

## TRAFFIC ROUTES SUGGESTED FOR GUESTS AT FAIR

### Plan to Avoid Congestion Outlined by Official Directing Parking.

Traffic congestion, considered by fair officials as a "yearly problem," may be eliminated at the 1936 Indiana State Fair, which opens Saturday, under a plan worked out today by Charles R. Morris, Salem, fair board member in charge of parking.

Mr. Morris suggested that motorists coming to Indianapolis from the north and northwest enter the 42d-st. gate, those from the Noblesville enter the northeast gate, with the east gate for motorists from State Road 67 and the north-eastern part of the state.

Mr. Morris urged visitors from the south, west central and east central Indiana to use the main gate on 38th-st.

A new tunnel to the infield of the Fairground race track is expected to permit traffic to move more rapidly.

#### Predict Record Crowds

While concessionaires trimmed booths today and officials forecast a record attendance on the opening day to hear an address by President Roosevelt, it was reported in livestock, swine and sheep divisions that a banner number of entrants would vie for blue ribbons.

O. L. Reddish, Waveland, swine department superintendent, said 1800 head of hogs are expected in the swine division.

"We will have some of the leading hog herds in the nation," he said.

Phil Baker, radio star, who is to attend the exposition as a master of ceremonies, is to be given a dinner Friday night at the Indianapolis Athletic Club by the fair board and the Gulf Refining Co.

#### RA Exhibit Arranged

Among early exhibits being arranged today at the Fairground was a pictorial exhibit of the Resettlement Administration of Indiana. Fifteen panels of enlarged photographs are to show various phases of the resettlement work.

Demonstrations in applied science, elimination of the smoke nuisance, health exhibits and the use of polarized light in preventing headlight glare and cutting down accidents, are exhibits to be shown in the Indiana University Building.

A music festival, to be given daily by 150 I. U. and high school musicians and a symphonic band, is another feature of the university's role during the exposition.

# Text of Roosevelt Budget Statement

By United Press

WASHINGTON, Sept. 2.—Following is the complete statement by President Roosevelt on the summation of the 1937 budget:

Continuing the practice inaugurated last year, the attached summation revises the Budget for the fiscal year 1937 by reflecting the changes affecting the estimates of revenues and expenditures which have occurred since the 1937 budget was transmitted to Congress in January 1936.

Two outstanding events have taken place since that time which have materially affected the receipts and expenditures of the government.

The first of these was the decision of the Supreme Court declaring the Agricultural Adjustment Act unconstitutional, as a result of which the government lost substantial revenue from processing taxes.

The second was the passage by

the Congress of the Adjusted Compensation Payment Act providing for the immediate payment at their face value of the veterans' adjusted service certificates, which by their terms were not due until 1945.

As a result of the Supreme Court decision the estimated revenue from processing taxes for the fiscal year 1936 was reduced by \$452,000,000, up to the time of that decision the Agricultural Adjustment Administration had expended in accordance with law the sum of \$325,000,000 and had made substantial commitments for additional expenditures in anticipation of revenue from this source.

#### NEW FARM PROGRAM

To provide for carrying out the moral obligation of the government with respect to the commitments already entered into with farmers and which on the part had been at least partially performed, Congress appropriated \$296,000,000.

By the enactment of the Soil Conservation and Domestic Allotment Act, which included authority for an annual appropriation of not to exceed \$500,000,000, Congress provided a new farm program to preserve to the farmers the benefits of fair and adequate prices for the product of their labors.

The passage of the Adjusted Compensation Payment Act caused an increase in payments to veterans for the past year of \$1,674,000,000 and will result in further payments estimated at \$560,000,000 on this account during the present fiscal year.

To meet the additional requirements of the Treasury on account of these expenditures the Congress was requested to provide sufficient additional revenue: (1) to make good the loss of processing taxes in the fiscal year 1936; (2) to defray the annual cost of operation of the new farm program; (3) to amortize over a period of nine years the cost of payment of the adjusted service certificates.

The Revenue Act of 1936, enacted by the Congress in response to this request, will produce, on the basis of estimated business conditions for the calendar year 1936, annual revenue in the amount of \$652,000,000. For the fiscal year 1936 the amount of this revenue will be only \$328,000,000, since only the first and second of the quarterly payments of income taxes under this act will be made to the Treasury within that year. For the same year, however, there will be no recurring tax of \$82,000,000 from the so-called windfall taxes.

#### REVIEW OF 1936

The total receipts amounted to \$4,115,956,615 against the estimate in the 1937 budget of \$4,410,793,946, a net decrease of \$294,837,331. After taking into consideration the loss in processing taxes of \$452,000,000, receipts from other sources amounted to \$1,577,000,000 more than was estimated.

Total receipts showed a net increase of \$316,000,000 over those for 1935, and in the above photographs you can see what is in store for Hoosiers beginning Saturday with the opening of the Indiana State Fair.

Top, Jumbo, himself, waiting for you to feed him something. Center, the Midway, bannered, and waiting for customers to be calmed by the barkers. Lower, the new three-car underpass to facilitate movement of traffic from the race track infield to fairground traffic lanes.

The deficit for the year amounted to \$4,763,841,642, which included \$403,240,150 for statutory debt retirement. Deducting this amount leaves a net deficit of \$4,360,601,492. The estimated net deficit as shown in the budget of last January was

\$2,682,482,392. Had it not been for the invalidation of processing taxes and the passage of the Adjusted Compensation Payment Act, the net deficit would have been less than the January estimate by more than \$400,000,000.

The public debt increased during the year \$5,077,650,869, but in that time the balance of cash in the general fund of the Treasury likewise showed an increase of \$640,164,664.

#### FORECAST FOR 1937

Total receipts in the fiscal year 1937 are now estimated at \$5,659,830,000, a net increase of \$12,000,000 over the amount of the 1937 budget estimate. The estimated increases in general revenue more than offset the revenue losses, due in part to the invalidation of the special taxes levied under the Agricultural and Bituminous Coal Conservation Acts, and in part to the method finally adopted for collecting taxes under the Social Security Act which will defer to the fiscal year 1938 the collection of a portion of these taxes.

The losses from these causes amount to \$668,000,000, which are slightly more than offset by the following estimated increases in revenue: \$410,000,000 (including \$82,000,000 from the windfall taxes) resulting from the revenue act of 1936; \$33,000,000 from delayed collections of taxes on carriers and their employees, and \$237,000,000 consisting of an upward revision of revenue estimates due chiefly to improvement in business conditions.

The expenditure requirements for the fiscal year 1937 are now estimated at \$7,762,835,300, which includes \$560,000,000 to complete the payments of adjusted compensation to veterans and \$580,000,000 for statutory debt retirement.

Some of the principal items included in the expenditure requirements are as follows: The Agricultural Adjustment Administration will require \$585,000,000 and the Civilian Conservation Corps \$300,000,000. The requirements of the Agricultural Adjustment Administration will be greater for 1937 than for 1936 due to the interruption of that program in the past year by the Supreme Court decision and the consequent postponement of expenditures.

The expenditures for the Civilian Conservation Corps for 1937 will be less than those for 1936 due to the reduction made in the number of enrollees as compared with the number for 1936.

## WISCONSIN NEWS STRIKE IS ENDED

Reporters Return to Work at Higher Pay.

By United Press

MILWAUKEE, Sept. 2.—American Newspaper Guild members who have been on strike for seven months at the Hearst-owned Wisconsin News returned to their jobs today under a settlement giving them shorter working hours and higher pay, but not, Guild recognition and a written contract which they demanded.

The settlement was reached between John Black, manager of the Wisconsin News, and committee representing the Milwaukee Federated Trades Council.

A statement of policy issued by the management March 31 was the basis for the settlement. It provides for a five-day week, an \$8 daily wage minimum for those with three years newspaper experience, \$25 weekly for employees with less experience, paid vacations and dismissal bonuses.

The management did not recognize the Guild nor sign a written contract with it as demanded by the strikers when they walked out Feb. 17, Mr. Black said.

The management, the negotiating committee and the Guild issued

statements expressing satisfaction with the outcome of the strike.

The Guild said that under a verbal understanding between the negotiating committee and Black there will be no discrimination against any members of the guild and that the duration of the strike is not to be considered a lapse of employment for the purpose of determining vacations, dismissal bonuses, etc.

old age reserve account will require an initial contribution in 1937 of \$265,000,000.

For interest on the public debt \$825,000,000 will be required. In view of the general improvement in business conditions, it is estimated that there will be required a net amount of \$1,835,000,000 for recovery and relief, an amount materially less than that for the fiscal year 1936.

The estimated expenditures for the other establishments are \$448,986,000 greater than the expenditures for 1936, due principally to the development of the regular annual public works program and to increased expenditures for national defense.

The estimated deficit for 1937 is \$2,096,986,300, which includes \$580,000,000 for statutory debt retirement and \$560,000,000 for further payments under the Adjusted Compensation Payment Act. Deducting the amount of the statutory debt retirement leaves a net deficit of \$1,516,986,300.

This does not mean that there will be an increase in the public debt of this amount for the reason that it is contemplated during the year to reduce the working balance of the general fund by approximately \$1,100,000,000.

The following table shows total receipts and expenditures for each of the fiscal years 1934, 1935, 1936 and revised estimates for 1937. It will be noted that there is a substantial reduction in the deficit (excluding debt retirement and veterans' bonds) for each of the years following the peak of 1934.
