

## BOARD STUDIES WATER FIRM'S BOND PETITION

Local Utility Drafts Issue  
Based on Improvements  
to Its Plant.

The Indiana Public Service Commission today had under advisement a request of the Indianapolis Water Co. to issue \$522,000 in 5 per cent gold bonds and 3810 shares of 5 per cent preferred stock, par value \$100 a share. At a hearing yesterday the water company asked for a decision by Friday.

Capitalization of plant improvements during the last five years is the purpose of the proposed bond and stock issue, according to the petition. From Dec. 1, 1930, to March 31, 1936, the water company has spent \$903,095.17 for improvements, the petition said.

The stock would be sold, but the bonds would not be marketed, the petition explained.

### Asks Division of Figures

Perry McCart, commission chairman, asked that the water company's figures be divided to show the cost of improvements made before June 1, 1931, because, he pointed out, the law provides that securities may be issued only against capital expenditures that have taken place in the five years immediately prior to the date of the filing of the petition for the issue. The petition was filed June 1, 1936.

Water company figures showed that \$414,758.14 was spent for plant improvements prior to June 1, 1931.

Water company officials who testified at the hearing yesterday were H. S. Morse, general manager; W. C. Mahee, chief engineer, and E. E. Schrier, auditor.

## YOUNGEST EXECUTIVE

Youngest high executive in the steel industry, T. E. Millsop, 37, above, has been named president of the Weirton Steel Co. A steel worker since 1913, Millsop served in the Canadian army during the World War, then was a stunt flier for six years. He returned to steel and rose to the post of executive vice president of Weirton a year ago.

## IL DUCE'S SON STRICKEN

Youngest Boy of Mussolini Is Ill With Whooping Cough.

ROME, July 2.—Romano, 9, youngest son of Premier Benito Mussolini, was stricken with whooping cough at his father's residence in Rome today.

Meanwhile, Anna Maria, 7, daughter of Il Duce, was recovering slowly from infantile paralysis at the family's villa Braschi at Tivoli, near Rome.

Water company figures showed that \$414,758.14 was spent for plant improvements prior to June 1, 1931.

Water company officials who testified at the hearing yesterday were H. S. Morse, general manager; W. C. Mahee, chief engineer, and E. E. Schrier, auditor.

## DEMAND HIGHER WAGES

Textile and Worsted Workers Also Want 35-Hour Week.

PROVIDENCE, R. I., July 2.—Formal demands for 20 per cent wage increases and a 35-hour work week for the nation's woolen and worsted workers were addressed to the manufacturers today by the general strike committee of the United Textile Workers of America.

Although no general strike is contemplated this summer, President Thomas F. McMahon of the U. T. W. of A. was en route to Washington to make plans for eventual walkouts.
