

LAKES TO BE RIDDEN OF UNDESIRABLE FISH

Predatory Species to Be Removed, Commissioner Announces.

Removal of undesirable fish—gar, dogfish and carp—from a number of northern lakes will be started within the next two weeks, Virgil M. Simmons, commissioner of the Department of Conservation, announced today.

Seining operations will be undertaken in Noble, Steuben, Dekalb, Whitley, La Porte, Starke, St. Joseph, Marshall, Fulton, Kosciusko, Elkhart and LaGrange Counties.

The project will be conducted by the WPA with the co-operation of the county conservation representatives.

It is estimated that millions of young game fish are destroyed each year by the predatory species.
