

SURVEY REPORT ON STATE LAW EXPECTED SOON

Barrett Law Changes May
Be Recommended by
Commission.

By United Press
A survey which may lead to re-codification of the Barrett Law will be completed soon by the State Account Board, William P. Cosgrove, chief examiner, announced today.

Results of the survey are to be turned over to a commission, created by the 1935 Legislature, to confer and advise the board in recommendations and preparations of a bill to be offered at the 1937 session of the General Assembly.

The legislative resolution provided that the commission shall consist of one representative each for cities of first class, cities of second class, public improvement contractors and financial institutions dealing in public improvement bonds.

Mr. Cosgrove, empowered to appoint members of the commission, said its personnel had not yet been determined.

The resolution states that passage of laws at various times relating to special assessments for public improvements, the issuance of bonds and collection of the collection of such assessments is installment, the accounting of such funds and the payment of such bonds, has resulted in "multiplicity, ambiguity, conflicts and deficiencies in the measure."

Law Needs Rewriting

It also was deemed advisable, the resolution continued, to revitalize the original law because of the ever increasing deficiency in the fund for the payment of such bonds because of the impracticability of the existing laws and the inadequacy of the system of accounting.

One of the most important changes suggested is the substitution of bonds for the individual assessments of property owners instead of issuing bonds for an aggregate assessment for a project.

Under the present law, deficiencies are recorded when individuals pay their original assessments before the term of the project bond expires. Bonds now issued by a government unit provide for interest for the total assessment for the duration of the issue.

Government Responsible

Payment of an assessment by a co-operating citizen causes a deficiency in the total interest to be paid on the aggregate assessment, for which the local government unit issuing the bonds now is responsible.

An objection to the individual assessment system has been made that small bonds would be necessitated by some projects whose total assessments are not large.

It is argued, however, that assessments under \$10 or some other reasonable amount should be paid in full.

Because of frequent amendments to the original Barrett Law, the types of contracts in effect are multifarious and accounting systems are impaired, it was charged.

ICKES CITES LETTER WRITTEN BY LANDON

Assets Candidate 18 Months Ago
Scoffed at State Comptacts.

By United Press
WASHINGTON, Aug. 4.—Secretary of Interior Harold L. Ickes charged in a virile radio speech last night that the state comptacts advocated by Gov. Alf M. Landon in his Republican presidential acceptance address were characterized by the Kansas Governor 18 months ago as "about the deadest horse I know."

Citing Gov. Landon's statement that the state compact legislative method was provided by the "amazing foresight of the makers of the Constitution," Mr. Ickes recalled a letter written by Gov. Landon to Wirt Franklin, oil producer, in January, 1935.

"The compact - between states idea," Mr. Ickes quoted Gov. Landon as writing, "has been agitated ever since Hoover submitted it to the Colorado Springs conference and it about the deadest horse I know."

GRANT FAIR CANCELLED

Adverse Financial Conditions Prompt
Decision in Upstate County.

Times Special
MARION, Ind., Aug. 4.—I. E. Carter, executive board chairman, announced today that plans for the Grant County fair have been abandoned. Adverse financial conditions would make the venture hazardous, he said. Mr. Carter said the 4-H Club phase of the fair will be carried out. It is to be held Sept. 1 to 3 at Fairmount.

CONVENTION OF PATHOMETRISTS OPENS AUG. 15

International Organization of Physicians to Hold Sessions Here.

The Universal Society of Pathometrists, an international organization of physicians, is to open its seventh annual convention here Saturday, Aug. 15.

All sessions of the meeting, which is to continue through Monday, are to be in Hotel Lincoln. Several hundred members from the United States and abroad are to attend.

The program is to include addresses by prominent physicians in the field of pathometry, clinics, technique classes, open forum discussions and election of officers.

The principal address is to be by Dr. G. W. Will, president of the Pathometric Laboratories, makers of

the vibratory instrument used in treatment by pathometrists.

Kern to Greet Delegates
Mayor Kern is to welcome the delegates at their opening session Saturday afternoon. Dr. Hugh J. Munro, Winnipeg, Canada, society president, is to preside.

Speakers scheduled on the program are Capt. C. S. Price, London, Eng.; Capt. Stanley Lief, Tring-Herts, Eng.; Dr. J. H. Farquharson, Toronto, Canada; Dr. Louis K. Bluth, Sigma Sampson, New Jersey; M. J. Snow, Chicago; Dr. E. M. Shy, Miami, Fla.; Dr. Lee W. Edwards, Omaha, Neb.; Dr. Philip A. Glass, River Falls, Wis.; Dr. Henry Stacy Dodge, Richmond, Va., and Dr. E. Salisbury, Fairfield, Ala.

Dr. O. G. McKeever, Indianapolis, secretary of the society, is in charge of arrangements for the convention. A banquet and entertainment are scheduled on Sunday.
