## Farm Youth Wins Hollywood Trip

Dale Pruitt talks of a Hollywood trip to see farms. . . Miss Neva Stoner, Soil Conservation Committee employee, listens.

**By DAVID MARSHALL.**  
Dale Pruitt, who at 18 is half owner of a 40-acre Indiana farm, was Hollywood-bound today, goggle-eyed over the prospect of seeing production methods of California farmers.

If a movie star happens to meet him on the street, Dale said he would be mildly interested. What he intends to do on the three-week trip is find, if possible, new ideas he can put into effect in Indiana farming.

Dale is the son of Mr. and Mrs. Moses Pruitt, R. R. 10, Box 252-B. He has been a farmer in spirit, he thinks, since he was born, and a farmer in fact since he was 9. He won the trip for being one of the three best 4-H Club judges of dairy cattle in the State. The other two will make the trip with him.

Eight years ago, Dale swapped a \$30 cow given him by his father,

## I. U. MEDICAL CENTER BEQUEST IS CLEARED

A trust fund willed to the Indiana University Medical Center here was cleared of legal obstacles today.

The Indiana Supreme Court upheld provisions of a will in which Guilford A. Deitch, Indianapolis attorney, set up a trust fund for the medical center before his death in 1931. The fund is said to be near \$350,000.

The case had been appealed from Marion County Probate Court, where relatives of Mr. Deitch opposed provisions of the trust agreement.

Under terms of the will, university trustees were to receive the trust fund upon the death of certain relatives who were to get incomes from it during their lifetime.

The medical center includes James Whitcomb Riley Hospital, Coleman Hospital for Women and the Robert W. Long Hospital.

## \*FOOTNOTE FROM THE WORLD'S GREATEST FLIGHT LOG

More flying experience... more total traffic than any other airline, anywhere! And every day adds another 55,000 miles to the world's record established by United Airlines.

If you drive a car, you can imagine it takes a heap of power—dependable power—to boost 24,000 pounds of Mainliner sky-high, and propel it through the air at 200 miles per hour! And for eleven years running, Standard's Aviation Gasoline has been delivering the unfailing performance required by the overnight coast-to-coast schedules of United Airlines.

Between these lines the thrifty car-owner will read an important lesson in motoring economy. For the Solite, Red Crown, and Stanolind Gasolines you buy from your regular Standard Oil Dealer have that same low-cost-per-mile dependability which has made Standard's aviation gasoline the first and exclusive choice of United Airlines.

## INDIANA'S WPA MUSIC PROJECT TO START SOON

Program Here Includes Playing and Teaching in Public Schools.

The Indiana WPA Music Project for 1939-40 will start in a few weeks with a series of musical programs and instructions in Indianapolis and 11 other cities, William I. Pelz, state supervisor, said today.

The project, approved recently, calls for expenditure of \$175,000 by the WPA and \$45,000 by sponsors. The state sponsor is Indiana University. Musical organizations in cities where the project will operate will serve as co-sponsors, Mr. Pelz said.

The contemplated program in Indianapolis includes the playing and teaching of music by WPA orchestras and bands in assembly periods in public schools. A series of chamber music concerts this winter and a series of band and orchestral concerts next summer in the public parks also is planned.

In addition, Mr. Pelz said, choral groups will be organized under direction of the WPA and will give recitals in various communities.

Group orchestral and instrumental instruction will be given to persons who certify they are without means to take private lessons, he said.

Other cities where programs will be carried out are Evansville, Clinton, Kokomo, South Bend, Ft. Wayne, New Castle, Elwood, New Albany, Bedford, Decatur and Vincennes.
