### Latest Beauty News? 'Fun Exercises'

By ALICIA HART

REALLY interesting, fun-to-do exercises, designed especially to make the body graceful and youthfully supple and to normalize its weight and contours, are the big news in beauty circles at the moment. Called, appropriately enough, "Fun for Two," these routines are a radical departure from the accepted form of more or less military-type exercises.

"We intended the 'Fun for Two' exercises, to be done on the beach, but they may be done anywhere, of course," says the Fifth Avenue salon from which they originate. They develop grace rather than sharpness of motion. The new rhythmic exercises for the beach have as their essential function the molding of beautiful contours and the development of elasticity, which gives a smooth rhythmic swing to every movement of the body.

The salon names the first step in the new routine, "resisting a push."

"Pushing your companion around on the beach will limber you up as nothing else will—especially if she doesn't want to be pushed. Brace your hands against her shoulders and push while she resists."

If you have a medicine ball, try this one: Stand back to back with another exercise addict, and start with the ball on the ground. Bend over, hold the ball near the ground and swing your arms to the right, passing the ball to her, hereafter referred to as Miss B.

Miss B. will swing the ball low to her right, passing it around to your left side. Continue the swinging motion with outstretched arms in horizontal circles rising spirally around both bodies until the ball is as high as your outstretched arms will allow. Return downward in the same way.

FOR number three, stand back to back again, lifting arms and clasping hands. Bend forward, stretching B's arms and drawing her backward over your bent body. Come back to erect position and then bend backward yourself as B bends forward. Reverse and repeat five times. This see-saw bending exercise gives an excellent stretch to the body and helps expand the
