

NLRB Handles 28,132 Cases, 3157 Elections in Five Years

WASHINGTON, July 5 (U. P.).—The National Labor Relations Board announced today on the fifth anniversary of the Wagner Labor Law that 1,153,819 valid votes were cast in 3,157 collective bargaining elections from July 5, 1935 to June 1, 1940.

The board said it has handled 28,132 cases, involving 6,140,000 workers, between the effective date of the labor law and the end of May this year. The cases included charges of unfair labor practices as well as petitions for bargaining elections.

A total of 2768 strike cases, involving 441,085 employees, were handled during the past five years. Three-fourths of them were settled and 272,136 workers were reinstated after strikes and lock-outs. An additional 20,370 employees were discharged discriminatorily for union activities.

The board reported that the labor act's machinery was effective in averting 838 threatened strikes involving 192,967 workers.

71% APPROVE OF KNOX, STIMSON IN U. S. CABINET

Majority of Republicans O. K. Action; Some Fear War Attitude.

By DR. GEORGE GALLUP
Director, American Institute of Public Opinion
PRINCETON, N. J., July 5. — President Roosevelt's nomination to his Cabinet of two prominent Republicans, Col. Frank Knox and Henry L. Stimson, meets with the overwhelming approval of voters polled throughout the country by the American Institute of Public Opinion.

Col. Knox and Mr. Stimson, named as Secretary of the Navy and Secretary of War, respectively, were questioned early this week before Senate Committees. If confirmation of their appointments had been left to the people, the poll indicates that it would have been approved by a vote of more than 7 to 3. Of course, the survey does not measure the public reaction, if any, to statements made by Col. Knox and Mr. Stimson before the Senate Committees.

While many of the President's Republican opponents have criticized the appointments on the ground that they were merely a political gesture, the survey shows that this is not the view taken by the general public.

The President's action is approved not merely by the rank and file of Democrats in the poll, but, likewise, by a majority of Republican voters with opinions on the issue.

Interviewers asked a cross-section of voters this question:

"President Roosevelt has named two Republicans, Frank Knox and Henry Stimson, to be secretaries of Navy and War in his Cabinet. Do you approve or disapprove of his action?"

Those expressing an opinion voted:

Approve 71%
Disapprove 29%

Approximately one voter in four (25 per cent) expressed no opinion on the President's action.

Despite a recent statement by John Hamilton, virtually reading Mr. Stimson and Col. Knox out of the Republican Party because of their appointment to the New Deal Cabinet, the rank and file of G. O. P. voters with definite opinions on the subject approve the two appointments by a comfortable majority.

Approve Ap- Dis-
pointments approve
Republicans ... 57% 43%
Democrats ... 85 15

The minority's group who express disapproval of the appointments bring forward two arguments—that Col. Knox and Mr. Stimson are "interventionists" and that their appointment is purely a political move on the part of the President. In this group are many who fear that with Col. Knox and Mr. Stimson in the Cabinet, the nation is more likely to get into war.

Opinion on the new Cabinet appointments falls into two distinct categories. The larger group of voters attributes high motives to the President's action, praising it as a move toward unity in a national crisis and praising the appointees as capable men of high caliber.

1% IS DIVIDEND PAID BY HOME LOAN BANK

Checks for \$47,464 were mailed to 2214 institutions today as the Board of Directors of the Federal Home Loan Bank of Indianapolis declared a 1 per cent dividend as of June 30.

It was the bank's 15th consecutive dividend since its organization in October, 1932. Dividends paid since that time total \$954,500, according to Fred T. Greene, president.

Was It Repaired?

Where Raymond St. and Bluff Road cross, 'tis rough the motorists say. Rougher, they insist, and dustier than the intersection was several days ago when it closed for—guess what?—repairs.

Hoosier Goes On CORNCOB OR BOMB?

But Editor Gets Last Word—Lizton Has It Over Us—Rushville C. of C. Neutral

By JOE COLLIER

It's a significant thing, we suppose, that a familiar humdrum thing—like a corn cob on a farm—becomes a storm center when it masquerades.

But that, it seems, is what happened last week at Danville. The editor of the paper there printed a story that a "bom" found by Frank Horn at the back steps of his farm home near Amo, had been inspected there by the sheriff and found to be a corn cob wrapped in paper.

Promptly upon publication, into the office burst 17-year-old Mary Jane Horn, angry beyond her years, who said, among other things:

"The bomb wasn't found near the back steps, but instead in the back yard near the garage. Furthermore, Dad didn't find it, mother did. Not only that, it was a real bomb, because the sheriff said it was. And in addition to that, Dad didn't call the sheriff, but took the bomb to him here in Danville."

She then left. The editor, assuring his readers that his life is not a bed of roses, said he still believes it was a corn cob, because the sheriff told him so.

If anything more comes up on this, we'll let you know.

NOTE to Indianapolis Medical Society.

The following item appeared in a Lebanon newspaper:

"Simmie Odum, Lizton, was transferred from an Indianapolis hospital to the Witham Hospital today for medical care."

The Rushville Chamber of Commerce is in a ticklish spot. Non-political in character, thought and deed, the Chamber is sponsoring the placing of Wendell Wilkie cards in store windows and other places.

The C. of C. has rushed to point out that the cards simply call attention to the fact that Mr. Wilkie is a successful Rush County farmer and that he owns real estate nowhere else in the world.

Business is business.

ONE of the most prominent citizens of Delphi, these days, is Mabel Fraser, back from the Republican National Convention at

WOMEN TOTAL 28% OF WORK SEEKERS HERE

Percentage for City Higher Than in Any Other Part of State.

A larger percentage of Indianapolis women want jobs than in any other part of Indiana.

Twenty-eight per cent of the applicants for jobs here are women, the field office of the State Employment Service reports. At other field offices in the state only 21.5 per cent of the applicants are women.

Two reasons are offered for the difference.

Larger and more diversified industries here offer more opportunities for women who come from rural areas seeking work.

Higher living costs here make it necessary for more wives to work.

Here Are the Figures

Regardless of the reasons, here are the figures:

In Indianapolis, 13 per cent of the applicants for industrial jobs are women; in the rest of the state only 9 per cent of the applicants are women.

In the state outside Indianapolis, 60 per cent of all applicants for clerical jobs are women; here 64 per cent of all these applicants are women.

Outstate, women constitute 41 per cent of the applicants for sales jobs; locally, they are 44 per cent of these applicants.

43 Per Cent Under 20 Are Girls

Fourteen per cent of those seeking professional jobs in the offices outside Indianapolis are women; 17 per cent of the applicants for professional jobs here are women.

Finally there is this set of figures, for which comparisons with the rest of the state are not available. A total of 43 per cent of all job seekers

ers under the age of 20 here are girls, but only 32 per cent of those between 20 and 29, only 28 per cent of those between 30 and 39, and only 23 per cent between 40 and 49 are women.

This means either that girls start to work at an earlier age, quit work sooner or both.

Between 50 and 59, there is a jump back up, and 29 per cent of the job seekers in the 40s are women with widows apparently making up the difference. Over 60, only 3 per cent of the job seekers are women.

HAPPY AND STRONG AGAIN, MRS. ALFORD PRAISES RETONGA

Mrs. Effie Alford

Had Suffered So Much That Life Was One Miserable Day After Another, She States. Digestion Fine Now; System Regular; Feels Fine.

Retonga has proved a blessing to hundreds of men and women in the prime of life who found themselves suffering from a rundown, weakened condition, constipation, sore muscles and stiff joints from poisonous wastes in their systems from sluggish elimination, frequent getting up nights, loss of appetite, weight and strength, and similar debilitating inorganic complaints. According to their own happy and voluntary statements, Retonga promptly overcame these troubles and brought them splendid strength. For instance, Mrs. Effie Alford, 348 N. Noble St., Indianapolis, well loved housekeeper at Sunnyside State Hospital, states:

"I was obliged to take harsh purgative for stubborn constipation, and between the cramps and the upset condition of my stomach, life was made miserable for me. Food soured in my stomach. I suffered almost continuously from racking headaches that were so severe at times I could hardly think, and I worried so much over my condition that I almost put myself in bed for good. My rest at night was frequently broken and my nerves were in such bad condition that my hands and feet jerked and every little thing upset me.

"Retonga stopped these troubles and built me up so quickly I was astonished. I feel perfectly well now and words cannot express my gratitude to this wonderful medicine."

Start on this famous Retonga today. You are invited to talk freely with the special Retonga representative at Hook's Dependable Drug Store, southeast corner of Illinois and Washington Sts., without obligation. Retonga can be obtained at all Hook's Dependable Drug Stores. \$1.25 size, 60c.
