FINICKY APPETITES OFTEN ONE RESULT OF CONSTIPATION

When nothing tastes right, and you don't eat as you should, the trouble may be common constipation. Poor appetite is one of its symptoms. Others are headaches, listlessness and sallow complexions.

Constipation is usually due to "low-bulk" meals. Serve your family Kellogg's ALL-BRAN—a generous source of "bulk."

Within the body, this food absorbs twice its weight in water, and gently exercises and sponges out the system. How much better than taking pills and drugs!

ALL-BRAN also supplies vitamin B to tone up the intestines, and iron for the blood. Two tablespoons daily are usually sufficient. Three times daily, in severe cases. Serve as a cereal with milk or cream, or cook into appetizing muffins, breads, etc.

Sold by all grocers. Made by Kellogg in Battle Creek.
