

POLICE OF FOUR STATES MEET IN TARGET BATTLE

Three-Hour Contest Proves Marksmanship Despite Heavy Rain.

State Police of four states participated in a three-hour gun battle here today—and no one was hurt. They battled each other for marksmanship honors on the rain-soaked Ft. Benjamin Harrison range. It was raining so hard that for a while officials threatened to "call off the whole shooting match."

Coaching from the sidelines was permitted as two squads of picked marksmen from Michigan and five-man teams from Indiana, Ohio and Illinois departments banged away at the four-foot targets.

Michigan was given a slight edge because of the presence of Carlos Huiey, twice national individual revolver champion.

Each man fired 30 rounds—10 rapid fire from 15 paces, 10 slow fire from 25 paces and 10 rapid fire from 25 paces. Each was allowed three sighting shots.

Trainers stood behind their entrants with binoculars and telescopes to correct in detail range errors after each shot. Enlisted men in the target pits touched the target with a 10-foot pole from below to indicate each hit. Then the target was lowered and the hole pasted over to avoid confusion.

Reflection Avoided

Both sights and the barrel of the 38 caliber six-shooters were blackened before the match to avoid any deterrent reflection.

A trophy was to be awarded the winning team by Donald F. Stiver, Indiana Public Safety Director.

The Indiana team was coached by Sgt. Harry Canterbury, Indianapolis Police Department firearms expert. Members were Paul Rule and Carl Galloway, of the West Lafayette barracks; Donald Buck, Dunes Park barracks; Kenneth Asbel, Evansville and George Heck, Spencer barracks.

Capt. L. A. Lyons directed the Michigan team; Capt. J. C. Uiman was the Ohio coach and Capt. Howard Bentley was in charge of the Illinois squad.

All three said they men liked to shoot in the rain. They said it was cooler.

REVISED '38 BUDGET REPORT IS AWAITED

U. S. Treasury Deficit Soars To 400 Billions.

WASHINGTON, Oct. 18 (U. P.).—The Treasury's deficit soared to the \$400,000,000 level today as last-minute changes were made in the revised 1938 fiscal year budget which will be made public tomorrow.

The new forecast eagerly was awaited by heads of Government departments and agencies and by business and financial interests because it will show the extent to which President Roosevelt intends to carry his economy drive in the current fiscal year, as a prelude to next year's promised balanced budget.

The contents of the fiscal summary were closely guarded by the budget-makers pending final approval by Mr. Roosevelt. It was generally conceded, however, that it would confirm recent indications that the budget will not be balanced this fiscal year; that spending will exceed income. President Roosevelt expressed hope last April for a "layman's balanced budget"—a balance between income and outgo exclusive of debt retirement expenditures—in the current fiscal year ending June 30, 1938.

Various estimates were heard in Treasury circles of the probable size of the budget summary deficit. The consensus of the best opinion was that spending this year would exceed income by between \$400,000,000 and \$500,000,000.

3 STATES TO STUDY HIGHWAY BLOCKADE

Proposed revision of the highway blockade system is to be discussed at a three-state law enforcement conference Friday in Coldwater, Mich., State Safety Director Donald F. Stiver said today.

Mr. Stiver and Lieut. Ray Fisher are to represent the Indiana State Police Department. The conference was called by Oscar G. Olander, Michigan State Police Commissioner. Northern Ohio officers also are to attend.

Road blockades are considered one of the most effective methods of capturing motorized bandit gangs, Mr. Stiver said. First step to coordinate these blockades was made at a police conference here several weeks ago.

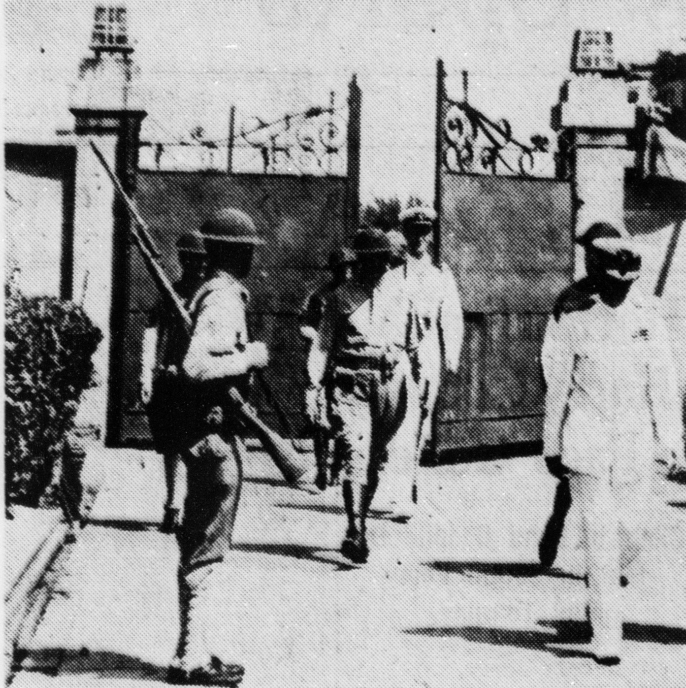

W. R. C. TO MEET

The Second District of the Women's Relief Corps, Department of Indiana, is to meet in convention at Ft. Friendly, Indianapolis, tomorrow. Mrs. Mary Calahan is district president. Delegates are expected from Danville, Lizton, Greencastle, Plainfield and Martinsville.

BYRON JONES HEADS ELKS

ANDERSON, Oct. 18 (U. P.).—Byron Jones, Lebanon, today assumed his duties as president of the Central Indiana Association of Elks after his election at the annual convention just closed. Marion was selected as the site for the 1938 meeting.

Naval Head Inspects Marines

Uncle Sam's sea soldiers must keep right up to snuff in foreign lands as well as on ship and in America. This photo from Shanghai shows Admiral Harry Yarnell, commander of the Americans' Asiatic fleet, starting to inspect the U. S. Marines' barracks and lines at the Shanghai base. Admiral Yarnell is shown in white uniform.

Life in Soviet Difficult For Everybody, but Some Enjoy More Than Others

Official Newspaper Linotype Operators Have Most Comfort; Individual Needs Sacrificed to Fundamental Construction Work of Union.

By RAYMOND CLAPPER
Times Special Writer

MOSCOW, Oct. 18.—While life is hard for everyone in the Soviet Union, the visitor finds many gradations.

They range from the old woman track-sweeper I saw picking up apple cores to take home for cooking, to the high-paid linotype operators in the elaborate plant of the newspaper Pravda. These printers, in addition to the large salary of 700 to 1000 rubles a month, which is three to four times the average Soviet wage, also have showers, a dispensary, club-rooms and other facilities for comfort.

Women work alongside men in the fields and factories. I saw several women operating steam rollers on a Moscow paving job. Others were shoveling in ditches along the road.

Fundamentally, the Soviets are subordinating individual considerations to basic construction jobs. Moscow is far behind its schedule in building workers' apartments, but is ahead of schedule in bridge-building and street-widening, all of which is proceeding ruthlessly.

At one point a beautiful old church stood in the way of a giant palace of the Soviets, which is to be higher than the Empire State Building. Soviet officials debated whether to dynamite it. When this hesitation developed, Stalin is reported to have interrupted:

"Are you afraid to destroy the church? We must tear down the old to build the new. The church must come down."

Needless to say, it did.

Build Unused Cafe

They also tore down an old church in Red Square to build an outdoor cafe, which is little used because Russians have neither the time nor money nor the friendly atmosphere for cafe life nowadays.

The stores and shops are all Government-owned. There is no private business. The stores are all crowded, but that is an indication of the scarcity of stores rather than that people are buying heavily.

A tiny vegetable stand in a street near the American Embassy has a line of housewives waiting every morning to buy their meager supplies.

The Government fixes all prices and wages, adjusting them so that the poorest people can afford the bare necessities of food and clothing. But anything above the lowest subsistence needs comes high.

Bearing in mind that the average wage is 250 rubles a month, and the actual wage of the ordinary worker about 150, the very cheapest shoes cost 60 rubles, or a week's work, and the cheapest suit 270 rubles, or nearly two months' labor. A suit of medium quality costs 600 rubles, which is beyond the reach of the average worker.

It must be remembered that the standard of living in Russia has always been miserably low. The principal item in the Russian diet is black bread, which is very cheap. So, compared to what he has been historically accustomed to, the average worker lives a little better perhaps than before. The main thing is, he has hope, which he didn't have before, and this prospect of a more abundant life at some future time is a big thing among the Russian people.

All classes are poorly dressed because the Government is concentrating on basic things. Fancy goods such as French pastry, which is available but expensive. A chocolate bar costs about a day's pay for a common laborer, as does a pound of butter, but the laborer doesn't expect either of these items, never having had them.

WIFE MAY PAY FOR SUPPORT OF CHILD

ROCHESTER, Oct. 18 (U. P.).—Dever Holloway, lightweight boxer, not only had a divorce suit on file in Fulton Circuit Court today but also a contract whereby his wife agreed to pay him \$5 weekly for support of their 4-year-old daughter.

Judge Robert Miller said it was the first time in history of Fulton Circuit Court that a mother ever had agreed to pay for support of a child whose custody was granted to the father.

Judge Miller decided to study the case a while before giving any decision.

ROCHESTER BAPTIST MINISTER RESIGNS

ROCHESTER, Oct. 18 (U. P.).—The Rev. B. G. Field today had submitted his resignation as pastor of the First Baptist Church here to accept a position as director of Christian Education for the Baptist Church in Iowa and Nebraska, with headquarters in Des Moines.

His resignation will become effective Nov. 1.

Showing Inexperience

I saw a Russian plasterer coming out of the chancery elevator with a box of broken plaster about the size of a canned-goods packing case. Across the top of the box, as a handle, he had nailed a small one-inch strip of some material. When he picked up the box, of course the handle snapped and the box was dumped over the floor. Any seasoned workman would have known that the small strip would not support the weight of the box.

I saw a boat-shed newly built at the Park of Culture and Rest. Four-inch board braces were fastened with only one nail, which is no brace at all. That is typical of much of the workmanship here.

Mind Your Manners

TEST your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below:

1. Is it necessary for a man to open the door for any woman who happens to be entering at the same time he is, whether he knows her or not?
2. Should a boy raise his hat when he meets a man, as well as a woman, acquaintance on the street?
3. Should a young girl offer her seat on the street car to a man who is standing?
4. When one is finding a seat in a movie, is it considerate for him to hold his coat so that it will not swish the heads of the persons in the row ahead?
5. In a street car, is it good manners to read a newspaper over the shoulder of one's neighbor?

What would you do if—

A. You are a woman and a man has just given you his seat to you on a street car or bus—

4. Smiling say, "Thank you."

B. Accept it as your due and say nothing?

C. Say, "You're such a gentleman. So few men are thoughtful?"

Answers

1. Yes.
 2. Yes.
 3. Not unless he is tottering with age or illness.
 4. Yes.
 5. No.
- Best "What Would You Do?" solution—A.

LOCAL STUDENT HELPS ARRANGE PURDUE PARLEY

Women's Work Conference Scheduled Wednesday And Thursday.

Times Special

LAFAYETTE, Ind., Oct. 17.—Approximately 1000 Purdue coeds, student representatives and the deans of women from all "Big Ten" universities are expected to attend the second conference on women's work and opportunities at Purdue University, Wednesday and Thursday.

As in the first conference two years ago when Amelia Earhart was the featured speaker, the conference this year will attract many of the country's leading business and scientific women, who will lead discussions.

Miss Dorothy Martenet, 3855 N. New Jersey St., Indianapolis, Purdue senior, is chairman of the Vocational Guidance Committee that arranged the conference.

Sessions will get underway Wednesday evening, when "Frontiers in Business," "Education," "Home Economics," and "Science" will be discussed respectively by Dr. Lillian Gilbreth, Purdue engineer; Dr. Kathryn McHale, Purdue trustee; Mrs. Clara Gebhard Snyder of the Wheat Flour Institute, Chicago, and Dr. Maud Slye of the University of Chicago's pathology department.

A banquet Thursday evening will bring the conference to a close. Judge Florence E. Allen of the Federal Court of Appeals will be the principal speaker.

WOMAN DENIES KILLING GIRL, 12

Mrs. Etta Jones Pleads Not Guilty to Assault on Child's Stepmother.

Mrs. Etta Jones, tall 37-year-old rooming house operator, today pleaded not guilty to a charge that she shot to death 12-year-old Helen Schuler in Beech Grove July 14.

Mrs. Jones also pleaded not guilty before Criminal Court Judge Proctor Clydesdale to a charge of assault and battery with intent to kill the child's stepmother, Mrs. Lottie Schuler.

Judge Karer said her trial probably will be held next month. He set Friday for a hearing on a petition for a writ of habeas corpus which seeks her release on bond. Mrs. Jones has been held in County Jail since the killing occurred.

WOMEN ACCUSE EACH OTHER

The strange case began when the child's body was found in a pool of blood at the Schuler home. Immediately, Mrs. Jones and Mrs. Schuler accused each other of the crime.

In court today, four men, all Negroes and all under indictment for murder, pleaded not guilty. The men were Eugene Henry, Samuel Martin, Sam Harris and E. A. Stewart.

WIFE MAY PAY FOR SUPPORT OF CHILD

ROCHESTER, Oct. 18 (U. P.).—Dever Holloway, lightweight boxer, not only had a divorce suit on file in Fulton Circuit Court today but also a contract whereby his wife agreed to pay him \$5 weekly for support of their 4-year-old daughter.

Face Deportation and Ax

Talking animatedly with his beautiful wife Margaret, 19, crismoustached Baron Egon Karl Von Mauchenheim smiled in Detroit as this picture was made, despite his fears of being returned to Germany to face a Nazi executioner's ax. A U. S. consul at Windsor, Ont., had just refused the couple's plea for visas to permit them to stay in the United States. The baron fled Germany with his wife in 1936 to escape compulsory army service. Unless the U. S. Government intervenes they will be deported.

Snite to Renew Travels In 'Iron Lung' With Trip In Special Car to South

Corps of Nurses, Physicians and Electricians to Accompany Chicago Youth; Who Made Trip From China.

CHICAGO, Oct. 18 (U. P.).—Fred B. Snite Jr., encased in the "iron lung" in which he already has traveled 8300 miles from Peiping, China, will be wheeled aboard a train today for a journey to Miami, Fla.

One of the strangest travel-episodes in history, Snite was stricken with infantile paralysis in China. He was rushed to Peiping, and placed in a Drinker respirator, known as an "iron lung," to save his life. By boat and train, in staterooms and special railroad cars refitted into portable hospitals, he was brought here from China, arriving June 22.

A club car was specially fitted out for Snite's trip to Florida. The respirator will be rolled out of the hospital into a sterile ambulance. Huge batteries will keep it in operation during the trip to the train. The rear rails and observation windows have been removed from the car. A ramp will be placed at the rear of the train and the respirator rolled up it into the car.

A corps of nurses, doctors, and electricians will accompany the respirator. Should the electrical connection be broken, and the respirator stopped for even a minute, Snite might suffocate. The disease has paralyzed his lungs so he cannot breathe without aid of the respirator. Doctors and assistants will attend Snite in his portable hospital.

A second Drinker respirator, for emergency use, and a smaller aluminum respirator imported from Sweden for use in Florida, will be carried in the baggage car of the train.

Train officials have been instructed to use special care in starting and stopping.

Two doctors may inspect the "iron lung" in Jacksonville, if Snite's condition is satisfactory when he reaches there.

Snite is 27. His mother and father will accompany him from the time he leaves the hospital.

RITE ANNOUNCES ITS PROGRAM FOR PARTY

A dinner dance, military drama, motion pictures and organ recital are on the program of the party of the Scottish Rite to be given in the Cathedral auditorium Friday night. Mrs. Virginia Cummin Kipper is to take the leading role in the play, "The Drums of Oude," directed by Harry A. Phil.

Deadline for petitions for the first session of the Rite's fall class is Oct. 27, it was announced today. Petitions for the second session are due by Nov. 24.

AIR SHOWS POSTPONED

A "pilots' roundup" at the Hoosier Airport, and a 25-mile race for Indiana National Guard pilots at Municipal Airport are to be held next Sunday. The events were postponed yesterday because of weather.

Making the grade

Growing children with an abundance of energy usually do make the grade... and with ease.

Every thoughtful mother recognizes this fact... mothers know too that children need help to build and maintain blood strength.

Particularly is this true with those who have suffered some illness or who look pale... tire easily... are underweight... or have lost their zest for food.

S.S.S. Tonic helps build Sturdy Health

S.S.S. Tonic is especially designed to build-up children's health through the red-blood-cells, thus putting them in better condition to enjoy the food they eat and to regain lost weight... all which make for greater strength and vitality.

Full directions are on each bottle of S.S.S. Tonic, which comes in two convenient sizes. The larger size at a saving in price.

Help your child to "make the grade" by starting him or her on a course of S.S.S. Tonic now. There is no substitute for this time-tested remedy and no ethical druggist will suggest something "just as good."

FACT FINDERS NAMED IN SHOE FIRM DISPUTE

Committee to Determine if Huntington Corp. Can Afford Pay Boosts.

Times Special

Arthur Viat, State Labor Division conciliator, said today a fact-finding committee had been appointed to study wage conditions at the Huntington Shoe Corp., an unprecedented move in the division's work.

The committee, composed of representatives from the union and the company and a Seymour pastor is to examine the company's records and determine if it can afford to grant general wage increase, Mr. Viat said.

A three weeks' strike of 225 employees was settled Sept. 21 by an agreement granting seniority rights, a 40-hour week, a minimum wage guarantee and sole bargaining rights to the United Shoe Workers of America, a C. I. O. affiliate, he added.

First Committee Named

Mr. Viat said that although the 1937 State Labor Act provided the Division might appoint such a fact-finding committee, this is the first time one has been named.

Members are Guy Arnold, Chicago, national union representative; E. R. Lowey, Huntington, company representative, and the Rev. L. Dewey Burham, Seymour.

Mr. Viat said the settlement agreement involved another precedent in that it provided that no employee can work in the plant while a strike or lockout is in progress, nor can an employee bring materials to the plant at such time.

O. E. S. CHAPTER TO MEET

North Park Chapter 404, O. E. S., is to meet tomorrow night in the Masonic Temple at 30th and Clifton Sts.

BLAME PRANKSTERS IN VINCENNES DEATH

VINCENNES, Oct. 18 (U. P.).—Police today opened a drive against youthful Halloween pranksters who allegedly have broken windows in several restaurants, stoned others and contributed to the death of one man.

William T. Berry, 85-year-old restaurant owner, died from a heart attack Saturday after a group of boys allegedly tossed a pail of garbage on his restaurant floor. Mr. Berry collapsed and died within 15 minutes. The death certificate cited "shock due to boys throwing bucket into restaurant" as contributing to his death.

BROWN COUNTY PEAK DUE NEXT WEEK-END

Unless there are heavy rains this week, Brown County's fall season is expected to reach its peak next week-end.

Fall colors will reach their height about next Sunday, according to Myron Rees, state park director.

Heavy rains this week, however, would spoil foliage, he said.

Although Saturday brought large crowds to southern Indiana hills, yesterday's steady downpour reduced the number of visitors, Mr. Rees said.

Thanks, Mrs. Shelton

"My druggist suggested that I try REL for a cold in the head. I had never used anything like it before, but it cleared my head up right away. It is clean and convenient to use. I'm glad to recommend it. I've bought it several times since."

—Mrs. G. A. Shelton, 659 Light Street, Baltimore, Md.

Thanks Mrs. Shelton! You found REL so effective because it is different. It represents an important new development in the treatment of head-colds. REL reduces the swelling, releases the mucus, clears the head, makes breathing easier! 30c and 50c at all druggists.

PROTECT THOSE BRIGHT EYES WITH Light-Conditioning

The first step is new and brighter G-E bulbs

Light-conditioning simply means providing the right amount of light and the right kind of lighting for eyes at work or play. Young eyes, especially, need the eyesight protection that such good lighting offers. You can take the first step in light conditioning your home... today... for as little as 15 or 20 cents. One new MAZDA lamp made by G-E of the proper size and in the right place—often makes a surprising difference in the amount of light that eyes get.

Your local lighting company probably offers a free light-conditioning service. Phone them, and a trained lighting advisor will call at your convenience to measure your lighting with a Light Meter... and show you how to protect eyes with light-conditioning.
