Douglas and Consolidated May Assemble Parts For Bomber.

SAN DIEGO, Cal., Jan. 9 (U. P.).—Edsel Ford today discusses with officials of Douglas and Consolidated Aircraft plans for pooling their facilities and resources of the Ford Motor Co. in assembly line production of a powerful bomber.

Mr. Ford said the plans were suggested by the Defense Commission and the Army Air Corps. He would manufacture parts in his River Rouge, Mich., plant and ship them to Tulsa, Okla., where Douglas would assemble them, and to Ft. Worth, Tex., where Consolidated would put them together.

He said it would take "a matter of months" to retool his plant, but he added that automotive machinery in the plant was "readily adaptable to the aircraft industry with little change."

Senator Says \$20,000,000 Campaign Cost Estimate Is 'Too Modest.'

WASHINGTON, Jan. 9 (U. P.).—Chairman Guy M. Gillette of the Senate Campaign Expenditures Committee today said the \$20,000,000 campaign expense limitation of the Hatch Act had been "evaded" by both parties to "staggering proportions" in the 1940 campaign.

Mr. Gillette said his earlier estimate of \$20,000,000 expenses for both parties last year was "too modest."

Senator Carl A. Hatch (D. N. M.), author of the "pure politics" act, indicated he would not attempt to plug loopholes in the measure until the campaign committee has made its report. He said he was still considering a measure which would set aside Treasury funds for the use of major parties in elections and would forbid solicitation of money from any other source.

The principal loophole in the Hatch Act, Mr. Gillette declared, is the provision permitting individuals to contribute to local campaigns as well as to their national party committees. Furthermore, he added, the expenses of such organizations as the Willkie and Roosevelt clubs were not included in the \$3,000,000 limit imposed upon the Republican and Democratic parties.

During the recent campaign, he said, state political committees transferred money to each other to "evade the law, but well within the letter of the law." He cited the instance of a \$100,000 loan made to the New Jersey Democratic committee by R. J. Reynolds of the Reynolds Tobacco Co.

DOCTORS stress remaining in bed until the body temperature is normal. Sound advice.

You know how weak you feel after a cold. Colds play havoc in weakening the body. The story is well told in the blood picture. It is important to build back body strength right away to carry the load of work, worries, and loss of sleep. A weakened body may be more susceptible to relapse or long drawn out recovery.
