

# NEW SYSTEM IS 'ERROR-PROOF,' DEERY CLAIMS

Hall to Operate as Bank to Prevent Any More Million Dollar Mistakes.

By RICHARD LEWIS

As an aftermath of the City's \$1,000,000 financial error, a new bookkeeping system has been installed at City Hall to prevent future mistakes. It became operative yesterday.

The new system will replace a method which has been used for many years and which is now regarded as "unsatisfactory" by budget experts. The new system is virtually "error-proof" and is designed to keep departments operating exactly within their budgets, according to City Controller James E. Deery.

Looking over his records yesterday, Mr. Deery estimated that with all 1940 bills paid, the City will begin the New Year with a surplus of \$22,000 cash in the bank. This general fund balance is the net of savings in some departments and deficits in others.

The picture's brighter. Even with a \$300,000 deficit to make up this year, City officials were optimistic about the City's financial condition.

In the gloom that surrounded the discovery of the budget error last summer, officials believed that the City would wind up the year with at least a \$155,000 deficit in addition to the \$300,000 deficit accruing from failure to provide for temporary loan repayments.

But this picture has been rubbed out and the current scene is considerably brighter, according to Mr. Deery who is fairly beaming over the unexpected balance.

The new bookkeeping system, the Controller explained, will require department heads to keep closer check on their allotted funds. In effect, the City Hall will be run like a bank in which each municipal department will keep its account.

When equipment or pay requisitions are written, the amount will automatically be deducted from the account both in the department and in the Controller's office. In the event any money is saved in the equidistant amount, it will be credited back to the departmental account.

Previously, it had been the custom to strike departmental balances after bills were paid. This gave no exact indication of the state of departmental funds until bills came due. Frequently, departments would run short and require transfers of funds to meet outstanding bills.

## ON THE RADIO

**TONIGHT**  
7:00—Kate Smith, WFBM.  
7:30—Cliff Service Concert, WIRE.

9:30—Al Pearce, WFBM.  
9:30—Alec Templeton, WIRE.

Haven MacQuarrie, traveling emcee, and cast, have arrived in Indianapolis for the coast to coast. Four Marriage Club broadcasts will originate in Cagle Theater tomorrow night.

Tickets are now being distributed without charge through local groceries and thousands of local radio fans are expected to make up the studio audience for the two shows. There will be broadcasts at 7 and 10 p. m., with entertainment lasting an hour and a half before each broadcast. This is a Columbia feature and WFBM, its local outlet, will air the program nationally.

For Saturday night's program Mr. MacQuarrie promises to reveal to the Hoosier husband how to persuade the wife not to call him "sweetie pie" and other such endearing phrases in public. Should husbands help with the dishes? Should a wife select her husband's clothes? How much authority should a maid have over the children? These and other pressing questions are to come up for decision.

Four couples selected from the audience are to express their views on these and kindred subjects. Your Marriage Club is on a tour of the United States and is scheduled to visit each city where the Continental Baking Co. program sponsor, has bakeries.

Tonight's midweek fight between Billy Soose and Tami Maurilio in Madison Square Garden will be heard over WENR starting at 9 o'clock. Sam Taub and Bill Stern will be at the microphone.

Guests on tonight's Information Please program, 7:30 WIRE, are to be Vincent Sheean, foreign correspondent and author, and Deems Taylor, the composer.

And how do you like the music that's coming over the ether these days? According to the United Press officials of ASCAP and the networks, the warring factions, are in complete disagreement as to the quality thereof.

"Atrocious," says John G. Faline, ASCAP's general manager, who predicted that the public would not tolerate it long. He termed the
