

STATE FORBIDS COMPANY UNION INCORPORATION

Applications From Dozen Groups Refused, Weiss Says.

Proposed company unions are to be denied articles of incorporation by the Secretary of State, it was learned today.

Applications from approximately a dozen groups have been refused during the last month because of conflict with State labor laws and the Wagner Labor Relations Act, according to Jacob Weiss, State Senator and State Federation of Labor Council.

Normal protests from the State Labor Federation and central labor groups followed the first company union incorporation applications, it was learned. Decision to deny the applications came after conferences last week between Senator Weiss, the Secretary of State and the State Labor division.

Applications for incorporation involving employee-employer relations are referred to Thomas Hutson,

State Labor Commissioner for approval. With Labor Division approval, they are denied.

Enrollments are sponsored by civic clubs, Legion posts and Catholic youth centers. The program is to include the teaching of the mechanics of government.
