

## 2-MILE PARADE TO OPEN G. O. P. SATURDAY FETE

12,000 Autos, 17 Bands  
Scheduled to Take Part  
In March.

A parade more than two miles long through the downtown streets at 10 a.m. Saturday will open what party leaders say will be the biggest Republican show here since the 1936 Presidential campaign.

The rally, termed the "14-40 Roundup" to elect the 14th Republican President in 1940, is being sponsored by the Indiana G. O. P. Editorial Association and the Indiana Central Committee.

1200 Cars Expected

The parade, scheduled to include more than 1200 autos, 17 bands, floats and an elephant, will go to the Fair Grounds where more than 20,000 persons are expected to attend at the Clappool Hotel.

At 3 p.m. a mass meeting will be held at the Fair Grounds with nationally known speakers on the program.

Gannett on Program

They are to include Frank E. Gannett, Rochester, N. Y., publisher, one of the leaders of the fight against reorganization of the U. S. Supreme Court; Dr. Glenn Frank, chairman of the National Republican Program Committee; Horner E. Casper, Washington, Ind., host at the confine conference last year, and Mrs. Ruth Bauer, Chicago, national committee member.

The annual conference of the Republican Editorial Association will be held at the Clappool Hotel starting Friday noon. A banquet will be held at the hotel Friday night.

## WPA TO ADD 2700 WOMEN TO ROLLS

More than 2700 Indiana women soon will be placed on WPA projects for which funds were approved yesterday by President Roosevelt.

The sewing rooms project was given \$4,847,080 for the year, which will mean an addition of 2000 women on the projects throughout the state, according to Miss Mildred Schmitt, state director of the WPA professional service division. The normal now is 4000.

The project, now consolidated as a statewide project, instead of being sponsored by townships and counties, will employ between 3000 and 6000 women.

The Home Aid project was given \$1,040,324, which will increase the number employed as housekeepers for the aged or needy from 700 to 1000, Miss Schmitt said.

Both projects are sponsored by the Unemployment Relief Commission.

## PICKPOCKET WORKS COURT

CAIRO, Egypt, Sept. 20 (U.P.)—While on trial in a Cairo court, a notorious pickpocket picked his lawyer's pockets "just for fun." Despite his prominent position in the dock, no one saw him help himself to the lawyer's large-sized wallet, handkerchief and watch.

## KAY WATCH SALES HIT RECORD HIGH

ENOUGH watches to provide every single person in the average city with a watch were sold by the Kay Jewelry Company last year.

This figure represents an all-time high for the Kay Jewelry Company over any previous period in the Company's history. The record is all the more impressive in view of the fact that 75% of the sales were made during depression years.

Bulova, Fairfax, Paul Breguet, and the Benrus Watch Company have created special watches exclusively for the Kay Jewelry Company in recognition of the 25th Anniversary of the founding of the company. Other manufacturers are cooperating with us also, and we are giving the public greater watch value than ever before.

*P.S. Hamburg*

137 W. Wash. St.

## Earlham Head Talks to Rotary

Times Photo.  
Dr. William C. Dennis, president of Earlham College (left), and Luther L. Dickerson, City Librarian and Rotary Club president, discussed world affairs before Dr. Dennis addressed the Rotary Club at the Clappool Hotel.

Speaking before the club yesterday, Dr. Dennis said he believed President Roosevelt was right in calling Congress into special session to have all branches of government functioning because of the European conflict.

## Barometer Shows That a Fish Has 'Hot and Cold Flashes'

When Instrument Is Low, They're Wary; When High, They're Downright Aggressive.

By JOE COLLIER

THE Fish and Game Department, a unit of Indiana State Government, will bet it's hot at 2-to-1 odds that a fish has something akin to hot and cold flashes when the barometric pressure is low, and doesn't like the way things are going.

On the other hand, the Fish and Game Department, still a unit of State Government, will bet blue chips that when the barometric pressure is high, all normal fish feel very daring indeed and practically go searching for fishermen to catch.

These conclusions have been reached this summer through the exact science of keeping notes when members went fishing, how the barometric pressure was at the time, and how the fish responded.

IT is the considered opinion that the best time for fishing is when the barometer reads above 30 and that if it ever got above, say 35, (which may not be possible, but that's a different branch of science) the fish themselves should have to buy a license.

And anybody who can read a barometer and still goes fishing when it's down, say to 29, should be required to take entrance examinations for kindergarten, if he has reached an age limit of about 25, the Department has it doored.

All summer long, since the barometer became a new piece of Hoosier fishing tackle, Department fishermen have been dividing their spare time between watching the barometer when it's high and watching the barometer when it's low.

Then they have made notes on the success of their trips and here is a partial record, starting with July 18 because that seems to be as good a time as any:

Date—Barometer—Fish.

July 18, 29.85, none.

July 20, 29.95, only slight better.

July 23, 29.80, none.

July 30, 29.85, no better.

Aug. 1, 29.90, no good.

Aug. 2, 29.95, no good.

Aug. 7, 29.90, no good.

Aug. 8, 29.85, surly.

Aug. 11, 30.05, wonderful.

Aug. 31, 30.05, super.

Now the Aug. 31 item needs some explanation. The day was dark, the clouds low and the wind cold. Old time fishermen who have not taken up the barometer said it was no use—a rotten day to fish.

But one barometer addict said he'd try it out and had his limit within two hours.

THOSE aren't the only figures they kept, but they and the others were enough to convince the most skeptical. The theory is that a low pressure reacts unfavorably on the fish and he seeks a deeper place in the water, where the water pressure is heavier, to compensate for the pressure that the air doesn't make on the water.

When the air is heavy, however, he feels a good deal like frisking

Col. Clarence E. Chaifield is committee chairman, assisted by Maj. G. A. Cassidy, Maj. E. M. Chellew, Capt. J. M. Davis, Capt. K. L. Hittle and Capt. H. E. Fillinger. Guests invited include Lieut. Gen. Stanley H. Ford, commanding Second Army, Chicago; Maj. Gen. Daniel Van Voorhis, commanding Fifth Corps Area, Columbus, O.; Maj. Gen. Robert H. Tyndall, commanding 38th division, Indianapolis; Brig. Gen. Adna R. Chaffee, commanding Seventh Cavalry Brigade, Ft. Knox, Ky.; Col. Louis Kunz, commanding 11th Infantry, Ft. Harrison; Col. Walter S. Drysdale, officer in charge of Fifth Corps Area Reserve Affairs, Columbus, O., and Col. Fred H. Turner, Chief of Staff, Indiana Military Academy, Indianapolis.

Other guests invited are Lieut. Col. W. W. Waldron, commanding 19th Field Artillery, Ft. Harrison; Lieut. Col. F. C. Mahin, senior instructor, Indiana National Guard, Indianapolis; Maj. A. W. Peil, Marine Corps Inspector-Instructor, Indianapolis; Major Reginald H. Sullivan, President Edward C. Elliott of Purdue University; President Herman B. Wells of Indiana University; President Donald B. Prentiss of Rose Polytechnic Institute; President Daniel S. Robinson of Butler University, and Col. W. E. Gregory, superintendent of Culver Military Academy.

Wells of Indiana University; President Donald B. Prentiss of Rose Polytechnic Institute; President Daniel S. Robinson of Butler University, and Col. W. E. Gregory, superintendent of Culver Military Academy.

Lions Club Opens Search  
For Perfect County Child

The Marion County "perfect child" hunt is on! The Indianapolis Lions

club, and representatives of co-operating public and private agencies denied last night at the Clappool hotel and settled final details of the project.

Registration will begin at 9:30 a.m. Monday at headquarters, 247 N. Pennsylvania St., and will continue until 1000 babies, whose parents believe they are perfect, have been registered.

There is to be no entry fee and all babies in Marion County between the ages of 1 and 3 are eligible until the quota is reached. After registration, there will be a two-week interval when cards will be sorted and arranged.

On Monday morning, Oct. 16, 80 physicians will begin examination of the entrants, with registered nurses in attendance. Each mother will be given a specific appointment for her child.

The perfect baby and two runners-up will be given loving cups from Mayor Sullivan at a coronation ball, stage show and dance, Oct. 25 in the Butler University Field House. Proceeds will be turned over to the Lions Club for the relief of the blind and underprivileged in the county.
