

NEW PACT ON GOLD IS BARED BY TREASURY

Accord Reached Between Great Britain and France, Morgenthau Says.

(Continued from Page One)

agreement and its operations are regarding recovery, we'll scrap it," he said. "England and France have the same privilege."

Mr. Morgenthau set the price of gold for today at \$35 per fine ounce, plus one-quarter of 1 per cent for handling charges. He will consult the other participants before announcing the price each day.

"It is a new gold standard, a way of doing business which has never been tried before," Mr. Morgenthau said. "In agreeing to the proposal we look into consideration first and always our internal prosperity."

Supplements Tri-Partite Pact
The new plan, Mr. Morgenthau said, differs from the old gold standard in that it will permit the export or earmarking of gold only to and between governments instead of private business institutions and traders.

The agreement carries a step further the recent tri-partite 'gentlemen's agreement' between the same nations for currency equilibrium to revitalize international trade and keep international currencies on an even keel.

Trade will be promoted and money speculators routed, Mr. Morgenthau said, through the placing of the three powers' combined \$4,350,000,000 stabilization or equalization funds behind a pledge to exchange gold for their own currencies.

Affects External Dollar
Asked what effect the new development would have on the dollar in the pockets of the man-on-the-street, Mr. Morgenthau said: "None at all. This move affects only the external dollar—the dollar used in international trade. But, if we find it does we'll discard the agreement."

The American selling price of gold, Mr. Morgenthau said, could be made flexible without further devaluation of the dollar, an act which would affect the value of the internal dollar.

It was explained that under the 1934 gold reserve act, the Treasury has power to buy or sell gold or silver at prices which it may fix without an executive order of congressional action.

Pact Encouraging, London Believes

LONDON, Oct. 13.—The British treasury "soft-pedaled" today any implication that the Anglo-French-American gold exchange agreement meant tying the pound to gold. Financial quarters regarded the agreement as encouraging to monetary stability.

Conquering of Physical Handicaps Is Goal of Roberts School

BY LEO DAUGHERTY

"All of them will show improvement, and handicaps of many of them will be remedied entirely," Mrs. Jeanette Williams, principal, made this statement of hope and prediction as 180 children filed through hallways of the new James E. Roberts School for Handicapped Children to opening classes.

Workmen still were putting finishing touches on the \$238,000 structure at 10th and Oriental-sts., made possible through a PWA grant and loan, as the handicapped youngsters were welcomed.

Young minds were alert, but arms and limbs were bent; braces aided some in walking; others were on crutches; some were in wheel chairs pushed by a more fortunate companion who walked despite a handicap.

Here in this institution, hailed by educators as one of the finest of its kind in the country, these children from Indianapolis homes and from James Whitcomb Riley Memorial Hospital are to be given the same classroom instruction as children in any other school.

And while minds are trained, expert medical treatment will be given to remedy their physical handicaps, whether they be orthopedic (bone) or cardiac (heart).

Eight Grades Included

The children are brought to school daily in taxis provided by the Indianapolis Foundation, which makes possible attendance of the school from funds of the Roberts family estate.

Grades one to eight are taught by eight teachers. Various doctors, three physiotherapists, one occupational therapist and a graduate nurse are in charge of treatments, exercises and training.

The children spend certain periods in the pool. They are given other muscle treatment; there is walking practice in the rhythm room, while in the occupational therapy room legs and arms are corrected and developed as the youngsters work at looms making rugs, bags, table linens and other articles—learning an art as they undergo treatment.

Rest Periods Required

Rooms on both the first and second floors are equipped with cots, and each child is required to rest and nap if possible for an average of 50 minutes a day, some for a longer time, depending on the nature of the handicap.

There are sun porches off the second floor where the youngsters are taken at intervals for fresh air and sunlight.

The primary classroom has its dolls and toys so that study may be mingled with play. Lunch is served in a large dining room on the first floor. Mrs. Williams and the nurse determine the diets. The principal said it consists chiefly of milk, butter, fruits and vegetables, but other dishes suitable for the diet of a growing child also are served. Two cooks are employed.

Dedication Set Nov. 9-15

A. B. Good, business director, and Mrs. Williams, together with staff members, are making ready for formal dedication of the building and inspection by the public during National Education Week, Nov. 9 to 15. Gifts are to be recognized formally at that time.

—Times Photo by Wheeler.

There were 180 smiling faces as pupils began their first term in the new James E. Roberts School for Handicapped Children. A rest and a nap is part of their daily routine. In Picture 1 they are shown enjoying that respite from classrooms. It's lunch time in Picture 2 and the children are hungry for the goodies and health foods prepared in the school kitchen. In 3, A. B. Good, business director, goes over enrollment lists with the principal, Mrs. Jeanette Williams. Miss Jean Howell, occupational therapist, is shown in 4 teaching a pupil how to use a loom in the occupational therapy department.

mal dedication of the building and inspection by the public during National Education Week, Nov. 9 to 15. Gifts are to be recognized formally at that time.

Kappa Kappa Sorority financed the occupational therapy equipment; the medical unit was furnished by the Rotary Club; the dining room is the gift of the Kiwanis Club; the reception room is a gift of Murat Temple and the lounge the gift of the Lions Club.

The hydrotherapy department, or pool, is the gift of the architects, McGuire and Shook. The Universal Club donated six stichings by George Jo Moss, Indianapolis artist, for interior decorating, and evergreens for landscaping were donated by Homer Wiegand.

ANDREW A. FENDRICK IS DEAD HERE AT 75

Andrew A. Fendrick, 3025 N. Meridian-st., for 61 years a restaurateur, died last night in the St. Vincent's Hospital following an illness of five weeks. He was 75.

Funeral services are to be held at the Flanner & Buchanan Mortuary at 4 p. m. tomorrow. The Rev. Frederick R. Daries and the Scottish Rite are to be in charge. Burial is to be in Columbus, O., at 3 p. m. Thursday.

Mr. Fendrick was operator of restaurants in the Union Station and the Traction Terminal Building. Born in Columbus, O., he received his education there and entered the restaurant business in Columbus in 1875. In 1902 he came to Indianapolis. He remained active in the restaurant business here until his illness.

Mr. Fendrick was a member of the Oriental Lodge, F. & A. M., the Scottish Rite and Shrine. Survivors are the widow, Mrs. Mary R. Fendrick; a son, Irvin Fendrick, Indianapolis; a sister, Mrs. Emma Brown, Grove City, O.; and a half-sister, Mrs. John Clarkson, Columbus, O.

PAROLES GRANTED TO MARION COUNTY PAIR

Two Marion County prisoners in the State Prison were granted paroles today when Gov. McNutt approved a report of the State Clemency Board.

They were Paul Walker, sentenced in 1933 to 10 years for robbery, and Stanley Uie, sentenced last December to one year and fined \$100 and costs for failure to stop after an accident.

The board's report showed 14 paroles granted; 29 denied; one parole revoked; eight sentences commuted; one fine remitted and two cases continued.

JUDGE BAKER SHOWS HOW TO 'COP A PLEA'

Raymond Worthington, 31, appeared in Criminal Court today before Judge Frank P. Baker on charges of vehicle taking and unlawful possession.

"What are you doing here?" Judge Baker asked him.

"Oh, I just came over to 'cop a plea,'" Worthington said.

"You did? Well, just 'cop a guilty plea on that bigger charge—vehicle taking. That's 1 to 10 years in the State Prison. Now how do you like that?"

Worthington didn't say how he liked it.

HOOSIER SEES SISTER FIRST TIME SINCE 1884

By United Press

JOPLIN, Mo., Oct. 13.—Henry Schaffer, 73, and Miss Anna Schaffer, 70, brother and sister, met here today for the first time in 52 years. Mr. Schaffer left his home at Peru, Ind., when he was 21. An accidental correspondence record in the Red Cross brought about the meeting. Miss Schaffer met her brother's children, grandchildren and great-grandchildren also.

Publisher Charges Roosevelt With Trying to Control Press

E. H. Harris, Richmond, Ind., Accuses Administration of Attempted Intimidation at Chicago Meeting.

By United Press

CHICAGO, Oct. 13.—E. H. Harris, chairman of the Communications Committee of the Inland Press Association, told newspaper publishers today that the Federal Administration has attempted, through the Communications Act, to control the press of the nation.

"Those of us who have been in constant touch with the relations of the Washington government to the newspapers and press associations have been convinced for some time," Mr. Harris said at an inland meeting, "that the present Administration set out to force the press of this country into complete submission and adherence to the plans laid out or approved by the Chief Executive."

The Richmond, Ind., publisher charged that the development of radio and wire communications systems "has been stalemated" since passage of the Communications Act in 1934.

"The uncertainty as to the extent of the powers delegated by Congress to this commission under this act and the fear of reprisals on the part of the Federal Government have killed the initiative of telephone, telegraph and radio systems," Mr. Harris continued.

Says Issue Is Grave
He explained he was not speaking as a political partisan since "the issue is of far greater importance than merely the defeat of one political party and the success of the other."

Mr. Harris' charges included: "Every department of government has its propaganda branch under the guise of a news bureau."

"The government has used the labor unions and the news writers guild to add further burdens to newspapers and press associations by attempting to deny them the right to hire and fire their own employees."

"The government has sent inspectors into newspaper offices to examine the records of publishers who dared to criticize its policies and activities."

"The government has put snoots on newspapers which are antagonistic to it."

Charges Intimidation
"Pressure has been brought to bear to curb the columnists. Threats were made against them by high public officials."

Harris recalled what has happened under European dictatorships, and said, "what happened over there can happen here."

"Evidence can be cited to prove that the Federal Communications Commission has been used to intimidate the newspapers of the United States," he said. "The mailed fist of the Federal government has been held over telegraph, telephone and radio companies to force them to do things which the Washington government thought might eventually result in the intimidation of newspapers. It has employed this same fear to force radio stations to broadcast programs spreading the New Deal propaganda."

21 PERSONS ON TRIAL IN COUNTERFEIT CASE

By United Press

SPRINGFIELD, Mo., Oct. 13.—Trial of 21 men and women on charges of circulating \$110,000 in counterfeit municipal securities of Omaha, Neb., was scheduled to start in Federal Court here today.

The government expects to use nearly 20 witnesses in an attempt to prove the defendants used the mails to defraud in disposing of the bonds. Judge Albert L. Reeves will hear the case.

HOPE IS GIVEN DOOMED LEGION

Those With Diabetes and Heart Disease Need Not Fear Death, Claim.

By United Press

ST. PAUL, Oct. 13.—The "Legion of the Doomed"—those afflicted with diabetes and heart trouble—has become the "Legion of the Living," physicians attending the International Medical Association convention said today.

No longer does the "Lost Legion" have the prospect of unhappy years and quick death, but can lead busy, useful lives with every prospect of surviving the normal span, the doctors said.

A living example that diabetes is definitely controllable is Dr. Robert D. Lawrence, physician at King's College Hospital, London, England, himself a diabetic. Dr. Lawrence spoke enthusiastically of the "new" insulin, an improvement over that now commonly used.

Dr. David Riesman, Philadelphia, assembly president, said that more people die of heart disease today than of any other ailment.

"To cut down the proportionate deaths from heart disease," he said, "we must take care of children who have St. Vitus dance. People suffering from high blood pressure need not fear it generally, if they will moderate their living."

Dr. William Peck, Freeport, Ill., managing director of the assembly, told the convention "socialized medicine is the way of regeneration of physicians, and in regeneration there can only be a setback to medicine for the initiative is lost."

Dr. William Peck, Freeport, Ill., managing director of the assembly, told the convention "socialized medicine is the way of regeneration of physicians, and in regeneration there can only be a setback to medicine for the initiative is lost."

FLYING FREIGHT SERVICE BEGINS RUN ON MONDAY

Indianapolis to Be Station on New York-to-Chicago Route.

By United Press

LOS ANGELES, Oct. 13.—Use of the skyways for freight service with giant "flying box-cars" carrying merchandise from city to city was announced here today by Transcontinental & Western Air Lines.

The first run of the flying freight service starts next Monday between New York and Chicago, but the company soon hopes to extend the run from coast to coast, Traffic Manager George Cussen said.

He said the basic rates for shipping 100 pounds from Los Angeles to New York would be \$42, a cut of 57 per cent from the present rate for express carried on passenger planes.

The new "freight cars" will be all-metal, multi-motored transport ships which will carry no passengers and will fly almost as fast as the transcontinental passenger planes.

The Chicago-to-New York service will be operated by General Air Express, a subsidiary of TWA, while the parent company will operate the Chicago-to-Los Angeles service.

The freight service at first will touch only Pittsburgh, Columbus, O., and Indianapolis, Ind., in addition to the terminal points.

The proposed line is the first exclusive freight service to be started by an established airline, it was said. A similar service was proposed several years ago but did not get beyond the preliminary survey stage.

DRIVER HELD AFTER CRASH WITH TAXI

Bud Barckdall, 26, driver of a garage service truck, arrested on charges of driving while drunk and failure to have a chauffeur's license after a crash at Meridian and North-sts this morning.

Police said he was arrested after his vehicle bumped into the rear of a taxi driven by Roscoe Hammond, 28, of 628 Vermont-st., stopped at that intersection for a traffic signal. They said William Bennett, 49, 3536 N. Meridian-st., cab passenger, was bruised slightly.

DEFUNCT BANK PAYS OFF

By United Press

KENDALLVILLE, Ind., Oct. 13.—Final payment, totaling \$36,000, to depositors of the defunct Citizens National Bank was begun today, according to W. T. Binder, Fort Wayne, receiver.

I WANT SOME OF THESE BULBS THAT STAY BRIGHTER LONGER!
