

# CITY LACKS CASH TO INSTALL NEW TRAFFIC LIGHTS

Gas Tax Funds Nearly Gone, Says Dammeyer; Other Signals Needed.

Gas tax funds allotted to the City Safety Department for installation and repair of safety signals and safety zones will be exhausted with completion of stop light installations at four street intersections. Theo. Dammeyer, Safety Board president, said today.

He said when present projects are finished and funds are depleted the city still will be in need of automatic signals at one intersection. 51 flasher stop signals and 19 safety zones.

A total of \$2811.69 of the budgeted gas tax \$5400 allotment already has been expended.

The remainder of the funds are being spent to add lights on Michigan St. from Capitol Ave. to Alabama St. new signals at the Shelby St. bridge over Pleasant Run, College Ave. at Fall Creek Blvd. and at Alabama and 16th Sts.

Other automatic traffic signals are needed at street intersections throughout the city, the most urgent need being at Delaware and Maryland Sts., Mr. Dammeyer said.

City Engineer Henry B. Steeg and a committee of traffic safety experts from the police department are investigating the automatic traffic signal set up at Fountain Square.

New automatic signals installed by the Board in the last few weeks include Capitol Ave. and Michigan Sts., Market and Illinois, Michigan and Illinois and Capitol Ave. and Market Sts.

# TENNESSEE VALLEY TO BE MUNITIONS CENTER

NASHVILLE, Tenn., April 13 (U. P.).—Army authorities have perfected plans for defense of the Tennessee Valley as result of a move to make headquarters for manufacture of munitions and airplanes. Government and Army officials disclosed today.

The valley, almost in the center of the eastern United States, would be protected by a virtual ring of Army posts and airbases on three sides and by the 6000-foot Appalachian Mountains on the east in event of national emergency, it was learned.

The vast sources of hydro-electric power within the valley not only make possible cheap manufacture of munitions, but with large supplies of copper ore in east Tennessee, iron in Alabama and a large aluminum processing plant at Alcoa, Tenn., would simplify manufacture of airplanes, it was pointed out.

# COLE BROS. CIRCUS ARRIVES AT CHICAGO

CHICAGO, April 13 (U. P.).—The Cole Brothers and Clyde Beatty circus was unloading here today for its initial 1938 performance at the Stadium Friday.

The entire troupe left winter quarters at Rochester, Ind., yesterday, in brightly colored cars. Following the 17-day engagement, the circus will return to Rochester for its first performance under canvas, May 2, after which it will appear in South Bend, Ft. Wayne, Muncie, Connersville, Indianapolis, Lafayette, Terre Haute, Anderson and Richmond.
