

Three More Pictures In Silhouette Contest

Winner Rides to Hollywood
On Giant American Airliner

Here are three more photos and silhouettes of movie stars in The Indianapolis Times SEEK-A-STAR SILHOUETTE CONTEST, which may win you a free trip to Hollywood in a luxurious plane of the American Airlines.

Five photographs and silhouettes already have appeared, and 20 more will be printed beginning tomorrow, making a total of 28 in all.

All you have to do to win that trip to the movie capital is to identify the silhouettes (not the photographs) of the actors and actresses that are printed and to answer the few questions on each of the star's careers.

The photos themselves should be kept because the actors and actresses shown in them are the same ones who appear in the silhouettes during the contest.

Everybody's Dream

It ought to be pretty easy to make a good showing in this contest because any movie-star fan who is worthy of the name should be able to recognize the stars in the dark—in other words, in a silhouette.

And the prizes provide exactly what every motion picture enthusiast dreams about—a trip to Hollywood, where you can watch movies actually in the making, see the stars playing on famous Malibu Beach, visit the Brown Derby and the other night clubs, where the stars dine and dance, and stroll along Hollywood Blvd.

American Airlines is co-operating by offering the winners the finest transportation via the air available—in giant transcontinental liners which are notable for their speed, comfort and safety.

101 Prizes to Winners

First prize is a "through" trip to Hollywood.

Second prize is \$100 in cash. Third prize is \$50 in cash and fourth a vacation trip to Chicago via air.

Fifth prize is \$25 in cash; sixth, \$10; the next 10, \$5 each, and the next 10, \$3 each. Pairs of theater tickets go to the next 75 winners, making a total of 101 prizes.

Memorable Event

The Hollywood airplane trip, of course, affords an incomparable opportunity to see America both on your way out to the coast and on your way back.

Outside of the scenery, though, a flight in one of these American

Airlines planes is a memorable event. Giant 12-ton Douglas-Transports, they are the largest airplanes in America, with a wingspread of 95 feet, a length of 65 feet and a top speed of 212 miles an hour. The cruising speed is just under 200 miles an hour, and the cruising range is 2000 miles, non-stop.

Before you start in identifying today's silhouettes, read carefully through this special Hollywood Forecast section. It is filled with clues to assist you, and it may make the difference between coming out first—and coming out fourth or fifth.
