

## DRIVERS NOW IN MOST PERILOUS PERIOD OF YEAR

Capt. Johnson Urges Extra  
Caution During November  
And December.

Capt. Lewis Johnson, head of the Accident Prevention Bureau, today urged Indianapolis motorists to drive slower and more carefully during this month and December, "the two danger months of the year."

Capt. Johnson pointed out that earlier darkness, wet pavements and bad visibility are prevalent in these months, and that records of the past years show that accidents and traffic deaths increase during this period.

## Two Killed Last Month

Last month two persons were killed by automobiles while six died in October last year.

The total fatalities for 10 months last year was 53. This year the record stands 12 below that figure.

"The utmost vigilance on the part of the police and the co-operation of Indianapolis motorists may help us reduce our traffic fatality record," Capt. Lewis said.

The number of accidents recorded for October, 1939, is 778 as compared to 831 accidents during October, 1938.

## Every Accident Recorded

This difference is not an actuality but a matter of recording, he explained.

Last year only the more serious accidents were recorded and this year every accident that comes to the attention of the police, no matter how slight, is permanently recorded, he said.

## 'SILENT' WITNESSES TESTIFY FOR G. M.

SOUTH BEND, Ind., Nov. 2 (U.P.)—The defense was expected to continue its parade of "silent" witnesses in Federal Court today at the trial of General Motors, G. M. A. C., two affiliated companies and 17 officials on charges of violating the Sherman Anti-Trust Act.

Yesterday 44 "silent" defense witnesses appeared, all General Motors dealers. They were permitted to tell only their name, address, business and how long they had been in business to the jury, and the rest of their testimony was solely for Judge Walter Lindley and the record.

They were allowed to testify for the record in the event of an appeal from the jury's decision. Judge Lindley sustained Government objections that their testimony was irrelevancy.

The defense called William Nichols of South Bend, a Pontiac dealer, in an effort to refute testimony given earlier for the Government by F. L. Mendez, also of South Bend.

In 1888 it was changed to a weekly and in 1887 the name was changed to the Octographic Review. In 1920 it became the Apostolic Review.

MT. VERNON, Ind., Nov. 2—L. & N. Railroad station officials want it clearly understood that they are not operating a post office.

As an accommodation, the station has been taking letters for mailing after the post office has been closed. The convenience to letter writers placed a burden on station employees and interfered with their work.

A joint announcement of the Mt. Vernon post office and the L. & N. station cautioned that if mail continues to pour in in such large amounts, the station would be forced to dispense with the accommodation.

This led to his identification as David Ullery, 28, of near Evansville, and he was taken home.
