

MARMON HOME ON N. DELAWARE IS PURCHASED

University Club to Move From I. A. C. to New Quarters in Fall.

The palatial home of the late Mrs. Elizabeth Marmon at 970 N. Delaware St. will become the home of the University Club whose first president was Benjamin Harrison, 23d President of the United States.

Mr. Harrison's own home was four blocks up Delaware St. from the Marmon residence.

The University Club Realty Co., Inc., has been formed to acquire the property. The transaction will be completed later this month. The home, with slight remodeling, will be ready for occupancy this fall, incorporators said.

Thomas D. Stevenson, attorney, is resident agent. Incorporators are Edward J. Bennett, Austin H. Brown, James F. Carroll, Robert B. Fahey and John T. Jameson.

Realty corporation directors are Frederick G. Appel, Lyman S. Ayres, Mr. Jameson, Sylvester Johnson, Nicholas H. Noyes, Samuel R. Sutphin.

The club was organized in 1894. It formerly occupied the three-story brick and stone building on the southwest corner of Meridian and Michigan Sts., a landmark which has been razed. Since 1934 the club has occupied the top floor of the Indianapolis Athletic Club.

Club officers are Robert F. Scott Jr., president; Mr. Appel, first vice president; Mr. Carroll, second vice president; Herbert J. Reade, secretary; Arthur A. Stetler, assistant secretary, and Thomas D. Sheerin, treasurer.

Directors are Mr. Scott, Oscar F. Welborn, Mr. Reade, Mrs. Stevenson, Mr. Appel, Mr. Noyes, Mr. Sheerin, Alex. L. Taggart, Mr. Carroll, Walter W. Kuhn, Eugene C. Miller and Mr. Fahey.

AUTO STRIKES BIKE, GIRL'S LEG BROKEN

Twelve-year-old Helen Shannon, 2369 Adams St., was struck by an auto as she emerged from a wooded trail on her bicycle into the 3000 block of Brookside Parkway, South Drive, last night. She is in City Hospital with a broken leg.

Mrs. F. L. Glass and Mrs. Ella K. Glass, 1143 Hoyt Ave., were injured in a two-car crash at Arlington Ave. and E. 10th St. They are in City Hospital with back injuries. The cars were driven by Walter Glass and Clarence Hansen, 16, R. 10, Box 523E.

Ernest Cassidy, 20, of 842 S. Capitol Ave., and his motorcycle passenger, Miss Hilda Groover, 15, of 512 Exeter Ave., were injured when their cycle struck an auto at 50th St. and Kessler Blvd. They are in City Hospital.

TEETOR SAYS C. I. O. COVERED UP TRUTH

The Indiana C. I. O. has made a "bald-faced misrepresentation" in its fight against the Smith amendments to the National Labor Relations Act, Lathair Teetor, president of the Indiana State Chamber of Commerce, charged in letters to Indiana's U. S. Senators.

The letters to Senator Sherman Minton and Senator Frederick Van Nuys urged them to work for the passage in the Senate of the amendments which have passed the House 2 to 1.

In a covering letter to the state C. I. O. membership, Mr. Teetor said that it is "merely cowardice" that is holding up the amendments in committee.

TRUCKING STRIKE ENDS
DETROIT, Aug. 2 (U. P.).—An intra-city trucking strike which for two weeks tied up industrial transfer hauling ended today when the last 200 strikers went back to work under an agreement which gave them wage increases ranging from 2 1/2 to 15 cents an hour.

Minton and Others Hear Marshall Testify

Gen. George Marshall, chief of staff of the Army, tells the Senate Military Affairs Committee that he favors legislation which would permit the President to call the National Guard and Organized Reserve Corps for a year's intensive training. Reading left to right around the table are: A reporter; Senator Rufus C. Holman (R. Ore.); General

Marshall; Senator Styles Bridges (R. N. H.); Senator Warren Austin (R. Vt.); Senator Morris Sheppard (D. Tex.), chairman of the committee; Senator Chan Gurney (R. S. D.); Senator Elbert Thomas (D. Utah); Court Reporter; Senator Edwin Johnson (D. Colo.); Senator Sherman Minton (D. Ind.); Senator H. H. Schwartz (D. Wyo.); and Senator Lister Hill (D. Ala.).

CRUM DENIES MALPRACTICE

Charges Filed by Business Bureau Inadequate, Naturopath Says.

The malpractice charges filed by the Better Business Bureau with the State Medical Board of Registration and Examination against Dr. Hiel Eugene Crum contain no statutory grounds for the revocation of his license, the doctor asserted today.

Dr. Crum, who practices without use of drugs, declared in an answer filed with the board that the entire argument of the Bureau was based upon the allegation that the naturopathic machine which he uses had no therapeutic value. He said there was no criticism of his character. To show that many people had benefited from his treatment, the doctor filed affidavits by 400 persons who said they had been treated successfully by him.

Dr. Crum has licenses to practice chiropractic, naturopathy and electrotherapy. The Better Business Bureau is asking the revocation of these licenses.

A hearing on the charges will probably be held late this month, board officials said.

U. S. Studies Action Against 81 Aliens Seized in Panama

WASHINGTON, Aug. 2 (U. P.).—Civil and military authorities today sought to learn the character background and nationality of 81 foreign agents detained in the Panama Canal Zone on charges of entering the area illegally.

Officials studied their cases to determine whether they should be deported direct from the Canal Zone, brought to the United States for hearing before the Immigration Service, or held for "other disposition."

Secretary of War Henry L. Stimson, who announced the detentions yesterday, did not give any details. It was learned, however, that Army and Justice Department officials will confer today on problems arising from the roundup.

In making the announcement, Mr. Stimson denied that aliens are employed on defense projects on the Isthmus.

"There are no persons working on fire control equipment in the Canal Zone other than American soldiers or American engineers," he continued. "Under the law, these individuals must be American citizens and their citizenship and affiliations have been carefully investigated by military authorities."

Under a law enacted last June, all Federal jobs must be filled in the Canal Zone by United States citizens or Panamanians by May 1, 1941.

Earlier this year agents of the FBI visited the Canal Zone to check on the spy and sabotage situation. They reported to President Roosevelt who later made a personal inspection tour of the Canal's defenses.

Big Gen. George V. Strong, chief of the war plans section, and other officers of the High Command have warned Congress in recent months that the greatest threat to the Canal is from the "inside" through sabotage. They said the "invisible danger" was more difficult to counteract than an outright attack or bombing raid.

The Army recently has been undertaking a vast strengthening of its forces in the Canal Zone. More than 20,000 soldiers are believed on duty there now.

TALK RECESS OF CONGRESS OCT. 1

Candidates for Re-election May Be Given Chance To Campaign.

WASHINGTON, Aug. 2 (U. P.).—Administration leaders were reported today to be planning a Congressional recess from Oct. 1 to about Nov. 15 to permit candidates for re-election an opportunity to campaign.

It was said that once the excess profits bill is disposed of Congress will have little to do. Leaders were said to be eager to avoid agitation for action of House-approved amendments to the Wagner Labor Act and other New Deal measures. Senator Walter F. George (D. Ga.), member of the Senate Finance Committee, said it would be "well into September" before the tax bill would pass. He added that he saw no reason why Congress should not adjourn after it is disposed of.

Senator Edwin C. Johnson (D. Colo.) predicted that the tax bill would get through Congress by Sept. 15.

2 PROFITS TAX DRAFTS STUDIED

Both Grant \$5000 Credit; Doughton Hopes to Open Hearings Next Week.

WASHINGTON, Aug. 2 (U. P.).—The House Ways and Means tax subcommittee studied the expert drafts of an excess profits tax today and planned to write a tentative bill within a week.

The proposals were prepared by the Treasury Department and the joint Congressional committee on internal revenue taxation. Both plans, the United Press learned, would apply only to corporations and would tax excess profits after granting a specific credit of \$5000. On most other particulars, however, they differ widely.

The subcommittee, headed by Rep. Jere Cooper (D. Tenn.) met for intensive work on the problem after the proposals were outlined before a meeting of the Ways and Means Committee by experts of the Treasury and the joint committee.

Defense Kept in Mind
President Roosevelt requested the legislation to assure that "no new millions" will be created in the course of the nation's huge preparedness program.

Ways and Means Chairman Robert L. Doughton (D. N. C.) announced after the committee meeting that the problem of amortization—the offering of tax inducements and compensation to industry for plant expansion in behalf of the national defense program—would be included in the measure to be prepared.

He said also that the bill would suspend existing profit limitations on two types of government contracts—airplane and ship manufacture—during the period in which the excess profits tax would be effective.

Hearings Next Week Possible
Under present law airplane and warship manufacturers must turn back to the Treasury all profits above 8 per cent on Government contracts. The House has approved a measure raising the figure to 12 per cent in the case of airplanes.

Mr. Doughton hopes public hearings on the excess profits measure can be started by the middle of next week and advised persons interested to make preparations now to testify.

The Treasury plan, it was learned, would use a graduated excess profits tax rate ranging from 25 per cent up to 50 per cent. The plan prepared by the Congressional experts proposed a 40 per cent rate on net income in excess of a national defense profit credit.

Men Hire R. R. For 24 Hours

BRIDGETON, Me., Aug. 2 (U. P.).—Eight men whose hobby is railroad have hired an entire railroad to run it as they please for 24 hours beginning at dawn Sunday.

The group includes one professional, Walter F. Tibbets, an engineer on a Needham, Mass., branch railroad. They will take over the 16-mile Bridgeton & Harrison Railway, one of two remaining narrow-gauge lines in New England.

Mr. Tibbets became enthusiastic at the idea of operating a railroad without division superintendent, time table or watch. He interested amateurs, including Henry McWay, superintendent of a Worcester, Mass., clothing mill, who will be fireman, and Charles C. Eddy, employee of the Interstate Commerce Commission, who will come from Washington by train.

KNITS LOCOMOTIVE
MIDDLEBURY, Vt., Aug. 2 (U. P.).—Louis E. Worden, a stationary engineer of Middlebury, delights in doing a bit of knitting. His latest creation is a miniature locomotive fashioned in yarn and complete in every detail except that it has no bell.

2 HOOSIERS NAMED ON FSA COMMITTEE

LAFAYETTE, Ind., Aug. 2.—Ardep Rhodes, Plymouth, and Floyd Moye, Poseyville, have been appointed to the Indiana State Farm Security Advisory Administration Advisory Committee.

Their appointments by Secretary of Agriculture Henry A. Wallace were announced today by Dr. Ernest H. Shideler, state FSA director.

Mr. Rhodes will succeed Arthur Arnold, Rensselaer farmer. Mr. Moye succeeds Frank Plass, Vincennes farmer and fruit grower.

For the past 11 years, Mr. Rhodes, who follows diversified farming, has kept records with the farm management department of Purdue University. Mr. Moye farms 121 acres jointly with his father. He has been chairman of the Ninth District Farm Bureau for several years and has been active in AAA and 4-H Club work.
