

GREEN HINTS AT LABOR PEACE IF C. I. O. PERMITS DUBINSKY TO 'CARRY BALL' FOR LEWIS

Commends Garment Workers' Union Leaders for Criticism
Of Factional Policy and Reveals Invitation to
'Big Four' Rail Brotherhoods.

(Copyright, 1938, by United Press)

WASHINGTON, Jan. 19.—William Green, American Federation of Labor president, today blamed C. I. O. Chairman John L. Lewis for collapse of recent A. F. of L.-C. I. O. negotiations and suggested that it was time for somebody else to "carry the ball."

He hinted that his hope for a new peace movement depended on David Dubinsky, Ladies' Garment Workers Union president.

"There will be a much better chance for peace and for a renewal of negotiations with the C. I. O." Mr. Green told the United Press. "If somebody else besides Lewis carries the ball, it seems for the moment that Dubinsky has taken the ball and is carrying it. Whether he can push it close to the goal line is a matter to be determined."

Still Has Hope

Apparent division among the C. I. O. leaders became noticeable a week ago when Mr. Dubinsky clashed with Mr. Lewis on C. I. O. policies and warned that "no man has a mortgage on the labor movement." Mr. Dubinsky's union is one of the most powerful affiliates of the C. I. O. and has a membership of about 250,000. Another C. I. O. leader, Max Zaritsky, president of the United Hatters, Cap and Millinery Workers, agreed with Mr. Dubinsky.

Mr. Green said, however, that he had not given up hope for a settlement of the more than two-year-old labor dispute and called for solidarity and harmony in the labor movement.

He revealed that the federation had issued a standing invitation to the "big four" independent railroad brotherhoods to join the A. F. of L. The brotherhoods claim 500,000 members, but always have remained independent of other labor groups.

May Renew Parleys

Mr. Green was asked whether the federation might actively seek new peace negotiations with the C. I. O. He said that that was a matter for the executive council which meets in Miami, Fla., Monday.

When asked if the council, which has been voted authority to expel any or all of the 10 suspended C. I. O. unions, would exercise this power, he replied:

"That is entirely a matter of speculation. Whether that will be their judgment, I would not say and cannot say. It is definitely something which will be discussed but it has by no means been decided that any such strong step will be taken."

A. F. of L. Council to Vote On Japanese Boycott

WASHINGTON, Jan. 19 (U. P.)—The Executive Council of the American Federation of Labor will consider at its meeting in Miami next week a proposal for a worldwide boycott of Japanese goods.

The suggestion was offered by Sir Walter Currie, general secretary of the British Trade Union Congress and president of the International Federation of Trades Unions. It was referred to the A. F. of L. council after a trans-Atlantic telephone conversation.

EDUCATORS MEET HARVARD VISITORS

I. U. Officials to Confer With Two Professors.

Dean Henry W. Holmes and Prof. Howard E. Williams of Harvard University Graduate School of Education are in Indianapolis this week conferring with educators.

They arrived here yesterday afternoon and were to visit Indiana University today. School of Education officials are to confer with them this afternoon, following a luncheon at the Union Building in Bloomington.

Tomorrow, Dean Holmes and Prof. Edwards are to visit the State Teachers College in Muncie as the guests of President L. A. Pittenger, and on Friday are to visit Eli Lilly Co. research laboratory. The Indiana Harvard Club is to give a dinner for visitors Friday night at the Indianapolis Athletic Club. John Rauch, president, is to have charge.

Last night a dinner was given at the Athletic Club by Hugh McK. Landon, Associated Harvard Club president.

JOHN D. PLANS HUGE PROJECT

Three Rockefeller Center Buildings to Cost \$12,000,- 000; Private Work Urged.

NEW YORK, Jan. 19 (U. P.)—John D. Rockefeller Jr. planned today to complete Rockefeller Center—the "City Within a City"—by constructing three new buildings as "evidence of continuing faith in the future of American business."

Simultaneously, he urged expansion by private industry to end unemployment.

The three new units, it was announced, will cost approximately \$12,000,000 and will give 1,000,000 man-days of employment to building trades workers. They will bring to 14 the number of buildings in the center, which was planned in 1928 and which includes Radio City.

"The practical answer to the problem of unemployment is to find jobs for men who want to work," Mr. Rockefeller declared. "In the last analysis business and industry alone can provide the jobs necessary to restore the nation's economic well-being. When relief measures extend beyond a stop-gap period they inevitably tend to destroy the self-respect and the initiative of the men and women dependent on them."

"Constructive programs for revitalizing the economic life of America are today being widely discussed."

Hopes for Action

Let us hope that these discussions will be transplanted into actual action.

"There is firm ground for the belief that a generous extension of production programs, with an adequate wage scale and a fair return on the capital invested, will not out-run a steadily developing demand."

"Idle capital means idle labor. I believe that if capital and labor will face the future confidently and unafraid and will move forward together, they will find the nation ready and willing to back them. As a concrete expression of this confidence we are proceeding forthwith to the completion of the Rockefeller Center development."

APPEALS WAITED ON SLAYING CONVICTION

Attorneys for Harry Peats and Virgil Crickmore, whose conviction on charges of voluntary manslaughter has been upheld, are expected to ask the Indiana Supreme Court for a rehearing within the next 60 days.

Otherwise, Criminal Court officials said they would summon Peats for sentencing. He is under bond, while Crickmore has been serving sentence.

Both defendants are officials of the Chauffeurs, Teamsters, Stablemen and Helpers Local Union. They were convicted in Marion County Criminal Court in September, 1936, in connection with the death of John M. Penny, Kroger Grocery and Baking Co. employee.

JOB TRUST FUND HAS \$365,536 IN INTEREST

More than \$124,900 interest on State deposits in the Federal Treasury unemployment trust fund during the last three months of 1937 has raised the total interest to \$365,536. Clarence A. Jackson, Unemployment Compensation Division director, said today.

About \$22,500,000 has been deposited in the Treasury by the division since 1936, Mr. Jackson said. Benefits are to be made to workers who have become unemployed after earning \$10 or more after March 31.

THE INDIANAPOLIS TIMES

CLASSIFICATION UNIT OPENED AT INDIANA PRISON

Tests to Show Tendencies Of Convicts, Division Head Says.

Opening of a scientific educational and classification unit at Indiana State Prison, Michigan City, was announced today by John H. Klingler, Division of Corrections director.

New inmates and candidates for parole and transfer are to be given routine examinations designed to bring out their social, psychological, custodial, medical, religious and mental tendencies, Mr. Klingler said.

"It is a program which intends to separate first offenders from hardened criminals," Mark C. Roser, who is in charge of the development, said. Mr. Roser is a psychologist and has been in charge of prison work in the Norfolk, Va., Prison Colony.

Classification programs already have been instituted in the State Reformatory, Woman's Prison and Boys' School.

Co-ordinated individual programs

for inmates are drawn by the classification committee, composed of institution department heads and a classification staff including sociologists and psychologists.

As technical director of the program, Mr. Roser is developing a system by which county welfare departments will check with institution records on inmates' reports.

HE SELLS TOBACCO TO THEM ALL

But Branch Bobbitt, like
so many other independent
experts, prefers Luckies...

AT AUCTIONS in my warehouse

in Farmville, North Carolina,

says Mr. Branch Bobbitt, "the higher the tobacco sells for, the better my profits. So I'm always glad to see Lucky Strike buyers in there bidding. They know what they want and they'll keep bidding right up until they get it."

"Well—in a cigarette—it's the tobacco that counts. I know tobacco and I know what tobacco is in what cigarettes. So that's one

reason I've smoked Luckies for 5 or 6 years."

Mr. Bobbitt represents the "aristocracy" of tobacco experts. He judges the tobacco that the growers grow. He's impartial, not connected with any cigarette manufacturer.

Many other experts agree with Mr. Bobbitt. Sworn records show that, among independent tobacco experts, Luckies have twice as many exclusive smokers as have all the other cigarettes combined.
