Neat and Trim Footwear Aid In Appearance

By ALICIA HART

Regardless of her makeup and the way she wears the rest of her clothes, the woman whose shoes and stockings aren't neat and trim just isn't perfectly groomed. Crooked seams, runover heels, unbrushed suede or unpolished kidskin will spoil the appearance of any otherwise smart costume.

If you are diligent in your search, it's possible to find sheer stockings that will wear and wear and wear. That is, if you ask for the right size in the first place. And, of course, several of the hosiery manufacturers put out long, medium and short lengths in each shade. By all means ask for a special length. If your stockings are too short, your garters will stretch and pull and weaken the threads. If they're too long, they'll wrinkle.

Naturally, it's a mistake to wear ultra sheer, one or two-thread stockings to the office or on a hike through the fields, or on a strenuous shopping tour. Such fragile hose are for dancing and dress-up. Buy three-thread for ordinary wear, and four-thread for golf, the country, riding and the like.

Wash stockings immediately after each wearing. Don't wait until the next morning. If you want the stockings to wear well, wash them before going to bed. New ones ought to be rinsed in lukewarm water and allowed to dry thoroughly before being worn even once.

Keeping toenails short and smooth and backs of heels free from callouses will add days to the life of your stockings. New ones ought to be rolled in, rolled them over, then rolling instead of pulling them upward—is a help, too.

Careful! Don't Chip

Permanent chipping and marring of fine enameled surfaces often comes from careless usage. Don't chip ice in the sink and by all means avoid knocking the surface with heavy cooking utensils.

Judy Prefers Suede for Sub-Deb

Suede should be a choice of the sub-deb, Judy Garland, Hollywood actress, believes. She chooses a chocolate brown sport coat to model. It is hip length with genuine tree bark buttons. Contrast is achieved in her soft little "dwarf" hat and pleated bag in dusty pink antelope.

8362

Whenever you want to put the accent on youth wear a round collar like this, and add a frill or two.

It's exactly the type for which spring popularity is forecast—because it is spool-waisted, full skirted, and has high-at-the-shoulder sleeves. Shirting on the shoulders makes the bodice very soft and becoming, and there's a smart blouse at the waistline.

Later, in the spring, have a black or navy dress like this, set off with crisp white accents. It will be pretty in summer cottons, too. This is really one of the most versatile and practical of new designs.

Pattern 8362 is designed for sizes 11, 13, 15, 17 and 19. Size 15 requires 3 1/2 yards of 39-inch material, 1/4 yard for contrasting collar, 1 1/2 yards of ruffling.

The new Fall and Winter Pattern Book, 32 pages of attractive designs for every size and every occasion, now is ready. Photographs show dresses made from these patterns being worn, a feature you will enjoy. Let the charming designs in this new book help you in your sewing. One pattern and the new Fall and Winter Pattern Book—25 cents. Pattern or book alone—15 cents.

To obtain a pattern and step-by-step sewing instructions inclose 15 cents in coin together with the above pattern number and your size, your name and address and mail to Pattern Dept., The Indianapolis Times, 214 W. Maryland St.
