

'DIVORCE CANON' LIBERALIZATION IS TO BE ASKED

Protestant Episcopal Church Convention to Act On Proposal.

By United Press
NEW YORK, July 12.—The general convention of the Protestant Episcopal Church will be asked to undertake greater liberalization of the "divorce canon" it was announced today.

Under a proposal by the commission on marriage and divorce of the church "any person whose former marriage has been dissolved for any cause by a civil court may after the expiration of one year from the granting of the divorce apply to the bishop of his or her diocese for permission to marry another person."

The church will act on the commission's proposal at its convention at Cincinnati in October. It was the second move in seven years by the commission to liberalize Canon 41 which permits remarriages of the "innocent party" in a divorce after one year, where adultery was the ground for action. Remarriages are permitted in annulments for insanity, mental deficiency, bigamy, lack of free consent, mistaken identity, undue age, impotence, general disease and consanguinity.

Denounce Proposal

Church heads denounced the proposal. The church publication prepared an editorial saying that it would "negate the teaching of Christ." The editorial adds that the amendment would bring "utter chaos" into the entire remarriage and divorce problem.

The Rt. Rev. Herman Page, Bishop of Michigan, is chairman of the commission. Other clergymen who attended the meeting at which the proposal was adopted, included:

The Rev. Irving P. Johnson, Bishop of Colorado; the Rt. Rev. William Scarlett, Bishop of Missouri; the Rev. Dr. Howard C. Robbins of the General Theological Seminary, the Rev. Dr. Frank H. Nelson, Cincinnati, and the Rev. Dr. Vesper O. Ward, Minnesota.
