A.A.U.W.'s Board Will Discuss Problem of Educational Institutions During Wartime

The problem of protecting the State's educational institutions during the war emergency will be discussed at the State board meeting of the American Association of University Women tomorrow morning in the Columbia Club, according to Mrs. R. W. Holmsted of Bloomington, State president.

In stressing the urgency of the problem, Mrs. Holmsted says, "A. A. U. W.'s main objective has always been the support and protection of our great educational system through the agencies of public schools, the universities and libraries. While the military is beyond our borders fighting to defend our way of life, the responsibility of the citizens, especially women, is to maintain those institutions and practices that make for the preservation of our democratic system."

She concludes that A. A. U. W. officers throughout the state must immediately work out ways to confront any effort by others for reduction of the support of education during these times.

Appointment of a nominating committee, purchase of a defense bond and the consideration of a plan to be carried out in every branch of A. A. U. W. for the education of and acquaintance with each alien in the community are other problems to be discussed by board members.

Plan Regional Conference

A report on the plans of the A. A. U. W. regional board made at a meeting in Chicago Dec. 5 relative to the regional conference of university women to be held here May 15 and 16 will be given by Mrs. Holmsted. The state A. A. U. W. also will have its annual convention in conjunction with the regional conference this year on May 16.

Arrangements will be made by the board for a large attendance at the meetings scheduled at Indi-

Making a Soldier of Sugar

As we have sent men abroad to fight for America—as we have sent money—as we have drafted steel, with other commodities, into fighting-service or enlisted wheat and other fighting-foods—so we must make a soldier of sugar.

Nutrient for the nations at war is as vital to the outcome as the powder that feeds the guns. A great nutrient in time of peace—in war a veritable sinew—sugar is now called upon to play a heroic part, to supply the peoples of our Allies—whose strength is ours.

To wrap up sugar in the American flag, so to speak, and put it into the fight becomes a duty of loyalty. It will be borne cheerfully by every industry, every dealer, and every individual it falls upon. Upon certain industries it falls heavily—and especially on the workers who derive their living from them. Yet the American civilian is in this war with the soldier. American business great and small, American capital from Wall Street to the remotest country bank, is with the Government every step of the way. The U. S. means U. S. All of us, are in the fight with everything we have, the best of everything we can do.

This company regards it a privilege to comply with the government's request. It is early to all manufacturers, and it is early to all consumers. The end of conservation we pledge our best efforts in every direction that opportunity may disclose, in manufacture as well as beyond the scope of our immediate interests; and in this effort generally we bespeak the co-operation of dealers and consumers everywhere.

WORLD WAR I 1917

The United States Government restricted the use of sugar in World War I. The response of The Coca-Cola Company was expressed in the newspaper advertisement reproduced at the left.

Again, Sugar enlists for Victory

WORLD WAR II 1942

History repeats itself in World War II. Sugar has been called to war again. Our government has restricted the use of sugar for all. Naturally, that includes Coca-Cola.

You'll continue to find Coca-Cola around the corner from anywhere, though we regret that you won't be able to enjoy the pause that refreshes as often as you might like. Our volume has been reduced. But this we pledge: the character of Coca-Cola will be unimpaired. The American people can continue to trust its quality.

As in 1917, we count upon the patience of dealers everywhere. Conserving sugar is another step toward Victory. Whatever any of us may have, or may not have, Victory we must have above all else!
