THIS CURIOUS WORLD • By William Ferguson

WHEN WE EAT A 5-YEAR OLD OYSTER, WE ARE EATING "ONE IN A MILLION," SINCE IT IS ESTIMATED THAT OUT OF EACH MILLION OYSTER EGGS, ONLY ONE SINGLE OYSTER SURVIVES TO THE FIFTH YEAR.

NOT ALL SPECIES OF MOSQUITOS ATTACK MAN! SOME ATTACK BIRDS ONLY, AND MANY SPECIES DO NOT SUCK BLOOD AT ALL.

NO ONE KNOWS WHO DISCOVERED THE BIG TREES OF CALIFORNIA.

Fortunate it is that all oyster eggs do not hatch and grow up into producers. It has been calculated that the Maryland oyster lays about 16,000,000 eggs, and if half of these were to develop into females which also laid eggs, there would be, in the fifth generation, enough oysters to make a mass eight times the size of the earth.

Haile Selassie's Reception Fete Causing Diplomatic Headaches

Envoys of Many Nations Give Varied Excuses to Turn Down Invitations to Affair.

LONDON, June 6.—The "black crown" of Premier Benito Mussolini hung over London today and caused many diplomats to seek better political weather in the country.

Emperor Haile Selassie of Ethiopia—Mr. Tafari to Mussolini now that Ethiopia has been conquered—is to give a reception at his home here. But the diplomatic envoys invited were expected to prove only an indication of the Duke's far-reaching moral power.

The Emperor is here incognito, in order to spare the British government too much embarrassment. He sent out invitations to his reception without seeking the permission of the Foreign Office and the authorities do not approve.

Foreign Secretary Anthony Eden, who paid an informal 20-minute visit to the Emperor yesterday, pleaded a prior engagement in the country in answer to his reception invitation. The Foreign Office will be represented by Lord Cranborne, parliamentary undersecretary for foreign affairs.

Etherton Won't Attend
Ray Etherton, charge d'affaires of the American embassy, also will not attend. His plea is that the Emperor's invitation is addressed to Ambassador Robert Worth Bingham, who is in the United States.

Other envoys cite engagements of pressing nature. It was understood that among those who found it impossible, or impolitic, to accept were the envoys of Russia, France, Spain, most Latin American republics, the Baltic, Scandinavian and little entente nations; Switzerland, the Netherlands and Greece.

But, it was reported, acceptances were given by the Turkish, Persian, Afghan, Chinese and Japanese envoys.

SENATE GROUP BALKS AT BILL ON INTIMIDATION

Committee Disapproves Law by Senior Indiana Legislator.

DANIEL M. KIDNEY
Times Staff Writer

WASHINGTON, June 6.—A majority of the House Judiciary Committee has voted disapproval of the VanNuy's worker-voter intimidation bill and no such legislation will pass this session.

The VanNuy's bill provided fines for corporations and imprisonment for officials who "attempt to influence, through fear or intimidation" the vote of any one in their employ.

It passed the Senate without dissent, following its introduction there by Senator Frederick VanNuy (D., Ind.).

When it was sent to the House, the bill was sponsored by Rep. Glen Griswold (D., Ind.), author of a companion measure. Rep. Gris-

wold procured a hearing before the Judiciary subcommittee of which Rep. Zebulon Weaver (D., N. C.), was chairman.

The subcommittee recommended approval, but the bill was turned down by the full committee.

CONGRESS CUTS MUST BILLS TO MERE SKELETON

Taxes, Relief and Measures in Conference Only Ones Given Chance.

WASHINGTON, June 6.—Congressional leaders recast their legislative plans today, eliminating virtually all measures from the schedule except taxes, relief and bills already in conference.

While admittedly changes may be made in the schedule, the present intention is that when Congress resumes active work June 15, it will stay in session only long enough to pass these bills:

Administration tax, relief-deficiency, anti-lobby, Robinson-Patman and price discrimination, Interior appropriation, Treasury-Post-office supply, District of Columbia appropriation.

These were expected to be the only major bills in conference or awaiting action on conference reports when the adjournment for the Republican national convention is taken Monday.

House leaders said a gentlemen's agreement had been reached that no new proposals would be considered. A similar arrangement was made in the Senate.

Fear Adjournment Delay
Though some development conceivably might arise to shift these plans, most congressional observers felt the present schedule would be adhered to. It was pointed out that any deviation from this plan would open up the session to a wide variety of proposals which might delay adjournment indefinitely.

This agreement meant that a half a dozen proposals previously considered to have some chance of passage were headed for scrapping. These included:

Substitute Guffey coal bill, Walsh-Healey government contracts NRA bill, graduated AAA payments, ship subsidy legislation, Wagner housing, Bonneville power bill and the pure food and drug bill.

The Senate was scheduled to take up the calendar today. There was a possibility some measures already passed might be approved and thus made eligible for final action at this session.

Approval of bills which the House has not taken up, however, apparently would not bring them

any nearer enactment at this session due to House agreement not to consider such bills.

While the tax bill disagreement between House and Senate was considered the most likely to produce delay, several other conflicts must also be ironed out.

Possible center for differences is the huge relief-deficiency bill. The Senate added three provisions to this bill which the House disapproved. These are provision of administration of relief by the President, authorization of a survey for the Florida ship canal and appropriations for reclamation projects.
