Women Drive Car in Front Of Freight When Spurred By Impatient Motorist.

Three persons were killed in Indiana week-end traffic and three critically injured. Fourteen were injured in 50 accidents within the City.

State Police said they were searching for a motorist who indirectly caused the accident at Michigan City which accounted for the three fatalities.

## Motorist Behind Impatient

When the train had passed, State Police said, someone in a car behind them honked his car horn impatiently and the women drove onto the tracks in front of an eastbound freight train.

Lyman Drago, 30, Franklin auto salesman, was in critical condition in Methodist Hospital following a motorcycle accident yesterday.

Police were told that Mr. Drago was found alongside the road and apparently had been thrown from his machine. He had a skull fracture and other injuries.

# It's Calm Along the River

When the White River is bad she is very, very bad and when she is good she is peaceful. In the spring when the swollen streams run wild, Ravenswood residents see more water and river than they ever want to see again. But in the summer? Just look how pretty the scene is. Its looking north towards the Broad Ripple dam. And in spots the stream is having a hard time maintaining its status as a river.

## OH, SAY, CAN YOU SEE IF LOPEZ IS RIGHT?

NEW YORK, July 31 (U. P.).—The question of whether the Star Spangled Banner is a suitable national anthem or a pagan bar room melody will be debated some time this fall by Vincent Lopez, the orchestra leader, and Frederick Jagel, the opera singer.

Mr. Jagel heads the new National Anthem Club, while Mr. Lopez leads the Star Spangled Banner Association. The singer has been campaigning for a new anthem on the ground the melody of the Star Spangled Banner is an old drinking tune not written by an American, that it is unsuitable, and that its adoption by Congress was an "un-American application of minority tyranny."

The singer also objected to the mention of bombs and rockets and the fact the song celebrates the war against England, now a friendly power. Mr. Lopez, who has sponsored a slight change in the high school song, contends his alteration makes it singable and that the lyrics mark a vital point in American history.

# AUGUST TO SEE MOST REPAVING

180 Miles of State Roads to Be Resurfaced, Dicus Says.

The peak construction period for 1939 in the resurfacing of 180 miles of state highways will be reached in August, T. A. Dicus, State Highway Commission chairman, announced today.

In addition to the resurfacing being done numerous detours, necessitated by the construction work, are being maintained and paving, grading and similar construction work on State routes is being done, according to Mr. Dicus.

## Despite some unfavorable weather

this year, the highway department expects to have very few detours in effect. Road oil is also being placed on some 800 miles of highway.

Mr. Dicus issued an appeal to the public to aid in keeping the roadsides free of trash and other debris.

"Picking up litter on the highways costs thousands of dollars each year as a part of the highway maintenance program, an expenditure which could be reduced if not eliminated by the co-operation of the motorist," Mr. Dicus said.
