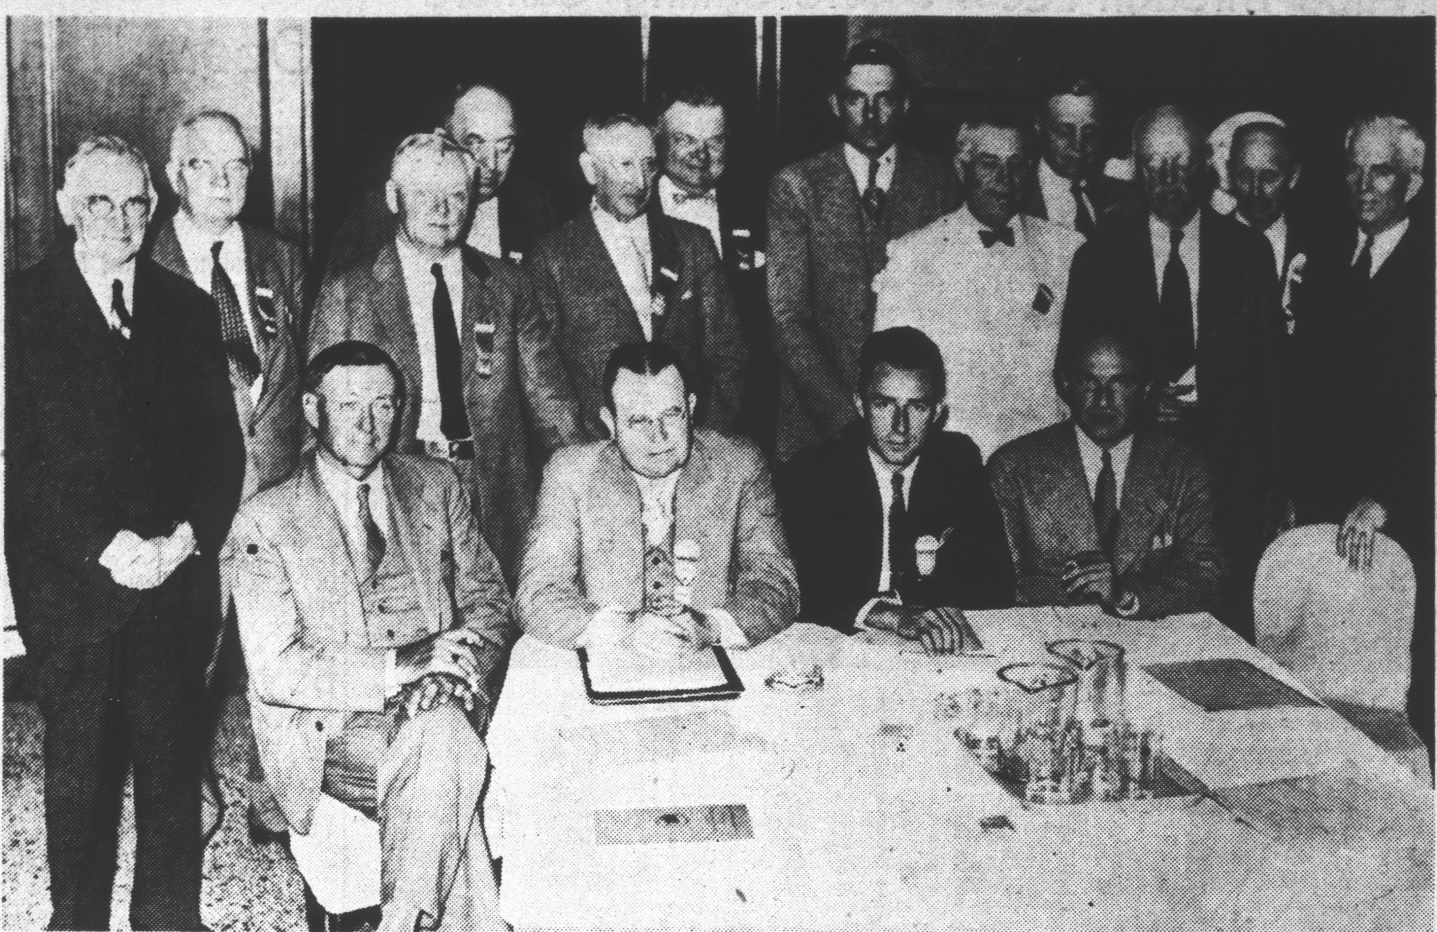

Tax Relief Demanded

"Taxation is a business and an economic problem. It is not a partisan problem. Tax burdens and expenditures go hand in hand. Further relief from the burdens of taxation in this state can only be found when expenditures are reduced to the lowest point consistent with an efficient and economical administration of government, both state and local. We favor such legislation as will result in every class of properties being made to bear its just portion of the burdens of taxation; less liberality in exempting by law certain classes of properties from taxation and reasonable limitations upon the ability of taxing units to incur indebtedness."

"We are opposed to the present gross income tax law."

"The Republican Party is ever grateful to the veterans of all wars. It has always been the policy of the Republican Party, when in power, to recognize the real worth of our veterans in placing them in positions of honor and trust. Adequate care must be given disabled veterans, and we pledge the enactment of legislation to that end."

CATTLE ASSOCIATION DIRECTORS MEET TO DISCUSS RESOLUTIONS AT SESSION HERE

Members of the Holstein-Friesian Association of America's board of directors met today in the Claypool before continuing their discussion of resolutions to be offered in the general business session.

Seated (left to right) are Martin Buth, Albert Craig, Homer Remberg and M. J. Sheridan.

Standing, (left to right) are Thomas E. Elder, Houghton Seaverns, W. H. Matt, W. S. Moscrip, Fred Southcott, W. W. Watson, L. T. Winger, D. W. McLaury, A. J. Glover (president), H. V. Noyes, C. W. Newman, and H. W. Norton.

Council Assailed by League for Cut in Merit School Fund

Women Voters' Group Protests Action Providing Only One Class for Police and Firemen.

The City Council's action in providing funds for one instead of four police and firemen merit schools was criticised today by directors of the Indianapolis League of Women Voters.

Directors said the league had made a study of the police and firemen merit law, and had found that, while some sections were imperfect, the law was an advance over the old system.

Hoping the Council would reconsider its action, directors said the \$1800 fund transfer originally asked by the Safety Board for four merit schools was a reasonable amount.

The Council agreed last night to transfer \$450 in Safety Board funds for use in operating one police school.

The Council today had before it for action the trackless trolley contract recently signed by the Works Board and Indianapolis Railways, Inc., and a proposal for an upward revision in the amount the Indiana Bell Telephone Co. pays the city for placing its plant on city property.

The street car and the phone business was in the hands of Public Works Committee, headed by Dr. Theodore Cable. Other members are Dr. Silas J. Carr, Ross H. Wallace, William A. Oren, and John A. Schumacher.

The Council passed appropriation ordinances and authorized the issuance and sale of \$300,000 in refunding bonds with which to retire an issue of a similar amount sold in 1906.

One ordinance appropriated \$10,000 from the unexpended and unappropriated balance of the 1935 general fund of the public parks budget for the purchase of oil and gravel to complete the Fall Creek-park Works Progress Administration project.

Amendment Passed

An amendment to the new tax-cab ordinance that is to go into effect tomorrow was passed under a suspension of the rules, providing for a month's delay in enforcement of the section requiring licenses and monthly inspection.

Measures to repeal the present picketing ordinance and one calling for the restoration of reductions in salaries of members of the police and fire departments were held over until the next meeting.

Dr. Cable indicated that he would call a public hearing the first of next week on the trolley contract. South Side civic groups oppose the agreement because it provides for the merging of the Lincoln and Minnesota lines. They object to the

merger because they say it provides for the operation of trackless trolleys over narrow streets and over two blocks of Pleasant Run-blvd.

The contract must be ratified by the Council and passed by the Public Service Commission before becoming effective.

Dr. Cable said that the telephone company was operating here under an agreement made between the city and the old Central Union Co. in 1896, a time when there were only 2000 telephones in use here. It provides for an annual payment to the city of \$6000.

Dr. Cable pointed out that in 1935 there were 70,000 telephones in use and that in comparison to that in cities of similar size payment was small.

He recommended that the city legal department and the Works Board confer with the utility on what he considered a better balanced contract.

Ordinances providing for the sale of "park land" of the city, formerly the right-of-way of the T. H. I. & E. Traction Co. near Kessler-blvd, and the establishment of a bus zone on the east side of Illinois-st north of Georgia-st also were introduced.

Three ordinances requesting the transfer of money were introduced. The Safety Board asked that \$7127 be transferred from the Gamewell division to the fire department. The Health Board asked the transfer of \$600 for administration purposes, and the engineering department requested \$2000 for sewer materials.

Accident Victim Is Dead

TERRE HAUTE, Ind., June 2.—Mrs. Rena Tebo, 39, Gary, died today from injuries suffered in an automobile accident Friday night in which seven others were injured.

DISTRIBUTION OF BONUS OUTLINED

Bonds to Be Delivered by Postmen on June 16, Official Says.

Bonus bonds are to be distributed to World War veterans beginning Tuesday evening, June 16, according to Adolph Seidensticker, postmaster.

Regular mail carriers are to start deliveries at 5:30 p. m. June 16. Veterans must sign for the bonds. The evening delivery was selected because recipients are more likely to be at home at that time, Mr. Seidensticker said.

In case the veteran is not known to the postman, he must be identified by some one whom the postman does know and the identifying witness also must sign for the bonds. If the recipient can not be located during the evening delivery, the postman is to learn when he will be at home and make another delivery, Mr. Seidensticker said.

The bonds are expected to arrive here from the Federal Reserve Bank in Chicago late on the afternoon of June 15.

Flower Mission to Meet

Indianapolis Flower Mission Society directors are to discuss proposals to raise funds for operation of the new memorial hospital in a meeting at 9:45 Thursday morning in the Fletcher Trust Co.

GROUPS OPPOSE FEDERAL TRADE CONTROL POLICY

Business Men Also Want Courts Left Free, Survey Shows.

The following dispatch discussing the attitude of business groups is another of several dealing with recommendations which the Republican and Democratic convention delegates will have before them when they draft their 1936 platforms this month.

BY HILLIER KRIEGBRAUM

United Press Staff Correspondent

WASHINGTON, June 2.—Representative business organizations believe that industry should be allowed to set its own house in order without congressional regulations, a survey showed today.

Most business men also want the Supreme Court left free to decide how far Congress can go in trying to regulate working conditions, hours and wages. To date, the court has disapproved most of Congress' attempts including the NRA and the Guffey Coal Act.

Having tried the NRA code regulations during the early days of the Roosevelt administration, most groups of business men oppose any revival of government control.

The United States Chamber of Commerce, which represents approximately 750,000 members, adopted a resolution at its annual meeting last April which said:

"When government attempts by legislative means or executive fiat to impose upon business rules of conduct pertaining to such matters as wages, hours, conditions and terms of employment, or other restrictive measures interfering with the free play of economic forces, it retards both the material and spiritual progress of the nation."

Opposed Guffey Act

The National Association of Manufacturers not only disapproved reviving the NRA in a modified form but opposed its application to special industries.

Its members specifically "opposed the Guffey Coal Act, which set up a 'little NRA' for the coal industry and was recently declared unconstitutional by the Supreme Court; the Ellenbogen Textile control bill, which would license mill operators in an effort to establish control, and the Black-Connelly bill which would establish a basic 30-hour week."

The National Association of Manufacturers went still further and opposed the Social Security Act in a resolution adopted at its last annual congress. It contended that such legislation attempts "to force uniform treatment of old-age relief, unemployment distress and relief of certain other forms of distress through the entire nation, regardless of local circumstances and environment."

The act, the delegates agreed, endeavors by taxation to force states into the program "regardless of what may be their considered judgment as to the merits of its objectives."

In its only quoted plank submitted to both parties, the American Liberty League joined both the Chamber of Commerce and the National Association of Manufacturers in defending the rights of the Supreme Court to pass on the constitutional-
