The previous all-time high was the 1937 total of \$8,500,000. The payment for 1938 totaled \$7,900,000. At this time about one-quarter of the payments have been tabulated. They show an increase of \$216,853 over a similar period in 1938.

Through this day last year, 121,187 returns had been received, as against a 122,853 total today.

During the last eight days an average of 400 returns a day have been turned in at the cashier's window at 141 E. Meridian St. The deadline for payment was midnight last night. A 10 per cent penalty and 1 per cent interest will be added to all returns made later.

Farmers Force Clearing Of Snow-Blocked Road

LAKE CITY, Mich., Feb. 1 (U. P.).—Eighteen miles of snow-clogged highway was cleared early today under the supervision of 250 angry farmers.

The road had been blocked for days while County and State authorities disputed over whose responsibility it was to clear it. Several hundred residents were practicing isolation. In several instances, physicians had been unable to reach their patients, one woman gave birth to a baby without medical assistance, and stock was jeopardized because farmers couldn't get to town to get feed.

Last night, the farmers broke into the State's garage here and rolled out three snow plows. Then they went to the County garage and got four more. By last time, Sheriff Mead Burket appeared and he insisted the farmers confer with State Superintendent George Morrison and County Superintendent Claude Corliss.

In the presence of their angry constituents, the two officials compromised their dispute by each providing one plow and a crew.

The road was recently dropped by the State Highway Department as a trunk line, on the grounds that its traffic was not heavy. The state maintains trunk lines; the counties all other roads. In this case the county refused to accept the changed designation and the dead-end road resulted.
