

# STATE SLATED FOR \$30,000,000 OF RIVERS CASH

Bill Now in U. S. Senate; Fall Creek Project Wait Indicated.

WASHINGTON, May 18 (U. P.).—Indiana will share in about \$30,000,000 of the \$83,728,100 provided by the omnibus Rivers and Harbors Bill which went to the Senate today.

The House passed the bill by voice vote yesterday after Republicans had succeeded in cutting out a \$23,700,000 authorization for the Umatilla Dam on the Columbia River in Oregon and the \$12,500,000 Tennessee-Tombigbee Waterway.

Included in authorizations are the Calumet-Sag Channel and Indiana Harbor and Canal in Indiana and Illinois, \$25,000; and the Calumet River and Harbor also in Indiana and Illinois.

Flood control provisions were made by lump sums but records of committee hearings indicated that flood control allocations in Indiana would be substantially as follows:

Muncie, \$200,000; Brevoort, \$192,000; Tell City, \$530,000; Evansville, \$800,000; Gill Township Levee Unit, \$35,000; Indianapolis (Fall Creek section), \$200,000; Cannelton, \$326,000; Lawrenceburg, \$900,000; Jeffersonville to Clarksville, Ind., \$600,000; New Albany, \$500,000; Shoals Reservoir, \$370,000; White River Levee Unit 8, \$333,900; Anderson, \$127,000.

It was indicated recently that Indianapolis would not be able to make the necessary contributions this year to obtain the Fall Creek fund.

## CHECK STREAM HELPS JOBLESS

State Pays Benefits for 2,000,000 Weeks of Unemployment.

The two millionth unemployment insurance check paid in Indiana was issued today, nearly 13 months after payment of the first benefits.

Checks issued to date by the Indiana Unemployment Compensation Division represents two million weeks of total or partial unemployment for 218,000 applicants who were compensated to the extent of \$21,540,000, Clarence A. Jackson, division director, said.

"This sum has been a tremendous boon to worker and employer alike since it helped maintain individual income and local and general markets," Mr. Jackson said.

The first benefit check was issued on April 25, 1938, and five and one-half months later the total had passed one million. With employment conditions improving, it took seven and one-half months to issue the second one million checks, he said.

Lester Kassing, local job insurance manager, said 245,000 weeks of total or partial unemployment for 26,000 persons in the Indianapolis district has been compensated to the extent of \$2,520,000.

## MILK PRICE CUT IN SIX OTHER COUNTIES

The State Milk Control Board has ordered reductions in the retail price of milk in six Indiana counties in the last few weeks. C. W. Hummerhouse, milk administrator, announced today.

A hearing on a petition to reduce the price in a seventh county, Decatur, will be heard next week.

The series of reductions over the State followed recent action in Marion County where delivered milk was reduced from 12 to 11 cents at the request of distributors who said over-production and a drop in consumption had injured the milk industry.

The counties in addition to Marion County in which the milk has been reduced 1 cent a quart include Huntington, St. Joseph, Miami, Grant and Cass.

## BRUSH CO. SETTLES 16 WAGE CLAIMS

The Indiana Ox Fibre Brush Co., formerly of Seymour and now located at Frederick, Md., has paid \$3600 to 16 claimants for back wage losses suffered as a result of alleged unfair labor practices, the NLRB office here announced today.

The stipulation covering the settlement for workers at the Seymour plant was entered into between the company and Brush Makers Union 21158 on April 21.
