BUST THAT COLD WIDE OPEN

Don't Merely Humor It!

Deal with a cold in earnest. Deal with it in seriousness.

A cold is too fraught with danger to be taken lightly. Many a case of flu and pneumonia has started with nothing more than a "common cold."

Treat a cold for what it is—an internal infection. Therefore, internal treatment.

Treat a cold with a preparation made for colds and not a "cure-all."

Grove's Laxative Bromo Quinine (LBQ tablets) are what you want.

They are made expressly for the treatment of colds and not for all kinds of ailments.

They are internal in effect and do four important things.

First, they open the bowels.

Second, they check the infection in the system.

Third, they relieve the headache and fever.

Fourth, they tone the system and help fortify against further attack.

Bromo Quinine tablets are a proven preparation. They have been on the market over 40 years and are the world's largest-selling cold tablet.

Bromo Quinine tablets now come sugar-coated as well as plain. Both kinds are sold by all druggists, a few cents a box.

When you feel a cold coming on—don't wait—don't procrastinate—but go right to your druggist and get a package of Grove's Laxative Bromo Quinine (LBQ tablets).
