

# SPREAD OF DRIER STRIKES IS FEARED AS UNREST AMONG FOOD TRUCKERS IS REPORTED

State Reiterates Its Charge One Grocery Warned, Says  
Of 'Lockout' Following Union Official: Meeting  
Futile Parley. Is Called.

(Continued from Page One)

We will get somewhere today and maybe get that closed shop thing out of the way. I don't believe that I'll re-issue the order to begin deliveries whether settlement is reached or not, because I don't want to disturb the situation as it is now in that way.

To the best of my knowledge, about the normal supply of milk is getting into the retail market and the consumption is about normal. We don't believe there is a public health problem involved.

Dr. Herman G. Morgan, Indianapolis Health Board secretary, who warned that unless the milk flow was approximately normal there would be a serious public health problem, today said he had no comment.

**Issued Ultimatum Earlier**

The conference did not break up until early today. Mr. Collier said the union was asking for closed shops, 48-hour week, daylight delivery and minimum wages of \$25 a week for inside workers and \$30 a week for outside workers.

The Milk Council ordered members not to attempt deliveries from plants Friday.

Mr. Collier then issued an ultimatum, as area administrator for the State Milk Control Board, that deliveries from all but the three truck plants were to begin by 7 p. m. Saturday. This order, he said at the time, would be supplemented, if necessary, by a court order.

He rescinded it, however. Mr. Collier is acting as the conciliating agent meeting with the representatives of the union and the companies. Representing the companies are Mr. Hunt, Clarence J. Hill, A. W. Busher, Ray Bolster, Henry Roberts, C. J. Harrison and Arthur Holt.

Representing the union are Mr. Dobbs, John T. Williams, business agent; Harry Weiss, Harry Overton, Frank Buckston, Walter Dietrich and Eddie Murphy, Cleveland, O., union seventh vice president and international organizer.

**No Threats, Say Police**

Police repeated today that there has been no threat of violence reported to them and no violence. Chief Morrissey said the department stands ready at any time to provide protection if it is asked, but that he has heard nothing further from either the State Labor Department or the distributors.

"Each milk plant," he said, "has 24-hour protection and they can deliver milk with all the protection the department can give. All members of the department have been on 12-hour duty since the appearance of local labor unrest."

Operators of small individual routes have been reported to be restless about the situation, claiming that unless it is ended their businesses will be in jeopardy.

Mr. Hutson's statement, issued Saturday, was:

"In order to clarify many conflicting reports, the Indiana Division of Labor believes it is its duty to give the public all the facts relative to the present dispute between Indianapolis milk dealers and their employees."

"The facts are:

"1. Indiana Division of Labor is concerned with adjusting two separate situations, (a) to end a lock-out which has stopped deliveries of milk, and (b) to terminate the strike affecting three dairies, through negotiations."

"2. Employees of only three dairies, the Weber Milk Co., Capitol Dairies and Furness Ice Cream Co., are on strike."

"3. The termination of deliveries to the consumers by other dairies was an action taken by the dairies themselves. We believe this action constitutes a lockout."

"4. The Indianapolis Milk Council, which includes all Indianapolis milk dealers, received an invitation from the Indiana Commissioner of Labor to select a negotiating committee of from three to five mem-

(Continued from Page One)

bers to meet with the division of labor. This invitation at this time has not been accepted.

"5. The union was extended a similar invitation and its representatives state they are willing to begin negotiations under the auspices of the Indiana Division of Labor at any time."

"6. Our investigation fails to disclose any violence or threats of violence and it is our belief that there is not any reason why delivery of milk by those firms where there is not a strike should be resumed."

"7. The Indianapolis Milk Administration has issued an order mandating the dairies to begin delivery of milk at 7 p. m. today. This order does not imply that striking employees should return to work."

"The dairies right to enforce collective bargaining cannot be denied or disputed in any order."

"The Indiana Division of Labor earnestly asks co-operation of the Indianapolis Milk Council in peacefully adjusting this dispute which has so seriously affected the consuming public."

"We are asking the public to be patient during the negotiations."

**Forecast Expected to Boost Demands for Special Congress Session.**

WASHINGTON, Oct. 11 (U. P.).—The Department of Agriculture prepared for release today bumper crop estimates which were expected to increase demands for a special session of Congress to enact new control legislation.

The largest wheat crop since 1931 already has been harvested and corn production is expected to be the largest since 1932. Production of virtually all grains will be the largest in five years, it was indicated.

Secretary of Agriculture Henry A. Wallace indicated that the "significance" of the report, to be made at 2 p. m. (Indianapolis Time) will be announced immediately to President Roosevelt for his guidance in a special session decision.

Administration farm and lending agency heads conferred over the week-end as a result of the complicated farm situation resulting from the estimated 17,573,000 bushels of cotton, second largest in history.

bers to meet with the division of labor. This invitation at this time has not been accepted.

"The union was extended a similar invitation and its representatives state they are willing to begin negotiations under the auspices of the Indiana Division of Labor at any time."

"6. Our investigation fails to disclose any violence or threats of violence and it is our belief that there is not any reason why delivery of milk by those firms where there is not a strike should be resumed."

"7. The Indianapolis Milk Administration has issued an order mandating the dairies to begin delivery of milk at 7 p. m. today. This order does not imply that striking employees should return to work."

"The dairies right to enforce collective bargaining cannot be denied or disputed in any order."

## Bandit Yields to Her Plea

A bandit who said he made a living staging robberies, turned sentimental today when he held up Mrs. Ruth Woodruff, 439 Massachusetts Ave., manager of the Tick Tock Frox Store, 26 N. Pennsylvania St. Mrs. Woodruff told police when she opened the store at 9 a. m., a well-dressed man followed her into the shop.

"He waved a gun and ordered me to open the cash drawer," she said. "He took \$10 from the drawer and \$1 from my purse, then took a diamond ring off my finger."

She said she begged him not to take it as it was a gift left by her husband when he died.

Waving her aside and ordering her to get into the basement, the bandit took 100 dresses off the racks.

As the bandit was leaving with the cash and dresses he came to the basement door, hesitated for a moment, and handed the jewel back to her. He then fled.

## Safety Week Opening Finds County Traffic Toll at 116

(Continued from Page One)

Exeter Ave., was treated in City Hospital for a broken nose after the car in which he was riding with Robert Muller, 31, of 3728 W. 16th St., figured in an accident in the 2300 block E. Riverside Drive.

George Gibbs, 30, of 1502 Hoyt Ave., was to face five charges in Municipal Court today as the result of an auto accident yesterday.

Mr. Gibbs was arrested at Orange and Shelby Sts. on charges of drunken driving and failure to have a driver's license after his car was said to have rolled back and hit another driven by Patrolman William Cravens.

The policeman reported that while he had Mr. Gibbs under arrest in a nearby electrical appliance store, Mr. Gibbs attempted to hit him. He added a charge of resisting an officer.

**14 Killed in State Traffic Accidents**

Fourteen persons were killed and a dozen others injured in week-end traffic accidents throughout Indiana.

Leon Poe, 46, Terre Haute, was killed instantly when a truck driven by Carl Hudson, 30, Terre Haute, ran over his automobile near New Goshen on Highway 150. Mr. Hudson reportedly swerved his truck to avoid a head-on collision with another car.

Mrs. Martha Troutfetter, 42, Buchanan, Mich., was injured fatally in an accident on Highway 132 near her home. Her husband, John, 42, a niece, Beverly Troutfetter, 8, and a sister-in-law, Mrs. Aurieta Troutfetter, also were injured when their auto collided with another driven by William Marsh, Michigan City.

Lea Risner, 17, Wingate, was crushed to death in an accident on Highway 55 near that city.

Earl Bruner, 19, of near Gaston, was injured fatally when he either fell or jumped from a car driven by Delbert Branson, Gaston, as the automobile careened into a field. Branson is being held pending investigation.

Two Marion residents were killed instantly when a west-bound Pennsylvania passenger train struck their automobile three miles southeast of Anderson. They were: Raymond S. Samia, 37, Marion tavern owner, and his wife, Bertha, 23. Both bodies were badly mangled when the train carried their car more than a block along the right-of-way.

**Killed on Highway**

Byron Donald Padgett, 24, Indianapolis, was killed when struck by an automobile driven by J. C. Brennan, Beans Blossom, on Highway 135 near Trafalgar. Mr. Padgett was struck while walking along the highway after his automobile had run out of gasoline.

Mr. Padgett, who made his home with a sister, Mrs. Amy Bright, 1419 St. Paul St., was a member of the Christian Men Builders class of the Third Christian Church. He formerly was a member of the DeMolay drill team.

He is survived by two other sisters, Mrs. Lucy Showers and Mrs. Callie DeMoss, and his father, Andrew H. Padgett, all of Indianapolis. Funeral services are to be held at 2 p. m. Wednesday in the Gadd Funeral Home. Burial is to be in Crown Hill.

Vern L. Buley, 49, died from injuries received when he stepped into the path of an automobile as he was walking on Highway 40 near Newcastle. The automobile was

driven by Herschell S. Green, West York, Ill.

**Tractor Crash Fatal**

James F. Connors, 27, of R. F. 5, was killed instantly when his automobile collided with a tractor-trailer truck on Highway 24 west of Ft. Wayne. Miss Irene Walsh, 17, of near Ossian, riding with Mr. Connors, was cut and bruised.

John Gardner, 27-year-old Hardingsburg woodworker, died in a hospital from injuries received when a speeding automobile plunged through a curve and overturned on Highway 150 northwest of New Albany. Leo Hurst, 24, driver of the car, and his wife, Gladys, suffered minor injuries.

Fairy Gail Hawkins, 13, and her sister, Beatrice Joy, 10, were killed when struck by a car driven by Roy Hillenburg, Bloomington. The accident occurred while the girls were playing on the highway near their home at Needmore.

**Baby Is Killed**

Francis Dennis, 60, Chicago Heights, Ill., died from injuries received when struck by a car driven by Leo J. Lamberson, South Bend attorney, eight miles west of South Bend on Highway 2.

Richard Lee Services, 9-month-old, was killed and his parents, Mr. and Mrs. Ivan Services, Ladoga, were injured seriously when their automobile collided with one driven by Archie Taylor, Crawfordsville, at the intersection of Highways 28 and 43 near Romney.

**Flag to Mark Safety Progress**

While Indianapolis today inaugurated its Safety Week, a 40 per cent increase in traffic fatalities outside the City limits so far this year had raised the County toll above the 1936 record level.

In numerous lectures and meetings throughout the week, effects of the police traffic enforcement campaign in reducing accidents and fatalities are to be stressed, according to Lieut. Lawrence McCarty, Accident Prevention Bureau head.

The City toll this year stands at 79, a decrease of 11 under last year's figure. The Marion County toll is 116, one more than was recorded at the same time last year.

The record for the County was marred by the increase of 10 fatalities in accidents outside the City limits, it was pointed out.

A feature of the City's Safety Week observance is to be the installation of a 21-foot flagpole on the south side of Monument Circle on which a black flag will be raised each day a traffic fatality occurs. On other days, a white flag will be flown, according to Lieut. McCarty.

Lieut. McCarty said a member of the Police Department is to raise the flag at 6 p. m. each day. The pole is to be dedicated Saturday morning by Mayor Boettcher following a parade sponsored by the City and the local Lions Club.

The American Legion, Veterans of Foreign Wars, high school R. O. T. C. units and bands, and members of the school safety patrols are to participate.

A feature of the parade is to be an exhibit of wrecked automobiles which are to be towed along the streets.

An educational program also has been planned to prevent accidents. Today the campaign is directed against drunken drivers; tomorrow, speeders; Wednesday, reckless drivers.

## STEPS TO HALT ITALY IN SPAIN MAY BE TAKEN

Britain and France Consider  
Restoring Balance of  
Power in War.

(Continued from Page One)

will be willing for the conference to be held at Brussels.

There was hope here that the conference could be opened in about two weeks in Brussels.

Britain, France, the United States and other powers are consulting on the conference, it was said.

Analysis of the Italian note refusing the British-French "invitation" to discuss voluntary withdrawal left no doubt among British and French leaders that Premier Mussolini's rejection was a definite one. Any suggestions he had made or might make for consideration of the question with Germany included, or to refer it to the Spanish Nonintervention Committee, seemed unlikely to change this view. It was felt that the note meant Premier Mussolini was determined to keep his "volunteers" in Spain and that he would send more if he saw fit.

**France to Act in Unison With Britain**

PARIS, Oct. 11 (U. P.).—France has notified Great Britain that she will not open her frontier to Spain. She is in agreement with Britain against Italy, without the approval of the British Government, it was understood today.

But at the same time, it was said, the Government notified Britain that it had decided by treaty to place itself under the nonintervention pledges unless Italy promised to send no more troops to Spain and to withdraw those now in Spain in accordance with the withdrawal of other volunteers in the Civil War.

**Unidentified Warships Sink Spanish Boat**

TUNIS, Algeria, Oct. 11 (U. P.).—The Spanish South Atlantic liner Cabo Santo Tome, shelled and sunk yesterday by two unidentified torpedo boats, carried a cargo of chemicals and other supplies, an official inquiry disclosed today.

The vessel, camouflaged and renamed the Corfu, was bound for Cartagena, big Loyalist naval base on the southeastern coast of Spain, from Odessa. It was attacked near France's fortified naval base at Bona on the Algerian coast.

**Japan to Set Up Supreme War Council**

TOKYO, Oct. 11 (U. P.).—Prince Fumimaro Konoye, the Premier, presented to the Privy Council today a plan for a supreme council of Japanese leaders with extraordinary powers to prosecute the war in China and assure national unity at home.

Prince Konoye explained to the Privy Council the details of the plan as drafted in recent secret consultations. Under the plan as he presented it, the new body would be called an Advisory Council.

**South China Offers Aid of Millions**

SHANGHAI, Oct. 11 (U. P.).—Gen. Li Tsung-jen, Kwangsi province leader, is offering to Nanking to offer the Government 3,000,000 men already under arms were even now awaiting his orders to go to the front.

Confirmation of the Chinese assertions would mean a major development in the war against Japan—an indication of the extent of the unique national unity in face of the invaders. Already the Communist Army has submerged its own identity to become the Eighth Route Army; the new move means that the Cantonese armies of the South seem ready to co-operate actively. Significantly, Gen. Li is one of the three Southern leaders who only last year revolted against the Central Government, demanding a stronger policy against Japan.

**Germans Cry 'Heil' as Windsor Begins Study of Factory Life**

BERLIN, Oct. 11 (U. P.).—The Duke of Windsor, starting a study of German working conditions before a similar tour in the United States, was hailed with enthusiasm by the German people today.

Everywhere he went cries of "heil" were raised. He made himself popular with the workers by his Democratic attitude, as he did during his tour of England's industrial areas when he was Prince of Wales and later King.

Dr. Robert Ley, Nazi Labor Front head, took the Duke on a visit to the Stock Machine Works in South Berlin to see "how beautiful are the conditions under which we work in Germany."

Dr. Ley was in a jovial mood and slapped workers on the back exclaiming "well how goes it, you happy here, do you like our work?" The workers grinned and responded "yes," whereupon Dr. Ley said, "We have here all smiling faces."

The Duke, who arrived today for a tour of Germany, was not accompanied by the Duchess on his first official visit.

**Hays Denies Rumor of Windsor Job in Films**

NEW YORK, Oct. 11 (U. P.).—Will Hays, president of the Motion Picture Producers and Distributors of America, said today that there was no basis for the report from Hollywood that the industry planned to offer the Duke of Windsor a position as "world film star."

George Fischer, Hollywood columnist, broadcast a statement last night that the Duke would be offered \$100,000 a year to become a roving ambassador for the film industry.

Motion picture people here pointed out that since one-third of the industry's receipts come from British exhibitors "it would be foolish to risk giving offense to Great Britain by employing the former King."

"And to think, Gertrude, this is Safety Week. Next time we'll take the trolley."

INDIANAPOLIS RAILWAYS

## Short Cuts to Cooking Success to Be Shown At Annual Times School

Classes Open Wednesday Morning at 9:30 at English Theater Under Direction of Ruth Chambers, Widely Known Expert on Foods.

(Ruth Chambers' Cooking Column, Page 7)

Shorter hours and better working conditions also apply to the housewives of today, is the belief of Miss Ruth Chambers, who will conduct the annual Indianapolis Times Cooking School on Wednesday, Thursday and Friday at the English Theater.

And the way to achieve these goals will be demonstrated by Miss Chambers in the four sessions of her "Food Fashion Revue" here this week.

Her dishes are all of the kind which fit neatly into the daily menu of the average home. They are not extravagant, over-elaborate concoctions.

Miss Chambers, a member of the staff of the National Livestock and Meat Board, shows many short cuts to cooking success.

**Fourth Session Friday Night**

Meat dishes, salads, pie baking—all the varied arts that are needed to make a complete meal, are shown by Miss Chambers in simple, easy-to-understand lessons.

The first three sessions will be held in the mornings, starting at 9:30 o'clock. The fourth session will be held at 8:30 Friday evening.

The first session will be "New Fashions in Foods," the second, "Fitting Foods to Figures," the third, "Meals for the Streamlined Pocket-book" and the fourth "The Food Fashions Parade."

**Cook Books to Be Given**

A series of four attractive cookbooks will be given away at the cooking school and these will contain the recipes for all the dishes prepared during the course. Besides the recipes, the books contain menu suggestions for meals including these dishes. Valuable, too, are the buying guides for beef, veal, pork and lamb. The books include charts showing what part of the animal supplies each cut, and giving information about the proper cooking methods for each cut.

The Times' Cooking School is a free course, as authentic and valuable as any you might obtain. Miss Chambers is a well known authority on food subjects. She is a graduate of the University of Wisconsin and was dietitian in a large hospital before entering the field of food and equipment demonstration.

**F. D. R. TO DISCUSS SIX TOPICS ON RADIO**

**'Fireside Chat' Intended as Review of U. S. Situation.**

(Continued from Page One)

He agreed that when he goes on the air at 8:30 p. m. (Indianapolis Time) tomorrow night Mr. Roosevelt will tell the nation that he believes a special session is necessary to inaugurate crop control before the next planting season and to get an early start on the Wages and Hours Bill which was stated in the House Rules Committee last summer.

The first fireside address was delivered nine days after his inauguration. Designed to reassure the nation about the banks, it was more technical than his later talks but it contained elements of drama unmatched in the others.

The President explained to his tense listeners the fundamentals of the banking system, told when the reopening of closed banks would begin, and said "I can assure you that it is safer to keep your money in a reopened bank than under the mattress. . . let us unite in banishing fear."

The second fireside address was made on May 7, 1933. The President reviewed his New Deal program, explaining the CCC, relief, TVA and the farm bill, and announcing the first outline of what was to become NRA. In this speech he first expounded the doctrine that the unfair one-tenth of industry, with its starvation wages, long hours and child labor, must be curbed by the other nine-tenths.

In the third talk—July 24, 1933—he explained NRA's blanket code and Blue Eagle.

On Oct. 22 he once more reviewed all phases of his recovery program. In his discussion of NRA, castigation of chiselers appeared for the first time.

It was in this address also that the President announced establishment of a Government market for gold in this country. In doing so he said: "This is a policy, not an expedient. It is not to be used merely to offset a temporary fall in prices. We are thus continuing to move toward a managed currency."

**Two Talks in 1934**

There were two fireside addresses in 1934. The first on June 28, contained the much quoted admonition "for each of you to judge recovery by the plain facts of your own individual situation."

"Are you better off than you were last year?" he asked. "Are your debts less burdensome? Is your

bank account more secure? Are your working conditions better? Is your faith in your individual future more firmly grounded? . . .

"Have you as an individual paid too high a price for these gains? Plausible self-seekers and theoretical die-hards will tell you of the loss of individual liberty. Answer this question also out of the facts of your own life."

The second 1934 address seemed designed to reassure business that private enterprise and private profits were not in danger from the Administration. The President emphasized repeatedly the benefits enjoyed by capital under his policies, and said: "We count in the future, as in the past, on the driving power of individual initiative and the incentive of fair private profit, strengthened by the acceptance of those obligations to the public interest which rest upon us all."

In 1935 there was only one fireside talk and the same was true in 1936, though the latter year there were plenty of campaign speeches, and in 1935 the President's address to Congress was delivered over a national hookup and was actually a talk to the nation.

The 1935 fireside address was delivered on April 28. Congress was still in session and the President devoted much of his talks to the benefits of the pending social security legislation. He also explained just how he proposed to spend the \$4,800,000,000 Congress had just voted him for relief.

The 1936 address dealt with drought and conservation problems. The talk followed immediately after his inspection trip in the drought country and he outlined emergency measures to relief. He concluded with a Labor Day message on re-employment and hammering home the thought that "private enterprise is necessary to any nation which seeks to maintain the democratic form of Government."

The only fireside talk of 1937 up to now was devoted to enlargement of the Supreme Court. It was delivered on March 9, after the country had had about a month to digest his message to Congress on the subject.

## A. F. L. COUNCIL HINTS FURTHER PEACE ATTEMPT

Asks to Expel C. I. O. Unions, But Continues Parley Committee.

DENVER, Oct. 11 (U. P.).—The American Federation of Labor's powerful resolutions committee today called upon the 57th annual convention to give the executive council power to expel the 10 rebel unions of the committee for Industrial Organization.

In making the recommendation, the committee made three unexpected proposals at the start of the A. F. of L. offensive against the John L. Lewis insurgents.

They were:

1. That the federation's special committee to negotiate with the C. I. O. for a peaceful settlement of the split in labor's ranks be continued.
2. That the federation call upon all employers and political leaders to "choose for themselves which philosophy and which practices" they will support. This was reiteration of a possible challenge to the Administration to express itself in regard to the battle between A. F. of L. and the C. I. O.
3. That, if all peace efforts fail, the federation will "marshal the forces of labor shortly after 10:30 a. m. Mr. Lewis set the pace for the conference yesterday when he said that the suspended C. I. O. unions are not now 'part or parcel' of the A. F. of L."

He said delegates to the present meeting will discuss plans for the first national convention of the C. I. O. — the initial step toward making the break with the A. F. of L. permanent.
