\$1000 in New Equipment Added in Program of Improvement.

The Butler University reading clinic has been enlarged and \$1000 worth of new equipment added, Dean William L. Richardson, head of the college of education, and Dr. Walter E. Townsend, bureau director, announced today.

A class for business and professional people may be organized, they said.

A free diagnosis of reading difficulties is offered to children brought by their parents, Dr. Townsend said. Dr. John E. Potzger of the botany department and Mrs. Ray C. Friesner, a teacher in Public School 3, are coauthors of three books, entitled "Birds," which discuss 45 of the most common birds.
