Here and there in the United States, notably in Texas and the West Coast, individual stations have renewed contracts with ASCAP (American Society of Composers, Authors and Publishers) and will not be affected by the ruling which bars ASCAP music from the networks after midnight tonight.

So far as known, however, no Indiana station has signed with ASCAP and until a settlement is reached between the warring factions the society's music will not be heard over the ether in Indiana.

Fifteen Indiana stations have signed with Broadcast Music, Inc., however, and will have access to the some 250,000 songs which the network's song source has added to its catalogue in the last year. This includes all three Indianapolis stations, WIRE, WFBM and WIBC.

Other Indiana stations which have signed with BMI are WHB, Anderson; WBOA, Evansville; WGL, Ft. Wayne; WIND, Gary; WIBC, Muncie; WFAN, South Bend; WBCW, Terre Haute; WTRC, Elkhart; WGBF, Evansville; WOWO, Ft. Wayne; WGRG, New Albany and WSBT, South Bend.

The list includes all but about five of the stations in Indiana.

Tomorrow's bowl games will be on the air starting at 1 o'clock and will continue well into the supper hour.

The four most important of these contests which close the curtain on the old season (or as some insist, ring the bell for the opening of the new), are to be aired on local stations or on some of the bigger outlets with reach of local dials.

WFBM is to carry the Mississippi State-Georgetown contest from the Miami Orange Bowl starting at 1 o'clock.

WIBC is joining the Mutual circuit to carry an account of the Cotton Bowl clash between Fordham and Texas A. & M., also starting at 1 o'clock. Bob Elson will give the play by play with Grantland Rice doing a fill-in between the halves.

WENR, Chicago, will broadcast the Rose Bowl game between Stan-

ford and Nebraska between 4 and 6:30. Bill Stern will be at the microphone.

The Sugar Bowl game at New Orleans between Boston College and Tennessee, will be available on WLS starting at 1 o'clock with Fort Pearson describing the proceedings.

WFBM and WIRE will remain on the air later than usual, tonight in order to bring local listeners coast-to-coast celebrations as the nation roars a greeting to the New Year.

WFBM will not sign off until 2 a. m., while WIRE will close up an hour earlier.

The New Year theme will dominate most programs during the evening. WMAQ, Chicago, is carrying a special Watch Night service starting at 10:30. The speaker will be Dr. Harry Emerson Fosdick and there will be music by the Riverside Church Choir, New York, and the Riverside Church carillon.

Kate Smith's daily broadcast of news and comment with Ted Collins has soared to high rankings among the daytime shows. Helen Hayes received a bicycle as a Christmas gift from her family. The famed actress always rides a two-wheeler on her marketing expeditions. Gabriel Heatter is convinced that he is carrying the good host business too far. Last week he had a kangaroo on his program and the animal had to be quartered close to the studio stage in a safe place. The only convenient place proved to be Heatter's dressing room which he shared with the animal. But never again, Gabe swears.

The new "Mary" on the Aldrich Family program is Mary Mason, tall and brunet, currently featured on Broadway in a revival of "Charley's Aunt." Despite the BMI-ASCAP scrap, "Your Hit Parade" is to be continued. At least that's a fair inference drawn from the renewal of Barry Wood's contract for an indefinite period. Barry is the singing star and master of ceremonies on the program.

Benny Goodman's orchestra has been engaged to play for the President's Birthday Ball at the official celebration in Washington. Incidentally, Benny signed up for another classical engagement. This will be Feb. 1 in Boston at Symphony Hall with violinist Joseph Szigot and pianist-composer Bela Bartok.

Raymond Massey, stage and screen star, and members of the Self-Employed Actors Association of Brooklyn are to appear as guests on tonight's "We the People" program, 8 o'clock, WFBM.

The Self-Employed Actors are elevator boys, clerks, stenographers during the day but at night use vacant lots for a stage and present original plays. Massey is to play the lead in one of their original stories.

Construction of this memorial to the memory of Nancy Hanks Lincoln, mother of the 16th President, will complete the development program of the Lincoln State Park and Nancy Hanks Lincoln Memorial at Lincoln City. This architect's drawing shows the north side of one of the buildings, work on which is to be completed by next Nov. 15.

Here are the plans for the memorial, showing the two buildings connected by a long covered archway. Walls of the archway will be decorated with scenes from Lincoln's life.

5TH OF ALBANIA UNDER GREEKS

Advances Generally Have Been Penetrations of The Mountains.

BELGRADE, Yugoslavia, Dec. 31 (U. P.).—A survey of the Greek-Italian war showed today that in two months the Greeks have captured one-fifth of Albania.

The Greek advances have consisted of a series of penetrations down the valleys in a generally northwesterly direction, following the principal mountain ranges which run north-west-south-east. Much broken mountainous terrain lies between the ranges and the various Greek units are separated by mountain passes. Hence there is no such thing, properly speaking, as a continuous front line.

The roads follow the valleys, but to control them the Greeks have had to conquer the heights that dominate them all the way. Greek strategy is based on a series of double envelopments rather than frontal attacks along the easier valley beds. This explains why Greek communications often delay several days in announcing the capture of a town—they wait until the surrounding heights have been secured.

The battle line may be defined as a series of points marking the spearheads of the advance columns, operating with more or less liaison and all integrated by a grand plan of strategy for controlling the various advances to keep them at a certain level as a whole.

The "line" may be summarized roughly, on the basis of best available information, as follows:

Starting at Strada Blanca, 14 miles up the coast from Porto Palermo, east to Poljana, 11 miles north of Porto Palermo, then due north to the Viosa River, following the Viosa east-southeast to within 1 1/2 miles of Tepelini, then northeast to a point four miles northeast of Kilsura, then zig-zagging north, skirting the Tomorica River to a point in the Mali Spati Mountains within nine miles of Elbasan, then east to Lake Ohrid within one-half mile of Lin.

LUDLOW PLACES FDR SPEECH IN RECORD

WASHINGTON, Dec. 31.—Rep. Louis Ludlow liked President Roosevelt's Christmas Eve speech so well that he inserted it into the Congressional Record today.

The short speech was made at the annual ceremonies connected with the lighting of the national Christmas tree here.

Pointing out that this custom has been carried on for 18 years, Rep. Ludlow said:

"Last Tuesday evening at the lighting of the Yule tree President Roosevelt delivered a masterful address that was full of hope and inspiration based on the fundamentals of Christian faith.

"By unanimous consent of the House, I present the President's address for printing in the Congressional Record, as I think it should be read by everybody."

ROAD PROGRAM GETS U. S. HELP

\$3,340,499 Allotted State; About Same as in Previous Years.

Indiana has been allotted \$3,340,499 by the Federal Works Administration to build highways during the year beginning July 1, 1941.

State Highway Commission officials said this amount is about the same as Indiana received in previous years for Federal-aid roads and bridges.

Under the Federal-aid plan, the State must match the U. S. funds in construction of roads approved by U. S. engineers.

During the present fiscal year, the State Highway Department is completing a \$15,000,000 program, including more than \$3,000,000 of Federal funds.

Federal Works Administrator John M. Carmody, in announcing total allotments of \$134,000,000 for all states, specified that priority must be given roads leading to Army and Navy establishments and plants of defense industries.

CIVIL COURTS' COSTS RAISED

Fees in Municipal Tribunals Too Small, Jackson Tells Brennan.

Attorney General Samuel D. Jackson ruled today that defendants in civil cases in Marion County Municipal Courts should be charged \$1.50 more in court costs than they are being charged at present.

In the opinion to Edward Brennan, chief examiner of the Board of Accounts, Mr. Jackson said that the defendants in the civil actions should be charged a \$2 docket fee which would go to the State and a \$4.50 clerk's service fee, which goes to the county.

He said the State fee was required by law. At the present time the defendants are being charged a \$5 clerk's fee which has been going to the City.

Mr. Jackson also said that the system of charging docket fees in criminal cases in the municipal courts should be changed. He said a \$5 docket fee should be charged, which would go to the City. At the present time a \$5 docket fee is charged, which goes to the county.

The theory here is that arrests in criminal cases are made by City officers and the City should receive the docket fee.

Otto Jensen, chief deputy examiner of the Board of Accounts, said that no attempt would be made to collect the additional \$1.50 in fees from defendants in civil cases which already have been settled because it would be "impossible."

VETERANS INDORSE ROOSEVELT SPEECH

Three resolutions were adopted by the Marion County Democratic Veterans' Organization yesterday at Stegemier's Restaurant, 140 W. Market St.

They were the indorsement of President Roosevelt's speech Sunday night, assuring him the wholehearted support of the organization in the national defense program; the nomination of a committee to work with Governor-elect Henry F. Schricker on progressive legislation favoring veterans and labor, and the indorsement of the appointment of B. Howard Caughan as United States District Attorney.

M'NUTT WARNS OF 'MORALE SABOTAGE'

WASHINGTON, Dec. 31 (U. P.).—Federal Security Administrator Paul V. McNutt said today that abandonment of New Deal social gains would sabotage national morale and hinder the defense drive.
