

HOTEL GARBAGE TO BE GATHERED BY CITY CREWS

Board Decides to Defy Suit For Injunction Filed By Four Firms.

Sanitation Commissioner Maurice Tennant announced today that the City would begin garbage collections at four hotels and several restaurants as soon as possible.

The announcement came after the Board of Works and Sanitation decided to make the collections despite an injunction suit filed by the hotels in Federal Court, seeking to restrain the City from preventing private sale of garbage.

Mr. Tennant said City departments try to give the hotels and restaurants added service in view of the amount of refuse they deposit for collection.

"Others have to have their garbage out at a certain time, but this is not possible in the downtown area," he said. "Collections will begin as soon as a schedule can be worked out."

The decision of the board ended, temporarily at least, a long controversy between hotels and the City on the former's right to sell the garbage to a collecting agency.

The State Supreme Court two weeks ago denied a rehearing of its ruling upholding the City's right to collect waste material.

The four hotels that asked the injunction are the Washington, Lincoln, Severin and Antlers. They contended that garbage is private property and therefore can be sold.

Mr. Tennant said the collections would mean a "substantial amount" of revenues for the City.

25,000 REPORTED CURED OF CANCER

Surgeons to Be Told of 5-Year Observation.

By Science Service
CHICAGO, Oct. 12.—Nearly 25,000 persons have been cured of cancer and have stayed cured, the American College of Surgeons Department of Clinical Research will report at the college's congress which meets here Oct. 25.

They have stayed cured to the extent of showing no recurrence of the malignant disease during a five-year period of observation following operations. Dr. Bowman C. Crowell, who is to make the report, declares.

crank Let's get down to Cases

To keep your car from growing old too soon... to make it run with that wonderful smoothness and pep it used to have when it was new... pay a lot of attention to the crankcase. That's where a motor's hardening-of-the-arteries starts.

So drain the crankcase—NOT your pocketbook, by refilling with Phillips 66 Motor Oil. It is Phillips finest, made from a costlier 100% paraffin base crude.

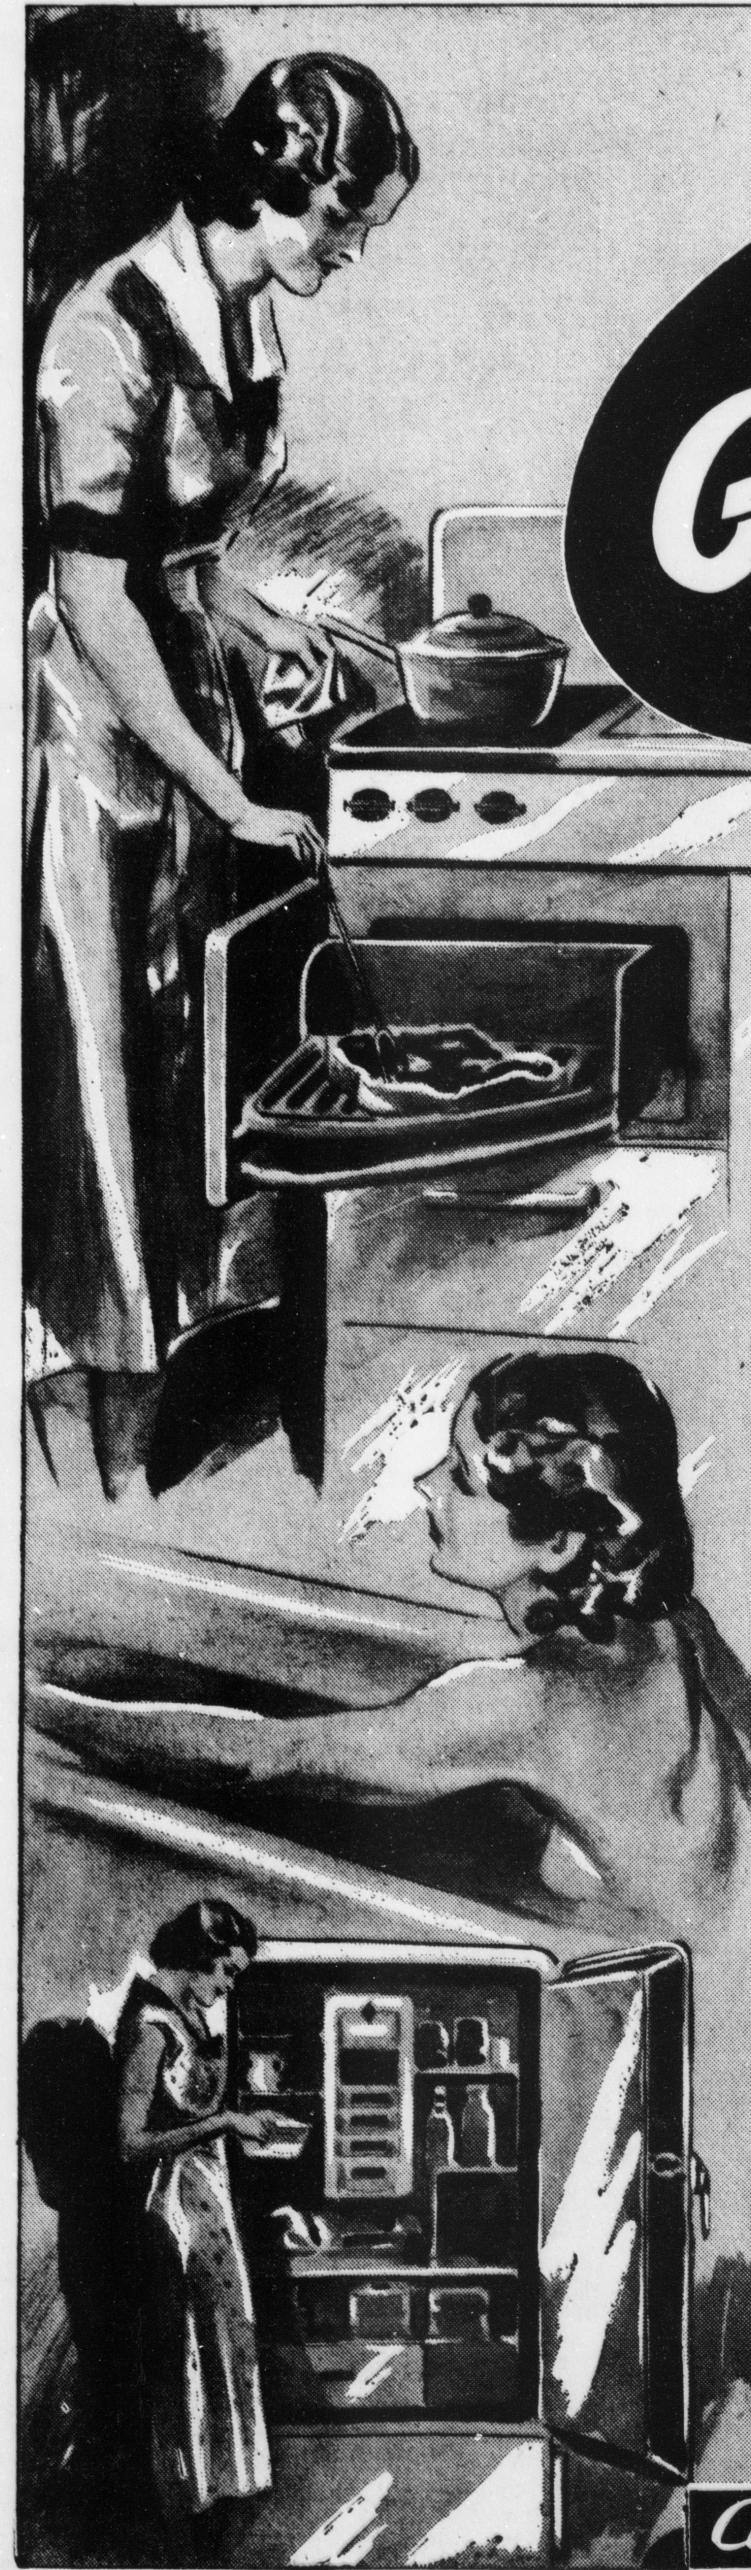

It meets the higher requirements of today's modern motors because it has high-degree oiliness. Refined into it by Phillips painstaking modern process. Besides, it is extra clean and extra thrifty. No wasteful light parts to cook out or burn out. Hence the film is tougher and longer-lasting.

Next time, drain and refill with Phillips 66 Motor Oil. It's concentrated!... This year's big value in car lubrication. Look for the Orange and Black 66 Shield.

The Economy Champion 

Go ALL-GAS
...SAVE TIME AND MONEY

Use GAS for the 4 BIG JOBS

- COOKING
- REFRIGERATION
- WATER HEATING
- HOME HEATING

THE four BIG jobs are easy jobs with up-to-date GAS equipment. The new gas ranges offer more freedom, more economy and better results than ever before. All the unpleasantness of cooking—the watching, waiting and uncertainty—has been eliminated.

Electrolux, the gas refrigerator, provides economical, trouble-free refrigeration, and is permanently silent. Only the gas refrigerator has no moving parts in its freezing system to wear out or need attention.

Today's gas water heaters have improved burners which slash the cost of constant hot water.

Gas home heating units banish the dirt and drudgery of outdated heating equipment... do away with ordering, delivery and storage of fuel. And the cleanliness of automatic gas heat eliminates the "hidden" costs of winter comfort.

GAS COOKING SCHOOL

Miss Ruth Chambers, famous cooking authority, chose a modern gas range for her food demonstrations at English's Theater, October 13, 14 and 15. She will show the advantages of gas for all kinds of cooking. Be sure to attend. Find out how many ways a new gas range will help you with your cooking problems.
