month period—July, August and September—were \$18,100,250 compared with \$17,836,554 for the same quarter last year and \$13,663,762 for the same 1934 period.

• Collections for the current quarter include \$5,056,993 income taxes; \$3,619,880 beer taxes; \$6,344,258 distilled spirits taxes, and \$3,079,219 miscellaneous revenues.

Mr. Smith said the increase was recorded despite the fact that there were no processing taxes collected during this quarter, while in the same 1935 period processing revenues totaled \$255,568.
