

# SOARING POSTAL RECEIPTS CITED AS BAROMETER

New Deal Has Brought Back Prosperity, Howes Tells Postmasters.

(Editorial on Page 14)  
W. W. Howes, first assistant postmaster general, reviewing the record of the Roosevelt Administration before Indiana postmasters last night, declared that postal receipts, "the greatest barometer of business, are soaring."  
Mr. Howes, who is to become acting postmaster general Aug. 1, during a leave by James A. Farley, spoke at the first annual convention banquet of the Indiana Chapter, National Association of Postmasters in the Claypool Hotel.  
He reported that postal receipts had increased \$40,000,000 in the last fiscal year and indicated an increase of \$40,000,000 more next year.  
He said that records for airmail postage have been broken four times in the last year and that revenue from all phases of the postal service has increased.

**Pays Tribute to Farley**  
Mr. Howes praised Mr. Farley as the "best business man, the best salesman and the most honest man in public life."

"The postmaster-general in his first year succeeded in lifting the Post Office Department from \$152,000,000 in the red to \$120,000,000 in the black," Mr. Howes asserted.  
In commenting on the relief program, Mr. Howes declared that the billions are being spent in this country and not in Europe as was the case during the Hoover Administration.

"The money spent and being spent keeps circulating, has primed the pump and has brought prosperity," he added.

**Minton Among Speakers**  
Maurice C. Goodwin, state president, presided at the banquet which was attended by more than 300. Among the guests and speakers were Senator Sherman Minton, Rep. Glenn Griswold, R. Earl Peters, Federal Housing Administration director; Will H. Smith, Internal Revenue collector; Clinton B. Utley, Washington, superintendent of the divisional postal service.

At the opening sessions yesterday the postmasters heard Mayor Kern, Adolph Seidensicker, postmaster, and Senator Minton.

The closing meeting today is to include a question box conducted by George Riss, Indianapolis, and A. S. Kelly, Muncie, post office inspectors, reports of committees and election of officers, and a sight-seeing tour to Municipal Airport.

**I Crossed the Continent on a Cupful o' RED CROWN!**  
...boasts *Hermit Kidder*

"It's something of a hobby with me—crossing the continent. But old experienced continent-crosser that I am, do I have my eyes opened this Spring? I do!  
"Always before, I make the trip by foot, figuring I'm money ahead if other folks buy the gasoline. This time, though, I get reckless. I decide to forget expense and go in my own car. 'But, Kermit,' I say to myself, 'don't go completely nuts all at once. Take it easy and gradual,' I say.  
"That's sensible, so I start it off with just one tea-cupful of gasoline in the tank. And right there is where I get my eye-opener. It happens to be Red Crown gasoline that I buy. And do I have to make another single stop for gas the whole way across? I do not! That one cupful takes me coast to coast, and I even have trouble stopping the car when I get to the Golden Gate!"

We don't believe Kermit could really have been serious about this matter. In fact, we don't believe there is any such person.

It is a fact, though, that many motorists do have false or exaggerated ideas about gasoline mileage. That's why Standard Oil is conducting a great public road test this summer, in which thousands of motorists are taking part.

Reports already indicate that many are learning valuable new facts about the economical operation of their cars—discovering how to use gasoline more efficiently—finding out which brand of motor fuel does the best and cheapest job for them. Even if you aren't entered in the World's Greatest Road Test, it will pay you to

## LEARN THE TRUTH ABOUT GASOLINE MILEAGE

Have your Standard Dealer fill your tank with Standard Red Crown. Then note carefully how many miles you drive before you need gasoline again. Compare that mileage with any you've ever gotten before.  
We know from our own tests that Standard Red Crown is good for fully as long a mileage as any regular priced gasoline on the market. But rather than make claims, we prefer to let Standard Red Crown speak for itself.
