

## FARM ECONOMY BLOCS TIGHTEN LINES IN HOUSE

Prepare for Fight on Bill Cut  
154 Millions; Showdown  
Due Tomorrow.

WASHINGTON, Jan. 31 (U. P.).—The Congressional farm bloc and economy advocates today prepared for a final fight on the Agricultural Appropriation Bill which has been cut \$154,530,263 below President Roosevelt's 1941 "bed rock" budget. The showdown comes tomorrow when final House action is expected.

The bill, carrying appropriations of \$834,392,265, was reported to the House yesterday by its Appropriations Committee.

The huge farm cuts tossed into the House an issue loaded with political dynamite. Facing a campaign year, many members are reluctant to vote against farm interests. But they are attempting to set economy records and a vote to restore farm funds would embarrass them too.

House farm leaders conceded that the committee's elimination of \$72,678,812 in funds for the Surplus Commodities Corp., which involves the New Deal's food stamp plan, could not be replaced. They planned, however, to conduct a strenuous campaign to reinstate:

1. \$47,975,000 for payments under the 1937 Sugar Act; (2) \$25,000,000 for farm tenant loans; (3) \$1,000,000 for soil conservation; (4) \$500,000 for development of waterway facilities in arid and semi-arid regions.

The committee made no provision for farm parity payments. The farm bloc plans to let the Senate provide for parity payments and then battle to retain them when the measure returns to the House.

### Bill to Aid Finns Given Right-of-Way

WASHINGTON, Jan. 31 (U. P.).—The Senate Foreign Relations Committee decided today to act on legislation designed to aid Finland before considering proposals to place embargoes against Japan.

This afternoon the committee was to hear Jesse Jones, Federal Loan Administrator, testify on a plan to add \$100,000,000 to the Export-Import Bank's revolving fund. The increase would enable the bank to increase its loans to Finland for non-military purposes.

Chairman Key Pittman said that some representatives of the State Department also may appear. Senator Frederic B. Feiler (D. Ind.) was named on a subcommittee to consider proposals to invoke the U. S. neutrality act against Japan and China and against Russia and Finland.

Chairman Key Pittman (D. Nev.) said the State Department will be heard before any action is taken on the Export-Import Bank Bill, which already has been approved, 18 to 2, by the Senate Banking and Currency Committee.

### 2 Factors Blamed in NLRB Difficulties

WASHINGTON, Jan. 31 (U. P.).—Chairman J. Warren Madden told the House today that the National Labor Relations Board today had most of the Board's difficulties attributable to organized opposition to the Wagner Act and the A. F. of L.-C. I. O. split.

The Board is being permitted to conduct its own defense against charges made during a month's hearing on Board operations.

The labor split stimulated "economic jealousy" and "put the Board in the ungenerous position of having to judge in a civil war in the labor movement," he said.

Manufacturers, he said, "felt it their duty to repudiate the law" and sought to enjoin the Board "from even holding hearings to bring out the facts about a respondent's business." And the "fact," he said, "that the Board 'took cases for unions that had been expelled from the A. F. of L.' created resentment in the A. F. of L."

## Indorse Appreciation Plan

Among the members of the Board of Directors of the Indiana Federation of Clubs which yesterday indorsed the state-wide music appreciation campaign are (left to right) Mrs. O. R. Reese, 12th district president; Mrs. C. Allen, Ft. Wayne, state treasurer; and Mrs. W. D. Keenan, Indianapolis, 2nd vice president.

## WOMEN PLEDGE MUSIC SUPPORT

Assert Symphonic Records Would Enrich Hoosier Home Life, Education.

(Continued from Page One)

dinner, but we hope that they will honor us with their presence later in the evening in order that they may hear the speeches which will begin promptly at 8:30.

The national committee's program may be carried over the radio on schedule, the committee requests that the dinner guests will make every effort to be seated by 7:15.

Several members of the Club's Board said that they had long hoped that symphonic records could be provided to familiarize the thousands of Hoosier families with classical music. They asserted that this would enrich home life and educational movements of all kinds.

The national committee's program makes available to every family of the state 10 of the world's greatest symphonic masterpieces in recorded form at an "incredibly" low figure. Entire symphonies of three or four movements may be obtained for less than the usual price for a single commercial record, leaders of the campaign said.

The national committee, working here with the Indiana group headed by William H. Ball, Muncie, said that only by giving the masses of America an opportunity to hear over and over the greatest music of the ages, can the true understanding and appreciation of that music be achieved.

Distribution of these records will begin shortly from a downtown office, the location of which will be announced within a few days.

Interest on the part of groups and organizations in the music appreciation movement is noted throughout the State. Mrs. H. H. Arnold, state organizer for the national committee, soon will begin a speaking tour before club groups in cities and towns throughout Indiana.

Marked interest has been shown by the residents of Muncie, the home of Mr. Ball. Wherever the plans for the campaign have become known, they have met with enthusiasm, officials said.

The national committee program include John Erskine, author and educator, and Dr. Howard Hanson, president of the Eastman School of Music in Rochester, N. Y.

## DEFIANT TALKS REKINDLE WAR FEAR IN EUROPE

Leaders Exchange Challenges; Allies Ready for Nazi Push in Spring.

phasis on friendship with Russia because Fascist policy is consistently anti-Communist.

Fascists approved Herr Hitler's condemnation of the democracies, the Versailles Treaty, and the alleged betrayal by England and France of their "promises" to create a "new Europe" after the World War.

The little nations studied the speeches of all leaders closely for new threats to their neutrality and further inspected their preparations for defense.

### Copenhagen Drives Off Plane

At Copenhagen, a German plane flew to within three miles of the capital, was fired on by Danish anti-aircraft guns and drew representations from the Danish Government to Berlin. Appearance of the plane increased the nervousness of the smaller capitals.

The plane approached Copenhagen from the south (from the sea) at 10:05 a. m. (3:04 a. m. Indianapolis Time). Guns of Ft. Middelgrund, three miles east of the city, opened fire and the plane flew off to the north which would also take it to the sea.

The fort protects the Danish straits opposite Sweden. At Bucharest, it was understood that more men were being called up for training than at any time since the Russian Revolution.

The plane approached Copenhagen from the south (from the sea) at 10:05 a. m. (3:04 a. m. Indianapolis Time). Guns of Ft. Middelgrund, three miles east of the city, opened fire and the plane flew off to the north which would also take it to the sea.

## First Lady Cuts F. D. R.'s Party Cake

Mrs. Franklin Roosevelt is shown cutting herself a piece of birthday cake at the party given in honor of President Roosevelt's 58th birthday anniversary in the Mayflower Hotel in Washington, D. C., while movie starlet Gloria Jean looks on.

## \$1,500,000 AID TO FUND SEEN

President Gives Thanks on Radio as Thousands Mark His Birthday.

(Indianapolis Celebrates, Page 9)

WASHINGTON, Jan. 31 (U. P.).—The nation-wide celebration of President Roosevelt's birthday was expected today to provide \$1,500,000 for the fund to fight infantile paralysis.

Hundreds of thousands danced last night "so that others might walk" at thousands of birthday balls in honor of the President's 58th birthday. The festivities were climaxed shortly before midnight when Mr. Roosevelt, in a five-minute "thank you, and God bless you" radio message to the nation, expressed appreciation for the contributions at the balls and to the "mile of dimes" campaign.

Mr. Roosevelt said that he hoped the goal of the annual celebrations eventually would be "the care of all crippled children, no matter what the cause of their crippling."

First Lady Cuts Cake  
"No nation in the world has ever put a larger volunteer army into the field than the army of Americans which tonight is taking part in the defense of American childhood," he said.

While the President spent a quiet evening at the White House with a group of old friends, his wife and 18 motion picture, radio and stage stars were the center of attraction at the six major balls held in Washington tonight. A few moments after the President's speech, Mrs. Roosevelt cut the first slice of her husband's four-decker, 312-pound, red, white and blue birthday cake at the Mayflower Hotel.

Approximately 15,000 Washingtonians attended the local balls and many of them followed the celebration from one hotel to another as they made the rounds for personal appearances.

Mother Does Honors  
Outstanding of the other balls held in virtually every sizable city in the country were those held at New York's Waldorf-Astoria and Concourse Hotel where Mrs. Roosevelt cut her son's birthday cake.

Another notable celebration was that in Manila, the first held in any city under the American flag because of the time differential.

In Chicago, 4,000 persons paid \$5 each to dance at the Drake Hotel, while 55 tables in the hotel's Gold Coast Room were sold at the rate of \$100 a table.

The Germans crept forward under protection of their artillery, it was said, and French batteries were repulsed by machine gun and trench mortar fire, it was said.

Frontier Deal Falls  
Failure after nine weeks of negotiations to delimit the Manchukuo Outer Mongolia frontier was announced today by Yabeichiro Suma, spokesman for the Foreign Office in Tokyo.

Suma said Japanese, Manchukuoan and Mongolian and Russian delegates meeting at Harbin, Manchukuo, had admitted their inability to agree and announcing the cessation of their negotiations.

In confessing this failure, Suma said progress was being made in commercial negotiations now proceeding with Russia at Moscow.

## Red Air Force Is Well Trained But Inaccurate

By WEBB MILLER  
United Press Staff Correspondent  
WASH. FINISH ARMY, IN THE FIELD, Jan. 31 (U. P.).—

Finland pilots for two months have been investigating at first hand one of Europe's greatest military mysteries—the fighting power of the Soviet Russian air fleet.

This week several of them told me their conclusions, which may be summed up in one sentence: The Russian airplanes from a technical standpoint are excellent and many of their pilots are well-trained and highly competent, but they rank low in accuracy of bombing and machine gunning.

The men who agreed on this conclusion not only had risked their lives in testing the Red Air fleet units over Finland, but are perhaps the only men outside of Russia who have any sound knowledge of the performance of Soviet airplanes under actual war conditions.

The guessing game which many European and other aviation experts have been engaged in for several years regarding the Red Air fleet pales beside the testimony of the Finnish pilots.

The quality of the Russian planes is good, these pilots said, and their performance generally is excellent. It is possible that the best planes of Germany or Great Britain excel the Red craft but the Russian fighters are definitely not second-rate.

NAZI NEWSPAPERS RALLY TO FIGHT CRY  
BERLIN, Jan. 31 (U. P.).—Inspired Nazi newspapers took today as the keynote of Adolf Hitler's anniversary speech last night.

The newspapers declared that Hitler would "live" and would fight until his "rights" were won.

Voelkischer Beobachter, official newspaper organ of the Nazi Party, headlined in red ink across its first page "They Will Get Their Fight!" and said in subsidiary headlines: "Adolf Hitler's Reply to Chamberlain and Daladier: There Can Be No Agreement Without Achievement of Our Rights."

Herr Hitler had broken a silence of more than two months to make a speech to a hurried assembly of German civilians in the sports palace on the occasion of the seventh anniversary of his accession to power.

Political quarters, discussing last night's speech, called it "particularly noteworthy" because of the bitterness with which he spoke of Prime Ministers Neville Chamberlain and Edouard Daladier of Great Britain and France, and because he attacked France as bitterly as he did Britain, thus departing for the first time from his policy of centering his attacks on Britain and almost ignoring France's part in the war.

PIANISTS' DEATH LAID TO PSYCHIC TURMOIL  
NEW YORK, Jan. 31 (U. P.).—The "psychic turmoil" that a music critic noted in Alexander Koberline's Town Hall recital last Saturday, was blamed today for the pianist's death.

Reporting on the recital, Robert Lawrence, critic for the New York Herald-Tribune, wrote of Mr. Koberline's playing: "Distortions of rhythmic patterns, blurred pedal effects and exaggeration of inner voices."

"It was not lack of musicianship so much as a psychic turmoil that seemed to be reflected in Mr. Koberline's performances."

Last night neighbors found Mr. Koberline dead in bed from an overdose of sleeping tablets.

PAINT CONCERN BURNS  
LOUISVILLE, Ky., Jan. 31 (U. P.).—Fire that destroyed the four-story Marks Paint Co. building caused damage estimated at \$30,000. One fireman was injured at the fire last night.

Chief Jailer Thomas Sullivan made a check and found no one had turned in the alarm.

"I guess," he said, "after an exhaustive survey, that it must have been a mouse. A mouse probably bit the wire some place, and shorted it, causing it to flash on the police board. The mouse must have been in the cellar, where he had no business to be."

He thought a moment. "We've got to do something about this. Somebody call the police."

They did, and told the Gamewell Division to come on down and find out where and how the mouse crossed everybody up.

## U. S. GRAND JURY INDICTS 5 HERE ON WPA COUNTS

Brown, Eickhoff, Jefferson, Miss Claypool and Kortepeter Named.

(Continued from Page One)

road, known as Maynard Drive, about half a mile long between Orinco and Shelby Sts. just north of Southport. According to Mr. Nolan, Maynard Drive runs through a 32-acre field, the title of which is held in Mr. Brown's name. It cost the Government, said the District Attorney, about \$10,000 and included sidewalks, curbs, gutters and driveway entrances into unimproved lots.

In the second indictment, Mr. Eickhoff, Mr. Jefferson and Mr. Kortepeter are charged with the unlawful diversion of WPA labor to the amount of \$80,000 for the construction of Minnesota St. between Arlington and Emerson Aves. and Ritter Ave. between Southeastern Ave. and Minnesota St.

The indictment charges that WPA labor also was used to construct bridges on both streets and also a dam and lake off Ritter Ave. on land owned by the Eickhoff Realty Co. Mr. Nolan said Mr. Jefferson was an agent for the Eickhoff Realty Co.

The District Attorney said that all these improvements were made under WPA projects which did not provide specifically for such improvements.

Given Additional Reports  
Mr. Nolan also said that all the work alleged in both indictments was performed while Mr. Kortepeter was Marion County WPA co-ordinator. Mr. Kortepeter resigned his WPA post on Feb. 17, 1939, asserting that John C. Jennings, State WPA Administrator, had complained that he "established too close a relationship with the sponsors of projects."

The conviction of Mr. Kortepeter and Mr. Derbyshire last December was based on the construction of Loretta Ave. and Fable Ave. on Mr. Derbyshire's farm near Southport. The District Attorney announced that WPA investigation agents had provided him with additional information on other alleged unauthorized WPA projects, but said he did not know if or when these matters could be presented to the Grand Jury. The Jury, after returning the indictments today, recessed until March 11.

'BLOOD TEST' CASE RULING TOMORROW  
A disputed paternity case involved in a divorce action is to be considered again tomorrow by Superior Court Judge Henry O. Goett.

The solution of the disputed paternity in the case hinges on a blood test made by Ohio State University experts. The results have been received by Judge Goett but will not be disclosed until tomorrow.

The case began as a routine divorce proceeding. When the question of the custody of the baby was raised, the mother charged her husband was not the child's father. Because the legitimacy of the child then became an important factor, Judge Goett obtained agreement of all parties to submit to a blood test.

The blood specimens taken from the mother, the two men and the child were sent to Dr. Harriet S. Hymen, Columbus, research geneticist at the Ohio State University.

MRS. TAFT'S CAR ROBBED  
WASHINGTON, Jan. 31 (U. P.).—Mrs. Robert A. Taft, wife of the Senator from Ohio, has reported to police that thieves stole two watches from the glove compartment of her automobile while it was being repaired in a garage. The watches belonged to her sons.

The survey is expected to be completed within three months.
